

THE
Featherweight
SHOP

IMAGINATION, color and smart fabrics, used in new-old ways will make your home sing a song of harmony! How easy, how economical, and what fun to refresh your rooms with some of the new Singer treatments . . . Here we have a beading, run through with ribbon, such as Grandma had on her best petticoat, and quilting, another of Grandma's favorites, combined in a modern manner with peppermint stripes and gay chintz to make as inviting a room as anyone could want! The bedspreads, the dressing table skirt, the curtains, slip covers on bench and chair — and even the daintily flowered rug all can be made with success on your Singer sewing machine.

Singer offers handy little attachments, too, called Fashion Aids that make lovely trims and finishes amazingly easy. Quilting and cording, for examples, are now as easy to do as straight stitching! Best of all, Singer offers free advice and instructions to help solve your home decoration problems. Telephone or visit your Singer Sewing Center today and ask the teacher about this important part of Singer Service.
