Independent Auditor's Report
To the Shareholders of
Canopy Growth Corporation

We have audited the accompanying consolidated financial statements of Canopy Growth Corporation (formerly Tweed Marijuana Inc.), which comprise the consolidated statements of financial position as at March 31, 2016 and 2015, and the consolidated statements of net loss and comprehensive loss, consolidated statements of changes in shareholders' equity and consolidated statements of cash flows for the year ended March 31, 2016 and the fifteen-month period ended March 31, 2015, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Canopy Growth Corporation as at March 31, 2016 and 2015, and its financial performance and its cash flows for the year ended March 31, 2016 and the fifteen-month period ended March 31, 2015, in accordance with International Financial Reporting Standards.

1. Description of business

On September 17, 2015, at the annual and special general meeting, shareholders approved changing the name of Tweed Marijuana Inc. to Canopy Growth Corporation.

Canopy Growth Corporation or the "Company", formerly LW Capital Pool Inc. ("LW Capital"), is the parent company of Tweed Inc. ("Tweed"), Tweed Farms Inc. (formerly Prime 1 Construction Services Corp.) ("Tweed Farms"), Bedrocan Canada Inc. ("Bedrocan"), which are all licensed producers of medical marijuana in Canada, and 9388036 Canada Inc. The principal activities of Tweed and Bedrocan are the production and sale of medical marijuana and the principal activity of Tweed Farms is the growing, possession and shipping of medical marijuana as regulated by the Marihuana for Medical Purposes Regulations ("MMPR"). Canopy Growth Corporation is a publicly traded corporation, incorporated in Canada, with its head office located at 1 Hershey Drive, Smiths Falls, Ontario. The Company's common shares are listed on the TSXV, under the trading symbol "CGC" (see Note 21 b. Subsequent events).

Tweed Farms was acquired on June 18, 2014. Additional information on the transaction is disclosed in Note 10 a.

On November 24, 2014, the Canada Revenue Agency approved the year-end change for Canopy Growth Corporation to March 31 and the Company officially changed its year end date. This was done to conform with the Company's two operating subsidiaries, Tweed Inc. and Tweed Farms Inc., which had March 31 year ends. As a result, the Company's March 31, 2015 year end consolidated financial statements include 15 months.

On August 28, 2015, the Company acquired Bedrocan Cannabis Corp. which included all of the issued and outstanding securities of Bedrocan. Bedrocan became a subsidiary of the Company upon the closing of the transaction. Additional information on the transaction is disclosed in Note 10 b.

On October 1, 2015, the Company acquired all of the issued and outstanding shares of several companies, which collectively operated as "MedCann Access", by way of an amalgamation with 9421653 Canada Inc., a shell company which was a wholly-owned subsidiary of the Company, pursuant to an Amalgamation Agreement (the "Amalgamation"). 9388036 Canada Inc. is the post-amalgamation company resulting from the acquisition of MedCann Access. Additional information on the transaction is disclosed in Note 10 c.

2. Basis of presentation

Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS").

These consolidated financial statements were approved by the Board of Directors and authorized for issue by the Board of Directors on June 26, 2016.

Basis of measurement

These consolidated financial statements have been prepared in Canadian dollars on a historical cost basis except for biological assets and acquisition related contingent liabilities and derivative, which are measured at fair value. Historical cost is generally based upon the fair value of the consideration given in exchange for assets.

Basis of consolidation

These consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries.

3. Significant accounting policies

(a) Foreign currency translation

All figures presented in the consolidated financial statements and tabular disclosures to the consolidated financial statements are reflected in Canadian dollars, which is the functional currency of the Company.

Foreign currency transactions are translated into Canadian dollars at exchange rates in effect on the date of the transactions. Monetary assets and liabilities denominated in foreign currencies at the statement of financial position date are translated to Canadian dollars at the foreign exchange rate applicable at that date. Realized and unrealized exchange gains and losses are recognized through profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

(b) Biological assets

The Company measures biological assets consisting of medical cannabis plants at fair value less cost to sell up to the point of harvest, which becomes the basis for the cost of finished goods inventories after harvest. Seeds are measured at fair market value. Unrealized gains or losses arising from changes in fair value less cost to sell during the year are included in the results of operations of the related year.

(c) Inventory

Inventories of harvested finished goods and packing materials are valued at the lower of cost and net realizable value. Inventories of harvested cannabis are transferred from biological assets at their fair value at harvest, which becomes the initial deemed cost. Any subsequent post-harvest costs are capitalized to inventory to the extent that cost is less than net realizable value. Net realizable value is determined as the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Cost is determined using the average cost basis. Products for resale and supplies and consumables are valued at the lower of cost and net realizable value.

(d) Property, plant and equipment

Property, plant and equipment is measured at cost less accumulated amortization and impairment losses. Amortization is provided on a straight-line basis over the following terms:

Computer software and equipment	2-3 years
Office/lab equipment	5 years
Furniture and fixtures	3-10 years
Production, security equipment and other	20 years
Leasehold/building improvements	3-20 years
Building	15 years
Greenhouse	25 years

An asset's residual value, useful life and amortization method are reviewed at each financial year and adjusted if appropriate. When parts of an item of equipment have different useful lives, they are accounted for as separate items (major components) of equipment.

Gains and losses on disposal of an item are determined by comparing the proceeds from disposal with the carrying amount of the item and recognized in profit or loss.

Assets under capital lease are amortized according to their asset category.

Assets in process are transferred to leasehold/building improvements or production, security equipment and other when the assets are available for use and amortization of the assets commences at that point.

3. Significant accounting policies (continued)

(e) Finite-lived and indefinite-lived intangible assets

Finite-lived intangible assets are comprised of a domain name and an acquired Health Canada license which are recorded at cost less accumulated amortization and accumulated impairment losses. The domain name and Health Canada license are amortized on a straight-line basis over five years and fourteen years, respectively. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful lives are comprised of acquired product rights which are carried at cost less accumulated impairment losses.

(f) Impairment of long-lived assets

Long-lived assets, including equipment and intangible assets are reviewed for impairment at each statement of financial position date or whenever events or changes in circumstances indicate that the carrying amount of an asset exceeds its recoverable amount. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the cash-generating unit, or "CGU"). The recoverable amount of an asset or a CGU is the higher of its fair value, less costs to sell, and its value in use. If the carrying amount of an asset exceeds its recoverable amount, an impairment charge is recognized immediately in profit or loss by the amount by which the carrying amount of the asset exceeds the recoverable amount. Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the lesser of the revised estimate of recoverable amount, and the carrying amount that would have been recorded had no impairment loss been recognized previously.

