

No Compromise Wet & Dry Vacuum Cleaning

Nilfisk-ALTO ATTIX 3 is a compact and flexible vacuum cleaner - the perfect solution when space is limited, and suitable for craftsmen and other professionals on the move. Just because this machine is compact does not mean it is short on features and performance.

The small size and big performance of the ATTIX 3, along with the wide range of models available, make it a perfect choice for people who move with their work from place to place. Operating costs are minimized with the use of washable PET Fleece filter elements, and the low working noise level lets you work when others are nearby, without disturbing them. Automatic On/Off models are the choice of people who use the machine with electric hand tools because starting or stopping the tool starts and stops the vacuum, as well. An accessory Airbox is available which performs the same function when using pneumatic tools.

PRODUCT FACTS

- Compact, ergonomic, and powerful... the definition of ATTIX 3.
- Push&Clean filter cleaning system (on many models) takes care of filter cleaning tasks in just a few seconds.
- Washable PET Fleece filter for high efficiency and low maintenance costs.
- SilentPower. High performance that is seen, but not heard.
- 27 litre container volume and a filter bag for the ultimate in effective filtration.
