

# Rack Buddy

Design. Build. Make it yours.

**“Everything is possible,  
the only limit is your imagination!”**

# Rack Buddy

RackBuddy is a Danish company that offers unique interior solutions for everything from private customers to shop owners. Our idea is that a clothes rack can be a piece of furniture shaping the identity of a location. We can help you with the complete furnishing of your private wardrobe, as well as boutiques, showrooms and more. We place high value in quality craftsmanship at prices that everyone can afford. With the help of our skilled carpenters, all of our products are produced by ourselves in Denmark.

We live and breathe interior design and want to share our passion with you. Our products combine functionality with a simple, unique design. We get inspired by industrial design and incorporate lots of iron elements in our work, as well as classic aesthetics in the form of pine and oak wood.

Our purpose is to make it possible for you to create a unique environment at your home or your store. Everything we produce can be customized exactly to your needs. Together, we can design the interior solutions of your dreams!

## **Design. Build. Make it yours.**

RackBuddy was created based on the idea that a clothes rack can be a piece of furniture shaping the identity of its owner's home.

Your clothes express who you are! Often, you spend a lot of time, money and consideration on new pieces in your wardrobe. Why should you hide them in a closet and possibly forget them? Why not display them and integrate them into your interior? And why would you carefully select well designed tables, chairs and lamps that fit perfectly into your home but settle for a clothes rack for mere practical reasons?

We believe that the design of your wardrobe and its functionality should go hand in hand. That is why we offer you robust and well-designed wardrobe solutions that will last for a long time and perfectly support your individual style and needs.

Choose among a variety of clothes rack models from 6 different collections or let us help you to design your own wardrobe solution!

## **Original Collection**

Our Original Collection of clothes racks features seventeen designs made out of black iron pipes, which give the racks both an unpolished and elegant look. If you want to add an industrial, New York-style element to your store or your home, this is just the right solution for you.

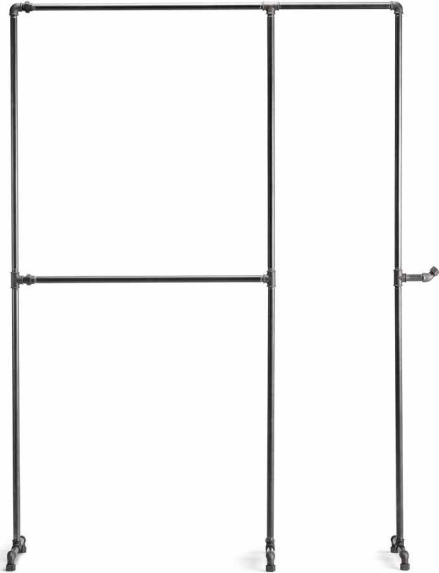

It doesn't always have to be expensive to furnish one's new store or give one's boutique an industrial make-over. We are happy to help you find solutions for big as well as small stores. All of the Original Collection's designs can be ordered in customized sizes, but we can also create individual and unique clothes racks and shelving systems based on your ideas.

Our Original Collection clothes racks have been used and tested in many stores already – it is therefore guaranteed that the only thing you will have to concern yourself with is to sell your clothes!

## Wild Bill Elliot

Make space for lots of your clothes with RackBuddy's Wild Bill Elliot! Besides two rails for shirts, blouses and sweaters, Wild Bill Elliot also offers you an extra rail for jackets and dresses as well as a practical hook for your bags.

## Friendship Collection

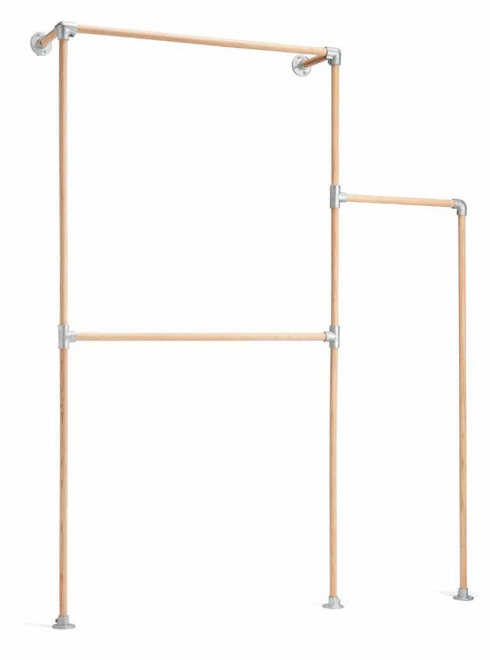

Our Friendship Collection of clothes racks features ten designs made from oak wood and iron fittings. It has a very classic, clean look that will help to put your clothes in the spotlight.

We wouldn't be here without our buddies that have supported us along the way - with their advice, contacts or just their spirit. Our story finds its roots with these people which have created the base for us to grow bigger and stronger - just like a tree. That is why we chose to create a new collection mainly out of wood. It is dedicated to some of our most important friends who have helped us to keep everything together along the way. We could always count on their support - just as our new racks can count on the support of the iron fittings that hold them.