(g) Goodwill

Goodwill represents the excess of the price paid for the acquisition of an entity over the fair value of the net identifiable tangible and intangible assets and liabilities acquired. Goodwill is allocated to the CGU or CGUs to which it relates. The Company has determined that the goodwill associated with the Bedrocan and MedCann Access acquisitions belongs to the medical marijuana segment. Currently, the Company has one reportable segment.

Goodwill is evaluated for impairment annually or more often if events or circumstances indicate there may be an impairment. Impairment is determined for goodwill by assessing if the carrying value of a CGU, including the allocated goodwill, exceeds its recoverable amount determined as the greater of the estimated fair value less costs to sell and the value in use. Impairment losses recognized in respect of a CGU are first allocated to the carrying value of goodwill and any excess is allocated to the carrying amount of assets in the CGU. Any goodwill impairment is recorded in income in the period in which the impairment is identified. Impairment losses on goodwill are not subsequently reversed.

(h) Investment in associates

The Company has an interest in an associate. Associates are entities over which the Company exercises significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but without control or joint control over those policies. The Company accounts for associates using the equity method of accounting. Interests in associates accounted for using the equity method are initially recognized at cost. Subsequent to initial recognition, the carrying value of the Company's interest in an associate is adjusted for the Company's share of comprehensive income and distributions of the investee. The carrying value of associates is assessed for impairment at each balance sheet date.

3. Significant accounting policies (continued)

(i) Leased assets

Leases are classified as an operating lease whenever the terms of the lease do not transfer substantially all of the risks and rewards of ownership to the lessee. Lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which the economic benefits are consumed.

(j) Revenue recognition

Revenue is recognized at the fair value of consideration received or receivable. Revenue from the sale of goods is recognized when all the following conditions have been satisfied:

- the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the entity; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

(k) Research and development

Research costs are expensed as incurred. Development expenditures are capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development to use or sell the asset. Other development expenditures are recognized in profit or loss as incurred. To date, no development costs have been capitalized.

(l) Income taxes

The Company uses the liability method to account for income taxes. Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the carrying amounts of existing assets and liabilities for accounting purposes, and their respective tax bases. Deferred income tax assets and liabilities are measured using tax rates that have been enacted or substantively enacted applied to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities of a change in statutory tax rates is recognized in profit or loss in the year of change. Deferred income tax assets are recorded when their recoverability is considered probable and are reviewed at the end of each reporting period.

(m) Share-based compensation

The Company has an employee stock option plan. The Company measures equity settled share-based payments based on their fair value at the grant date and recognizes compensation expense over the vesting period based on the Company's estimate of equity instruments that will eventually vest. Expected forfeitures are estimated at the date of grant and subsequently adjusted if further information indicates actual forfeitures may vary from the original estimate. The impact of the revision of the original estimate is recognized in profit or loss such that the cumulative expense reflects the revised estimate. For stock options granted to non-employees the compensation expense is measured at the fair value of the good and services received except where the fair value cannot be estimated in which case it is measured at the fair value of the equity instruments granted. The fair value of share-based compensation to non-employees is periodically re-measured until counterparty performance is complete, and any change therein is recognized over the period and in the same manner as if the Company had

3. Significant accounting policies (continued)

(m) Share-based compensation (continued)

paid cash instead of paying with or using equity instruments. Consideration paid by employees or non-employees on the exercise of stock options is recorded as share capital and the related share-based compensation is transferred from share-based reserve to share capital.

(n) Earnings (loss) per share

The Company presents basic and diluted earnings (loss) per share data for its common shares. Basic earnings (loss) per share is calculated by dividing the profit or loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per share is determined by adjusting the profit or loss attributable to common shareholders and the weighted average number of common shares outstanding, adjusted for the effects of all dilutive potential common shares, which comprise warrants and share options issued.

(o) Financial instruments

Financial assets

The Company initially recognizes financial assets at fair value on the date that they are originated. All financial assets (including assets designated at fair value through profit or loss) are recognized initially on the date at which the Company becomes a party to the contractual provisions of the instrument. The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognized as a separate asset or liability.

The Company classifies its financial assets as financial assets at fair value through profit or loss or loans and receivables. A financial asset is classified at fair value through profit or loss if it is classified as held for trading or is designated as such upon initial recognition. Financial assets are designated at fair value through profit or loss if the Company manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Company's documented risk management or investment strategy. Financial assets at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss.

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value. Subsequent to initial recognition loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

Financial liabilities

The Company initially recognizes financial liabilities at fair value on the date that they are originated. All financial liabilities (including liabilities designated at fair value through profit or loss) are recognized initially on the date at which the Company becomes a party to the contractual provisions of the instrument. The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire.

The Company classifies its financial liabilities as either financial liabilities at fair value through profit or loss or other liabilities. Subsequent to initial recognition other liabilities are measured at amortized cost using the effective interest method. Financial liabilities at fair value are stated at fair value with changes being recognized in profit or loss.

3. Significant accounting policies (continued)

(o) Financial instruments (continued)

Classification of financial instruments

The Company classifies its financial assets and liabilities depending on the purpose for which the financial instruments were acquired, their characteristics, and management intent as outlined below:

	Classification
Cash	Fair value through profit or loss
Accounts receivable	Loans and receivable
Short-term investment	Loans and receivable
Restricted investment	Loans and receivable
Accounts payable and accrued liabilities	Other liabilities
Long-term debt	Other liabilities
Acquisition consideration related liabilities	Fair value through profit or loss

Effective interest method

The effective interest method is a method of calculating the amortized cost of a financial instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Transaction costs

Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

Impairment of financial assets

Financial assets, other than those classified at fair value through profit or loss, are assessed for indicators of impairment at the end of the reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

(p) Critical accounting estimates and judgments

The preparation of the consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

3. Significant accounting policies (continued)

(p) Critical accounting estimates and judgments (continued)

Biological assets and inventory

In calculating the value of the biological assets and inventory, management is required to make a number of estimates, including estimating the stage of growth of the cannabis up to the point of harvest, harvesting costs, selling costs, sales price, wastage and expected yields for the cannabis plant. In calculating final inventory values, management is required to determine an estimate of spoiled or expired inventory and compares the inventory cost to estimated net realizable value.

