SINGER

Our "**Improved Family**" Sewing Machine, now being introduced and sold by our authorized agents throughout the world, is giving unbounded satisfaction to purchasers. This machine is the result of many years' experience and careful study, united with the outlay of a large amount of money, and the greatest mechanical skill in making tests and experiments that should enable us to offer a Family Machine that would supersede all others.

We claim to have produced such a machine in our "**Improved Family.**" It has no equal for *Range of Work, Perfection of Stitch, Ease of Operation, Speed and Durability.* We have branch offices in all cities and large towns, and sub-agents in almost every village. Buyers of other machines often find that they cannot get parts and repairs when necessary (and their machines are thus rendered useless to them), because the company which made them has no representative in their vicinity, or has gone out of business altogether, as over fifty Sewing Machine Companies have in the past five years. No buyer of a **Singer** experiences this difficulty, as we are represented everywhere, and are there to attend to the wants of our customers, *and to stay.*

Machines sold on the most favorable instalment terms, and liberal discount for cash.

THE SINGER MANUFACTURING COMPANY.

Agencies in all important Towns and Cities throughout the World.