If you are looking for a classic, Scandinavian style wardrobe solution, our Friendship Collection is just the thing for you!

## Signe

Signe is a stable clothes rack that is perfect for everybody with a lot of clothes. The rack lets you store your shirts, sweaters and tops on two rails situated above each other. Further, the extra rail also fits long dresses and jackets and can be placed in exactly the angle towards the main part of the rack, that you wish.

### Dimensions\*

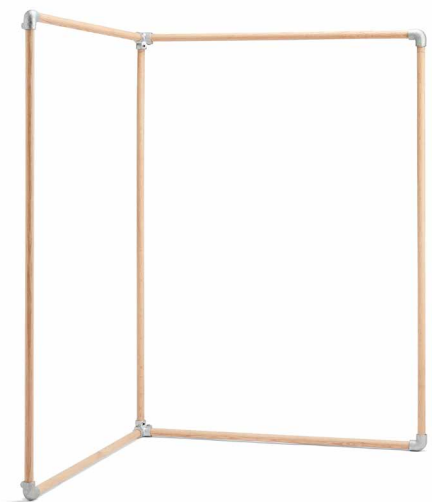

Width	Height	Depth
164	204	29

## Sarah

Sarah is a unique and simplistic clothes rack for everybody with a lot of clothes. The Sarah clothes rack is a combination of two rails and is designed to stand in the corner of a room. The design is simple but functional and can be adapted to the rooms walls and furniture, as it can be placed in the exact angle you wish.

### Dimensions\*

## Silver Collection

Following the growing demand for our Original Collection in a different colour, we have decided to launch a silver version of our classic RackBuddy designs.

Our Silver Collection of clothes racks features ten designs made out of galvanized iron pipes, which are giving the racks both an unpolished and elegant look. If you like the industrial, New-York look of our Original Collection, but are searching for something that is not contrasting as much with a feminine, bright interior, this collection is perfect for you!

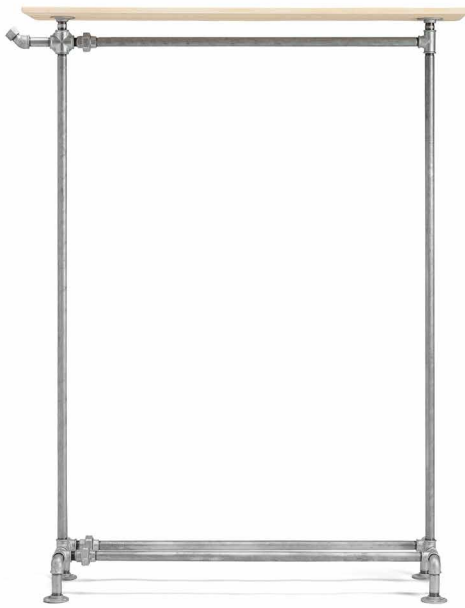

It doesn't always have to be expensive to furnish one's new store or give one's boutique an industrial make-over. We are happy to help you find solutions for big as well as small stores. All of the Silver Collections designs can be ordered in customized sizes, but we can also create individual and unique clothes racks and shelving systems based on your ideas.

As our Original Collection clothes racks have been used and tested in many stores already - it is guaranteed that their silver counterparts will serve their purpose in the best way possible as well. They are extremely robust, easily modifiable and look great with any interior!

## Billy Silver

Billy is one of the most practical clothes racks in the product line. The Billy clothes rack has a top shelf for hats, boxes, decoration and more, as well as a shoe shelf in the bottom. It features a practical hook that can be used for bags, jackets or jewellery. With its many options, the clothes rack is incredibly functional in everyday life.

## **Nordic Collection**

Our Nordic Collection of clothes racks features six designs made from oak wood and iron water pipes. The industrial look of the black or silver water pipes is complemented with a classic Scandinavian twist with high-quality oak wood, available in three different shades.

The design of this clothes rack collection was inspired by the classic A-frame Viking tent that has been used by the Nordic sailors, traders, fighters and plunderers more than a thousand years ago, as they explored and settled other European lands. The Viking culture has left a lasting impact on arts, technology and trade in every population they encountered and is an important part of Danish history up until today.

To celebrate our Scandinavian roots, all models are named after important characters of the Norse Mythology.

We are Nude The essence of space

<i>Dark original</i>	<i>Dark brown oak</i>

## Frame Collection

Meet the RackBuddy Frame Collection! All unnecessary elements are taken away from the clothes racks in this new RackBuddy series. Left is a geometric, modern design focusing on functionality.

The clothes racks are made to create the perfect frame for your clothes, allowing you to express your own personal style. The cubic design of the Frame Collection fits with many different interior styles. It is up to the owner to give it its personality and character - like a white canvas or an empty frame.