Estimated useful lives and amortization of property, plant and equipment and intangible assets

Amortization of property, plant and equipment and intangible assets are dependent upon estimates of useful lives, which are determined through the exercise of judgment. The assessment of any impairment of these assets is dependent upon estimates of recoverable amounts that take into account factors such as economic and market conditions and the useful lives of assets.

Share-based compensation

In calculating the share-based compensation expense, key estimates such as the rate of forfeiture of options granted, the expected life of the option, the volatility of the Company's stock price and the risk free interest rate are used.

Warrants

In calculating the value of the warrants, key estimates such as the value of the common share, the volatility of the Company's stock price and the risk free interest rate are used.

Provisions

Provisions are recognized when the Company has a present obligation, legal or constructive as a result of a previous event, if it is probable that the Company will be required to settle the obligation and a reliable estimate can be made of the obligation. The amount recognized is the best estimate of the expenditure required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligations. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate of the expected future cash flows.

Business combinations

In determining the allocation of the purchase price in a business combination, including any acquisition-related contingent consideration, estimates including market based and appraisal values are used. The contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates in accordance with IAS 39, or IAS 37 Provisions, Contingent Liabilities and Contingent Assets, as appropriate, with the corresponding gain or loss being recognized in profit or loss. Judgment is used in determining whether an acquisition is a business combination or an asset acquisition.

3. Significant accounting policies (continued)

(q) New and revised IFRS in issue but not yet effective

Amendments to IAS 16 and IAS 41

IAS 16 *Property, Plant and Equipment* and IAS 41 *Agriculture* are amended to:

- include 'bearer plants' within the scope of IAS 16 rather than IAS 41, allowing such assets to be accounted for as property, plant and equipment and measured at initial recognition on a cost or revaluation basis in accordance with IAS 16;
- introduce a definition of 'bearer plants' as a living plant that is used in the production or supply of agricultural produce, is expected to bear produce for more than one period and has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales; and
- clarify that produce growing on bearer plants remains within the scope of IAS 41.

This amendment is applicable to annual periods beginning on or after January 1, 2016. The Company does not anticipate a significant change from its current policy as the carrying cost of bearer plants is negligible.

Amendments to IAS 16 and IAS 38

Amends IAS 16 *Property, Plant and Equipment* and IAS 38 *Intangible Assets* to:

- clarify that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate for property, plant and equipment;
- introduce a rebuttable presumption that an amortization method that is based on the revenue generated by an activity that includes the use of an intangible asset is inappropriate which can only be overcome in limited circumstances where the intangible asset is expressed as a measure of revenue, or when it can be demonstrated that revenue and the consumption of the economic benefits of the intangible asset are highly correlated; and
- add guidance that expected future reductions in the selling price of an item that was produced using an asset could indicate the expectation of technological or commercial obsolescence of the asset, which in turn, might reflect a reduction of the future economic benefits embodied in the asset.

This amendment is applicable to annual periods beginning on or after January 1, 2016.

Disclosure Initiative (Amendments to IAS 1)

Amends IAS 1 *Presentation of Financial Statements* to address perceived impediments to preparers exercising their judgement in presenting their financial reports by making the following changes:

- clarification that information should not be obscured by aggregating or by providing immaterial information, materiality considerations apply to all parts of the financial statements, and even when a standard requires a specific disclosure, materiality considerations do apply;
- clarification that the list of line items to be presented in these statements can be disaggregated and aggregated as relevant and additional guidance on subtotals in these statements and clarification that an entity's share of OCI of equity-accounted associates and joint ventures should be presented in aggregate as single line items based on whether or not it will subsequently be reclassified to profit or loss; and
- additional examples of possible ways of ordering the notes to clarify that understandability and comparability should be considered when determining the order of the notes and to demonstrate that the notes need not be presented in the order so far listed in paragraph 114 of IAS 1.

This amendment is applicable to annual periods beginning on or after January 1, 2016.

3. Significant accounting policies (continued)

(q) New and revised IFRS in issue but not yet effective (continued)

Amendments to IAS 12

Amends IAS 12 *Income Taxes* are amended to clarify the following aspects:

- Unrealised losses on debt instruments measured at fair value and measured at cost for tax purposes give rise to a deductible temporary difference regardless of whether the debt instrument's holder expects to recover the carrying amount of the debt instrument by sale or by use;
- The carrying amount of an asset does not limit the estimation of probable future taxable profits;
- Estimates for future taxable profits exclude tax deductions resulting from the reversal of deductible temporary differences; and
- An entity assesses a deferred tax asset in combination with other deferred tax assets. Where tax law restricts the utilisation of tax losses, an entity would assess a deferred tax asset in combination with other deferred tax assets of the same type.

This amendment is applicable to annual periods beginning on or after January 1, 2017.

Disclosure Initiative (Amendments to IAS 7)

Amends IAS 7 *Statement of Cash Flows* to improve information provided to users of financial statements about an entity's financial activities by making the following changes:

- The following changes in liabilities arising from financing activities are disclosed (to the extent necessary): (i) changes from financing cash flows; (ii) changes arising from obtaining or losing control of subsidiaries or other businesses; (iii) the effect of changes in foreign exchange rates; (iv) changes in fair values; and (v) other changes;
- The IASB defines liabilities arising from financing activities as liabilities "for which cash flows were, or future cash flows will be, classified in the statement of cash flows as cash flows from financing activities". It also stresses that the new disclosure requirements also relate to changes in financial assets if they meet the same definition; and
- Changes in liabilities arising from financing activities must be disclosed separately from changes in other assets and liabilities.

This amendment is applicable to annual periods beginning on or after January 1, 2017.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 was issued by the IASB in May 2014 and specifies how and when revenue should be recognized based on a five-step model, which is applied to all contracts with customers. IFRS 15 becomes effective for annual periods beginning on or after January 1, 2018 with early adoption permitted.

