

### No Compromise Wet & Dry Vacuum Cleaning

The Wet & Dry ATTIX 5 is perfect for users who need a larger capacity container with features that focus on efficiency. Our most silent vacuum, ever, with superior suction performance, automatic filter cleaning, anti-static capability and many other features.

The larger size of the ATTIX 5 allows you to work longer without emptying the container, and with a wide range of models available, it's difficult to imagine that you won't find a perfect match for your wet or dry vacuum cleaning tasks. Operating costs are minimized with the washable PET Fleece filter elements, and the low working noise level lets you work when others are nearby, without disturbing them. Automatic On/Off models are the choice of people who use the machine with electric hand tools because starting or stopping the tool starts and stops the vacuum, as well. An accessory Airbox is available which performs the same function when using pneumatic tools.

### PRODUCT FACTS

- Robust, ergonomic, and powerful... the definition of ATTIX 5.
- XtremeClean fully automatic filter cleaning system (on many models) takes care of filter cleaning tasks in just a few seconds without interrupting your work for a second.
- Washable PET Fleece filter for high efficiency and low maintenance costs.
- SilentPower. High performance that is seen, but not heard.
- 45 litre container volume and a filter bag for the ultimate in effective filtration.