The main elements of the Frame Collection are made from quadrangular shapes: the base which gives a stable foundation with a shelf in the bottom, as well as the frame of the clothes rack, which ends with the rail in the top. The screws are visible and add an elegant detail to the minimal design. Despite their sleek look, all clothes racks from the Frame Collection are very stable, no matter how much clothing is hanging on them.

White	Black**	Brass / Silver / Black

## **Elements Collection**

We love functionality and are trying to create solutions, that can be adapted exactly to the needs of their owners. The RackBuddy Elements Collection is our most flexible wardrobe solution yet.

The Rackbuddy Elements Collection bar made of industrial iron allows you to design your own open wardrobe system of your dreams. The system is easy: you mount the iron bars to the wall and add rails, shelves or hooks exactly where you need them to be. The more bars you use, the more options for different constellations you have. Each element can be removed and placed at another spot within minutes.

This solution lets you change up things easily and is therefore also perfect for clothing stores. It further matches perfectly with all other clothes racks from our Original Collection.

## Iron Bar

The bars are the base for everything in this collection. You can combine them freely and they can be extended piece by piece. You decide how many bars you place next to each other! However, for all shelves and rails, you will need a minimum of two bars.

### Dimensions\*

Width                      Height

10

200

### Mounts and placement\*

The bars need to be mounted at a distance of 59 cm from center to center. On each bar, there are 5 mounts in which you can screw the pins, rails and shelves. You can easily unscrew them and place them on another height or on a different side within minutes. The mounts are at the following heights from the bottom edge of the rail:

1<sup>st</sup>

2<sup>nd</sup>

3<sup>rd</sup>

4<sup>th</sup>

5<sup>th</sup>

20

60

100

140

185

## Hook

The hook for our RackBuddy Elements Collection is perfect for T-shirts, jackets and other pieces of clothing. The hook made of black water pipe fits on all mounts and can be moved around as pleased.

### Dimensions\*

Length

30

## Clothing rails

Depending on how many bars you chose as a base, this collection offers many different clothes rail solutions. You can mix and match as much as you want, as all rails can be placed in every mount and can easily be switched and removed. Order multiple rails and combine them to create your own custom wardrobe system. For example, place two of the rails on top of each other to get the maximum space for shirts, or choose to leave one side shorter to be able to hang long dresses as well. It is completely up to you.

### For 2 bars

The clothes rail fits on 2 bars and can be combined with the many other modules of the RackBuddy Elements Collection.

#### Dimensions\*

Width	Depth
59	30

### For 3 bars

The clothes rails can be mounted into the Elements Collection in many different combinations across the width of 3 bars.

#### Dimensions\*

Width	Depth
118	30

### For 4 bars

The triple clothes rail is perfect for those who want to place 4 bars side by side.

#### Dimensions\*

Width	Depth
177	30

### For 5 bars

This rail goes over the length of 5 of the iron bars. It will only be attached to the bars at the ends and in the middle of the rail.

#### Dimensions\*

Width	Depth
236	30

# Shelves

Just as the Pin and the rails, all shelves of the Elements Collection can be placed in all positions of the system. They don't only offer shelf space, but all have a rail for hanging clothes underneath the shelf as well. You will therefore get a spot for your shoes and bags, as well as extra rails for hanging shirts, jackets and more.

## For 2 bars

This shelf fits across the width of 2 iron bars. You can switch its positioning easily and create a new setup as often as you want.

### Dimensions\*

Width	Depth
(80)	(30)

### Colors

Shelf

Oak / Light pine / Dark pine

## For 3 bars

For the RackBuddy Elements Collection, we created a shelf that is extra wide and fits across the width of 3 bars. Combine it with all other elements from this collection.

## **Customized interior solutions**

At RackBuddy we design full interiors and customized fixtures for clothing stores and showrooms. We think creatively and build solutions that are stable and functional for all kinds of clothes and accessories. Our customers get involved throughout the whole process and together, we find the solution that best fits the brand and its needs. We manufacture the furniture ourselves, which allows us to be very flexible in our design process. With our help, you can create a unique shop interior for your brand that will last you for a long time!

Even though we are focusing on the fashion industry, we also have the skills and possibilities to create the interior design for other exciting projects - from private homes to wine bars and restaurants.

On the following pages you can see impressions of some of our favourite projects.

## **RackBuddies since 2013**

RackBuddy was created by Martin Heinze and Lasse Nielsen, two Danes in their 30s who have always dreamt of creating their own business.

It all started in 2013, when Martin and Lasse built their first clothes rack in a small garage. Martin had been searching for a stable, customizable open wardrobe solution for his new apartment, but did not find anything that was matching his vision. All existing offers were either unstable or had tasteless design. Therefore, the two owners decided to build a clothes rack themselves. More than satisfied with the outcome, they were determined to design more racks out of water pipes for friends and acquaintances.

Martin and Lasse noticed soon that their product had great potential and demand was picking up. When they first launched their website, they did not even dare to dream of having their own RackBuddy showroom just two years later.

With Danish Design at its best, RackBuddy is now taking on the challenge to become successful with its clothes racks in all of Europe.