IFRS 9 Financial Instruments ("IFRS 9")

IFRS 9 was issued by the International Accounting Standards Board ("IASB") in November 2009 and October 2010 and will replace IAS 39. IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Two measurement categories continue to exist to account for financial liabilities in IFRS 9, fair value through profit or loss ("FVTPL") and amortized cost. Financial liabilities held-for-trading are measured at FVTPL, and all other financial liabilities are measured at amortized cost unless the fair value option is applied. The treatment of

3. Significant accounting policies (continued)

(q) New and revised IFRS in issue but not yet effective (continued)

embedded derivatives under the new standard is consistent with IAS 39 and is applied to financial liabilities and non-derivative hosts not within the scope of the standard. The effective date of IFRS 9 is January 1, 2018.

IFRS 16 Leases

IFRS 16 was issued by the IASB in January 2016 and specifies the requirements to recognize, measure, present and disclose leases. IFRS 16 is effective for annual periods beginning on or after January 1, 2019 with early adoption permitted.

The Company is assessing the impact of the new or revised IFRS standards in issue but not yet effective on its financial position and financial performance.

4. Restricted Investment

The long-term restricted investment balance consists of a $246 guaranteed investment certificate maturing May 28, 2017 bearing an annual interest rate of 1.6%. This investment is held by the bank as collateral for an issued Letter of Credit for the Industrial Electricity Incentive Contract Stream 3.

5. Reverse acquisition

On March 26, 2014, LW Capital completed its Qualifying Transaction, which was effected pursuant to an agreement between LW Capital and the Company. Pursuant to the agreement, LW Capital acquired all of the issued and outstanding shares of the Company. The former shareholders of the Company received an aggregate of 32,042,607 common shares of LW Capital for all of the outstanding company common shares. The transaction is a reverse acquisition of LW Capital and has been accounted for under, Share-based Payment. Accordingly, the transaction has been accounted for at the fair value of the equity instruments granted by the shareholders of the Company to the shareholders and option holders of LW Capital. The difference between the fair value of the consideration paid of $1,302 (based on the fair value of common shares just prior to the reverse acquisition) and the LW Capital net assets acquired of $336, of $966, has been recognized as a listing expense in the statement of net loss and comprehensive loss for the fifteen months ended March 31, 2015. Costs of the transaction of $225 were also expensed during the fifteen months ended March 31, 2015.

The results of operations of LW Capital are included in the consolidated financial statements from the date of the reverse acquisition of March 26, 2014.

The following represents management's estimate of the fair value of the net assets acquired at March 26, 2014 as a result of the reverse acquisition.

Fair value of share consideration paid (6,855 shares)	$	**1,302**
Cash		**449**
Prepaid expenses		**5**
Accounts payable and accrued liabilities		**(118)**
Net assets acquired	$	**336**
Listing expense	$	**966**

6. Biological assets and inventory

The Company's biological assets consists of seeds and medical cannabis plants. The continuity of biological assets for the year ended March 31, 2016 and the fifteen-month period ended March 31, 2015 is as follows:

	March 31, 2016	March 31, 2015
Carrying amount, March 31, 2015	**$ 2,028**	$ -
Purchase (use) of seeds	**(92)**	367
Acquired biological assets	**1,799**	-
Changes in fair value less costs to sell due to biological transformation	**38,897**	8,208
Transferred to inventory upon harvest	**(37,311)**	(6,547)
Carrying amount, March 31, 2016 and 2015	**$ 5,321**	$ 2,028

As at March 31, 2016, included in the carrying amount of biological assets is $275 in seeds and $5,046 in live plants ($367 in seeds and $1,661 in live plants as at March 31, 2015).

The significant assumptions used in determining the fair value of medical cannabis plants are as follows:

- wastage of plants based on their various stages;
- yield by plant;
- percentage of costs incurred to date compared to the total costs to be incurred are used to estimate the fair value of an in-process plant;
- percentage of costs incurred for each stage of plant growth was estimated.

On average, the grow cycle is 12 weeks. All of the plants are to be harvested as agricultural produce (i.e., medical cannabis) and all of the plants, on average, were 42% from harvest as at March 31, 2016. Mother plants, or bearer plants, are plants grown for the purpose of taking cuttings in order to grow more quantity of the same plant. Bearer plants are critical to the success of the business however, are not measured for accounting purposes. Bearer plants are plants that, once mature, are held solely to grow produce over their useful life.

The Company estimates the harvest yields for the plants at various stages of growth. As of March 31, 2016, it is expected that the Company's biological assets will yield approximately 2,121 kg compared to 558 kg at March 31, 2015. The Company's estimates are, by their nature, subject to change. Changes in the anticipated yield will be reflected in future changes in the gain or loss on biological assets. As at March 31, 2016, the Company held 4,447 kg of dry cannabis and 570 L of cannabis oils compared to 655 kg of dry cannabis held at March 31, 2015. There were no cannabis oils held at March 31, 2015.

Inventory is comprised of the following items:

	March 31, 2016	March 31, 2015
Finished goods - dry cannabis	**$ 21,649**	$ 4,992
Finished goods - cannabis oils	**462**	-
Work-in-process - cannabis oils	**1,412**	-
Less: allowance to net realizeable value	**(1,744)**	(687)
	21,779	4,305
Product for resale (vaporizers, and other)	**172**	30
Supplies and consumables	**202**	20
	$ 22,153	$ 4,355

Included in inventory expensed to cost of sales is the provision related expense of $1,057 to reduce inventory to net realizable value. The adjustments to net realizable value takes the compassionate pricing promise into account, whereby eligible low-income patients obtain discounts off regular prices.

7. Property, plant and equipment

Property, plant and equipment relate to the infrastructure build out for growing production and operations. During the year ended March 31, 2016 there were additions of $11,759 (for the fifteen-month period ended March 31, 2015 - $14,605) and additions from acquisitions of $17,224 (for the fifteen-month period ended March 31, 2015 - $3,700) in property, plant and equipment. Included in the $11,759 of fixed asset additions were capital leases totalling $549 for furniture and fixtures, office equipment, and computer software equipment (for the fifteen-month period ended March 31, 2015 - $100 for furniture and fixtures).

