

**MATRIX SDV8**

Steam, Chemical & Vacuum 8 bar

- The SDV8 gives you the added advantage of injecting chemical from the lance allowing for chemical penetration prior to steaming thus increasing the cleaning performance.
- This device has been specifically designed to sanitize, eliminate bacteria and ensure commercial and industrial surfaces are left dry with its vacuum action.
- The integrated vacuum and chemical system makes storage and transportation simple and compact.
- The SDV8 is durable with a stainless steel body and boiler providing continual steam output for extended periods.
- The continuous fill boiler allows for refill anytime meaning increased productivity.

**Standard consumable accessories:**