A cost continuity of the account for the year ended March 31, 2016 is as follows:

	Balance at April 1, 2015	Additions	Additions from acquisitions	Disposals/ adjustments	**Balance at March 31, 2016**
Computer software and equipment	$ 289	$ 506	$ 100	$ -	**$ 895**
Office/lab equipment	417	351	-	-	**768**
Furniture and fixtures	833	867	312	(3)	**2,009**
Production, security equipment and other	1,375	168	-	-	**1,543**
Leasehold/building improvements	11,581	9,292	16,812	(65)	**37,620**
Building	110	26	-	-	**136**
Greenhouse	2,951	-	-	-	**2,951**
Land	723	-	-	-	**723**
	18,279	11,210	17,224	(68)	**46,645**
Assets under capital lease					
Furniture and fixtures	100	319	-	-	**419**
Office/lab equipment	-	167	-	-	**167**
Computer software and equipment	-	63	-	-	**63**
Total	$ 18,379	$ 11,759	$ 17,224	$ (68)	**$ 47,294**

The accumulated depreciation continuity of property, plant and equipment for the year ended March 31, 2016 is as follows:

	Balance at April 1, 2015	Additions	Disposals/ adjustments	**Balance at March 31, 2016**
Computer software and equipment	$ 61	$ 187	$ -	**$ 248**
Office/lab equipment	36	108	-	**144**
Furniture and fixtures	46	161	-	**207**

Furniture and fixtures	1	15	-	**16**
Office/lab equipment	-	13	-	**13**
Computer software and equipment	-	7	-	**7**
Total	$ 634	$ 2,079	$ -	**$ 2,713**
Net book value	$ 17,745			**$ 44,581**

7. Property, plant and equipment (continued)

The cost continuity of property, plant and equipment for the fifteen-month period ended March 31, 2015 is as follows:

	Balance at January 1, 2014	Additions	Additions from Tweed Farms acquisition	Disposals/ adjustments	Balance at March 31, 2015
Computer software and equipment	$ 18	$ 271	$ -	$ -	$ 289
Office/lab equipment	14	403	-	-	417
Furniture and fixtures	14	819	-	-	833
Production, security equipment and other	28	1,347	-	-	1,375
Leasehold/building improvements	-	11,581	-	-	11,581
Building	-	-	110	-	110
Greenhouse	-	84	2,867	-	2,951
Land	-	-	723	-	723
	74	14,505	3,700	-	18,279
Assets under capital lease					
Furniture and fixtures	-	100	-	-	100
Total	$ 74	$ 14,605	$ 3,700	$ -	$ 18,379

The accumulated depreciation continuity of property, plant and equipment for the fifteen-month period ended March 31, 2015 is as follows:

	Balance at January 1, 2014	Additions	Disposals/ adjustments	Balance at March 31, 2015
Computer software and equipment	$ 1	$ 60	$ -	$ 61
Office/lab equipment	-	36	-	36
Furniture and fixtures	-	46	-	46
Production, security equipment and other	-	66	-	66
Leasehold/building improvements	-	325	-	325
Building	-	6	-	6
Greenhouse	-	93	-	93
Land	-	-	-	-
	1	632	-	633
Assets under capital lease				
Furniture and fixtures	-	1	-	1
Total	$ 1	$ 633	$ -	$ 634
Net book value	$ 73			$ 17,745

8. Assets in process

During the year ended March 31, 2016, there were additions of $8,453 (for the fifteen-month period ended March 31, 2015 - $10,671) to assets in process of which $6,825 related to the expansion at Tweed Farms (for the fifteen-month period ended March 31, 2015 - $918). The remaining $1,628 is mainly for ongoing projects at Tweed. During the year ended March 31, 2016, $8,665 was transferred from assets in process to leasehold improvements.

The $403 in assets in process includes amounts spent on improvements at the Tweed location to expand the facility for operations as well as amounts spent towards the implementation of a new enterprise resource planning system. The additions during the year related to production lighting, growing benches, irrigation and nutrient systems and construction of growing rooms at both Tweed and Tweed Farms most of which were completed as at March 31, 2016.

8. Assets in process (continued)

A continuity of the account is as follows:

	Balance at April 1, 2015	Additions	Transfers	**Balance at March 31, 2016**
Assets in process	$ 615	$ 8,453	$ (8,665)	**$ 403**

	Balance at January 1, 2014	Additions	Transfers	Balance at March 31, 2015
Assets in process	$ 1,931	$ 10,671	$ (11,987)	$ 615

9. Intangible assets

Intangible assets are comprised of the following:

	March 31, 2016	March 31, 2015
Product rights	**$ 28,000**	$ -
Health Canada license	**3,834**	-
Domain name	**27**	38
Total	**$ 31,861**	$ 38

The intangible assets, with the exception of the domain name, originated from the Bedrocan acquisition and total $31,834 (see Note 10 b). The estimated useful life of the Health Canada license is fourteen years based upon the lease term of the Bedrocan building plus the renewal option. The product rights have an indefinite life but will be subject to an annual impairment test.

A continuity of the account for the year ended March 31, 2016 is as follows:

Cost	Balance at April 1, 2015	Additions from acquisitions	Disposals/ adjustments	**Balance at March 31, 2016**
Product rights	$ -	$ 28,000	$ -	**$ 28,000**
Health Canada license	-	4,000	-	**4,000**
Domain name	54	-	-	**54**
Total	54	32,000	-	**32,054**
Accumulated amortization				
Product rights	$ -	$ -	$ -	**$ -**
Health Canada license	-	166	-	**166**
Domain name	16	11	-	**27**
Total	16	177	-	**193**
Net book value	$ 38	$ 31,822	$ -	**$ 31,861**

A continuity of the account for the fifteen-month period ended March 31, 2015 is as follows:

Cost	Balance at January 1, 2014	Additions	Disposals/ adjustments	Balance at March 31, 2015
Domain name	$ 49	$ 5	$ -	$ 54
Total	$ 49	$ 5	$ -	$ 54
Accumulated amortization				
Domain name	$ 3	$ 13	$ -	$ 16
Total	$ 3	$ 13	$ -	$ 16
Net book value	$ 46			$ 38

10. Acquisitions

(a) Tweed Farms acquisition

On June 18, 2014, the Company purchased 100% of the issued and outstanding shares of Tweed Farms. The purchase price was $2,000 for the 30,000,000 Class A outstanding shares of Tweed Farms. Tweed Farms' only asset at the time of acquisition was an option to acquire real property, a building and a greenhouse (the "option"). The transaction was treated as an asset acquisition. Terms of the purchase were $500 cash payable with $400 on closing and $100 upon the earlier of (i) the completion of the first harvest of marijuana at Tweed Farms or (ii) six months after closing. The balance of $1,500 was to be satisfied by the issuance of common shares (519,031 shares at $2.89 per share) of Canopy Growth Corporation based on certain conditions and milestones.

Immediately upon closing the Company provided Tweed Farms with funds to exercise its option for an aggregate amount of $3,200,000.

The conditions to the issuance of the 519,031 shares were met or waived by Canopy Growth Corporation and the first 346,020 of such shares were issued in the prior fiscal year. The remaining 173,011 were issued on October 23, 2015 at $2.24.

(b) Bedrocan acquisition

On August 28, 2015, the Company purchased 100% of the issued and outstanding shares of Bedrocan. The transaction was accounted for as a business combination. The consideration for the transaction was 35,202,818 shares issued at a value of $1.64 per share which totalled $57,733 less cash acquired of $900. Other consideration included $931 of replacement options and $607 of replacement warrants for total consideration of $1,538. Bedrocan shares were exchanged at a ratio of 0.4650 to 1.

The purchase price was allocated as follows:

Net assets acquired	$	8,665
Product rights		28,000
License		4,000
Goodwill		18,606
Total purchase price	$	59,271

The net assets acquired included the following:

Cash	$	900
Accounts receivable		373
Taxes receivable		113
Biological assets		1,799
Prepaids		96
Inventory		538
Fixed assets		17,224
Total assets		21,044
Accounts payable		1,060
Accrued expenses		25
Loan payable		2,059
Long-term loan		1,947
Deferred income tax liability		7,287
Total liabilities		12,378
Net assets acquired	$	8,665

10. Acquisitions (continued)

(b) Bedrocan acquisition (continued)

Net cash outflow on acquisition of Bedrocan Canada Inc. is as follows:

Consideration paid in cash	$	-
Less: Cash and cash equivalents acquired		900
Net cash inflow	$	900

Goodwill arose in the acquisition of Bedrocan because the cost of acquisition included a control premium. In addition, the consideration paid for the combination reflected the benefit of expected revenue growth, future market development and the assembled work force of Bedrocan. These benefits were not recognized separately from goodwill because they do not meet the recognition criteria for identifiable intangible assets. None of the goodwill arising on this acquisition is expected to be deductible for tax purposes.

During the third and fourth quarter of Fiscal 2016, the goodwill was adjusted to reflect the share exchange date price of the shares and for a deferred tax liability that arose from the temporary tax differences at acquisition. This resulted in a reduction of goodwill of $4,558 offset by an additional amount of goodwill of $7,287 with a corresponding entry to the deferred tax liability account.

Acquisition related costs of $1,051 were excluded from the consideration transferred and were recognized as an expense in the year ended March 31, 2016.

For the year ended March 31, 2016, Bedrocan accounted for $848 in net income since August 28, 2015. This amount included $10,766 of unrealized gain on changes in fair value of biological assets and revenues of $1,577.

Had the business combination been effected at April 1, 2015, management estimates that the revenue of the Company would be $773 higher and the loss of the Company would be increased by $2,343 for the year ended March 31, 2016.

Additional purchase consideration included replacement options offered to employees and directors of Bedrocan. The calculation of the amount to be recognized as purchase consideration is complete as of the date of the finalization of these consolidated financial statements.

(c) MedCann Access acquisition

On October 1, 2015, the Company acquired all of the issued and outstanding shares of several companies, which collectively operated as "MedCann Access", by way of an amalgamation with 9421653 Canada Inc., a shell company which was a wholly-owned subsidiary of the Company, pursuant to an Amalgamation Agreement (the "Amalgamation"). 9388036 Canada Inc. is the post-amalgamation company resulting from the acquisition of MedCann Access.

In connection with the acquisition of MedCann Access, the Company issued 3,316,902 common shares to former shareholders of MedCann Access, of which 2,449,887 common shares are being held in escrow and will be either (i) released to the former shareholders of MedCann Access upon the satisfaction of certain milestones, or (ii) released to the Company for cancellation.

The purchase price included elements of consideration contingent on future performance related to employment and customer milestones, certain marketing milestones, and specific achievements within one to two years of the acquisition date. In aggregate, the amount of contingent consideration is up to $4,240. The elements related to employment will be treated ratably as stock based compensation over two years from October 1, 2015. Elements related to customer and marketing milestones are measured as liabilities at their estimated discounted fair value. Adjustments to the fair values are recorded in earnings. Certain other elements of contingent consideration are recorded as

10. Acquisitions (continued)

(c) MedCann Access acquisition (continued)

equity based on the estimated probability of occurring over the one to two years following the date of acquisition.

Through the acquisition of MedCann Access, the Company also acquired a 33% stake in CannScience Innovations Inc. ("CannScience"), a drug development company. CannScience conducts in-depth extracts research, with the ultimate goal of delivering standardized metered dosing in a range of alternate delivery methods. Also in connection with the acquisition, the Company acquired a 20% interest in CannSoft Inc., an early stage software development company focused on solutions for companies licensed under the MMPR system. The Company later sold its 20% interest back to CannSoft Inc. for $7 for no gain or loss.

The purchase price was allocated as follows:

Net assets acquired	$	211
Goodwill		2,261
Total purchase price	$	2,472

The net assets acquired included the following:

Cash	$	154
HST receivable		95
Prepaids		19
Inventory		12
Property, plant and equipment		13
Investment in CannScience Innovations Inc.		154
Total assets		447
Accounts payable and accrued liabilities		236
Total liabilities		236
Net assets acquired	$	211

Net cash outflow on acquisition of MedCann Access is as follows:

Consideration paid in cash	$	-
Less: Cash and cash equivalents acquired		154
Net cash inflow	$	154

Acquisition costs of $85 were excluded from the consideration transferred and were recognized as an expense in the year ended March 31, 2016.

Had the business combination been effected April 1, 2015, the revenue of the Company would be unchanged, and the loss of the Company would be $180 higher for the year ended March 31, 2016.

The calculation of the amount to be recognized as purchase consideration is complete as of the date of the finalization of these consolidated financial statements.

11. Long-term debt

	March 31, 2016	March 31, 2015
Mortgage payable with a five-year term and amortization period of seven years bearing an annual interest rate of 5.3%	**$ 1,588**	$ 1,819
Term loan at 10% interest with monthly repayment	**1,869**	-
Capital lease obligations with an interest rate between 7.0% - 17.1%, and terms between 2-5 years, lien against the related leased equipment	**565**	97
	4,022	1,916
Less: current portion	**(553)**	(247)
Long-term portion	**$ 3,469**	$ 1,669

The mortgage payable is secured by a first charge on the Tweed Farms property. In addition, the Company must maintain a fixed coverage charge ratio (meaning earnings before interest, taxes, depreciation and amortization plus any contributions during the year divided by principal and interest payments) of 1.30:1. The Company is in compliance with this covenant at year-end. The mortgage payable can be prepaid at any time but is subject to a prepayment fee equal to the greater of (a) three months' interest on the amount being prepaid or (b) the amount of interest lost by the lender over the remaining term of the loan on the amount being prepaid.

The term loan is a $2,000 loan that was added to the existing lease agreement for the Toronto Bedrocan facilities. The loan accrues interest at 10% annually and is payable over the initial ten-year term of the amended lease to July 1, 2024 by way of additional monthly rent of $27, which includes principal and interest payments.

Principal repayments required on the long-term debt in the next five fiscal years are as follows:

2017	$ 566
2018	574
2019	583
2020	1,108
2021	216
Thereafter	975
	$ 4,022

12. Share capital

Authorized
An unlimited number of common shares

On August 28, 2015, 35,202,818 common shares were issued for the Bedrocan acquisition at $1.64 per share for a total of $57,733 being added to share capital. The transaction also resulted in a nominal fractional share adjustment.

On October 1, 2015, 3,316,902 common shares were issued for the purchase of all the outstanding shares of MedCann Access (see Note 10 c.). Of the 3,316,902 shares, 2,449,887 are

12. Share capital (continued)

Authorized (continued)

held in escrow of which 216,725 shares were released subsequent to year end as certain milestones of the acquisition had been met.

On October 23, 2015, 173,011 common shares of the Company were issued at $2.24 per share as the final condition of the Tweed Farms acquisition was deemed by the Board to have been met.

On November 18, 2015, the Company completed a "bought deal" financing of 7,012,700 common shares which included an over-allotment of 914,700 shares for aggregate gross proceeds of $14,376. The offering price was $2.05 per share and included a cash commission. Transactions costs of $1,267 were paid as part of the common share issuance.

On February 11, 2016, 135,135 common shares of the Company were issued at $2.59 per share as the share consideration under the agreement with LBC Holdings, Inc., a company controlled by the artist known as Snoop Dogg (See Note 16).

During the year ended March 31, 2016, 3,437,298 warrants were exercised ranging in price from $0.59 to $2.03 and 876,927 non-ESOP options were exercised ranging in price from $0.89 to $1.83 for gross proceeds of $6,482 and $1,194, respectively.

Warrants continuity schedule

As of March 31, 2016, the Company has the following warrants with average exercise prices and expiry dates outstanding:

	Number of whole warrants	Average exercise price	Expiry Date
Balance outstanding at December 31, 2013 and March 31, 2015	426,209	$0.59	September 13, 2016
Replacement warrants issued as a result of Bedrocan acquisition	3,358,458	$2.58	November 15, 2015
Replacement warrants issued as a result of Bedrocan acquisition	1,499,620	1.29	February 20, 2016
Replacement warrants issued as a result of MedCann Access acquisition	925,000	5.59	May 6, 2016
Exercise of warrants	(3,437,298)	1.89	
Expiration of warrants	(1,633,885)	2.58	
Balance at March 31, 2016	**1,138,104**	**$4.68**	

Option plan

The Company has an employee stock option plan ("ESOP") that is administered by the Board of Directors of the Company who establish exercise prices, at not less than market price at the date of grant, and expiry dates, which have been set at six years from issuance. Options under the Plan remain exercisable in increments with 1/3rd being exercisable on each of the first, second and third anniversaries from the date of grant, with the exception of the Bedrocan replacement options which vest over one to two years. The maximum number of common shares reserved for issuance for options that may be granted under the Plan is 10% of the common shares outstanding, which was 10,151,907 at March 31, 2016.

12. Share capital (continued)

Option plan (continued)

The following is a summary of the changes in the Company's ESOP options during the period:

	Options issued	Average exercise price
Balance outstanding at December 31, 2013	618,003	$0.43
Options granted	3,478,658	2.04
LW Capital options transferred on reverse acquisition (Note 5)	144,600	0.50
Options exercised	(177,919)	0.54
Options forfeited/cancelled	(139,302)	1.92
Balance outstanding at March 31, 2015	3,924,040	$1.81
Options granted	4,015,100	2.50
Replacement options issued as a result of the Bedrocan acquisition	1,786,530	1.28
Options exercised	(360,643)	0.88
Options forfeited/cancelled	(918,845)	1.97
Balance outstanding at March 31, 2016	**8,446,182**	**$2.05**

The following is a summary of the outstanding stock options as at March 31, 2016.

Options Outstanding			Options Exercisable	
Number Outstanding at March 31, 2016	Weighted Average Remaining Contractual Life (years)	Range of Exercise Prices	Number Exercisable at March 31, 2016	Range of Exercise Prices
1,995,342	2.49	$0.43 - $0.86	1,459,081	$0.43 - $0.86
1,130,397	3.45	$1.57 - $1.83	643,619	$1.57 - $1.83
1,828,500	5.04	$1.92 - $2.29	287,840	$2.11 - $2.29
2,413,415	5.65	$2.66 - $2.95	333,333	$2.66 - $2.95
1,078,528	4.14	$2.96 - $3.35	579,657	$2.96 - $3.35
8,446,182	4.28		3,303,530	

At March 31, 2016, the weighted average exercise price of options outstanding and options exercisable was $2.05 and $1.65, respectively.

The Company had agent options outstanding as at March 31, 2015, which were issued on March 26, 2014 in replacement of agent options issued by the Company prior to the reverse acquisition. These options were outside of the ESOP. The number originally issued by the Company was 3,805, which were then exchanged into 810,863 agent options of the Company based on the exchange ratio used for the reverse acquisition, a ratio of 213.1045 to 1. These agent options vested on the date of issuance and carried a two-year term from their original date of issuance by the Company. On April 14, 2014, 46,670 options were exercised at a price of $0.64 for gross proceeds of $29,869. On November 27, 2014, 326,689 agent options were exercised at a price of $0.64 for gross proceeds of $209,081. An amount of $23,126 was reclassified from share-based reserve to share capital on exercise and an amount of $69,503 was reclassified from warrants to share capital.

The Company exchanged and issued 439,423 replacement agent options as a result of the Bedrocan acquisition and all outstanding non-ESOP options were exercised during the year ended March 31, 2016 for gross proceeds of $1,194.

The following table summarizes the Company's Non-ESOP options during the period.

12. Share capital (continued)

Option plan (continued)

	Non-ESOP Options	Average exercise price	Expiry Date
Balance outstanding at December 31, 2013	1,493,010	$0.62	
Agent Options issued pursuant to January 2014 private placement	93,340	$0.64	January 30, 2016
Agent Options issued pursuant to March 2014 private placement	437,504	$0.89	March 7, 2016
Exercise of agent options	(373,359)	$0.64	
Exercise of consultant options prior to reverse acquisition	(1,212,991)	$0.62	
Balance outstanding at March 31, 2015	437,504	$0.89	
Replacement Non-ESOP options issued as a result of the Bedrocan acquisition	439,423	$1.83	
Non-ESOP options exercised	(876,927)	$1.36	
Balance outstanding at March 31, 2016	-	-	

The Company recorded $3,678 for the year ended March 31, 2016 (for the fifteen-month period ended 2015 - $2,559) in share-based compensation expense related to options and shares which are measured at fair value at the date of grant and are expensed over the option's vesting period. Included in share-based compensation is $181 that was recorded in sales and marketing expenses.

In determining the amount of share-based compensation, the Company used the Black-Scholes option pricing model to establish the fair value of options granted by applying the following assumptions:

	March 31, 2016 (12 months ended)	March 31, 2015 (15 months ended)
Risk-free interest rate	0.75% - 1.35%	1.60% - 1.64%
Expected life of options (years)	1 - 6	3 - 6
Expected annualized volatility	55%	90%
Expected dividend yield	Nil	Nil
Weighted average Black-Scholes value of each option	$0.92 - $0.99	$0.29 - $0.36

Volatility was estimated by using the historical volatility of the Company and other companies that the Company considers comparable that have trading and volatility history prior to the Company becoming public. The expected life in years represents the period of time that options granted are expected to be outstanding. The risk-free rate is based on zero coupon Canada government bonds with a remaining term equal to the expected life of the options.

13. Earnings per share

Net income (loss) per common share represents the net income (loss) attributable to common shareholders divided by the weighted average number of common shares outstanding during the period.

Diluted net income (loss) per common share is calculated by dividing the applicable net income (loss) by the sum of the weighted average number of common shares outstanding and all additional common shares that would have been outstanding if potentially dilutive common shares had been issued during the period.

13. Earnings per share (continued)

For all the periods presented, diluted net loss per share equals basic loss per share due to the anti-dilutive effect of options and warrants. The outstanding number and type of securities that could potentially dilute basic net loss per share in the future but that were not included in the computation of diluted net loss per share because to do so would have reduced the loss per share (anti-dilutive) for the periods presented are as follows:

	March 31, 2016	March 31, 2015
Stock options (ESOP and non-ESOP)	**4,954,239**	4,361,544
Warrants	**213,104**	426,209
Total	**5,167,343**	4,787,753

14. Income taxes

Income tax expense varies from the amount that would be computed by applying the basic federal and provincial tax rates to loss on operations before income taxes, shown as follows:

	March 31, 2016 (12 months)	March 31, 2015 (15 months)
Expected tax rate	**26.5%**	26.5%
Expected tax benefit resulting from loss	**$ (893)**	$ (2,477)
Permanent differences	**935**	937
Tax loss carryforwards	**5,324**	3,351
Changes in other temporary differences	**(5,659)**	(1,590)
Other	**419**	(222)
Income tax expense	**$ 126**	$ -

Deferred income taxes reflect the impact of loss carry forwards and of temporary differences between amounts of assets and liabilities for financial reporting purposes and such amounts as measured by tax laws.

The following deferred tax assets and liabilities have been recognized for accounting purposes:

	March 31, 2016	March 31, 2015
Deferred tax asset	**$ 2,387**	$ -
Deferred tax liability	**(9,800)**	-
Net deferred tax liability	**$ (7,413)**	$ -

14. Income taxes (continued)

The effect of temporary differences and loss carryforwards that give rise to significant portions of the deferred tax liability, which has been recognized during the year are as follows:

	March 31, 2015	Recognized in profit and loss	Recognized in goodwill	**March 31, 2016**
Deferred tax asset				
Loss carryforwards	$ -	$ 652	$ 1,511	**$ 2,163**
SR&ED	-	-	18	**18**
Share issuance costs	-	(84)	290	**206**
	-	568	1,819	**2,387**
Deferred tax liability				
Fixed assets	-	203	(147)	**56**
Product rights	-	-	(7,420)	**(7,420)**
Health canada license	-	44	(1,060)	**(1,016)**
ITCs taxed in future years	-	-	(3)	**(3)**
Biological assets	-	(941)	(476)	**(1,417)**
	-	(694)	(9,106)	**(9,800)**
Net deferred taxes	$ -	$ (126)	$ (7,287)	**$ (7,413)**

The tax effects of temporary differences and loss carry forwards that gave rise to significant portions of the deferred tax asset, which have not been recognized, are approximately as follows:

	March 31, 2016	March 31, 2015
Losses carried forward	**$ 8,934**	$ 3,555
Share issuance costs	**1,105**	1,332
Accounting amortization in excess of tax	**(1,153)**	123
Biological assets and inventory	**(5,784)**	(1,636)
Other	**270**	-
Total	**$ 3,372**	$ 3,374

The Company has the following non-capital losses available to reduce future years' federal and provincial taxable income which expires as follows:

2030	$ 40
2031	77
2032	284
2033	1,754
2034	4,023
2035	14,787
2036	20,913

Certain of the above losses were acquired as part of the Company's acquisition of Bedrocan and MedCann Access.

As at March 31, 2016, the Company does not have any gross temporary differences associated with investments in subsidiaries.

15. Related parties

Key management personnel compensation

Key management personnel are those persons having the authority and responsibility for planning, directing and controlling activities of the entity, directly or indirectly. The key management personnel of the Company are the members of the Company's executive management team and Board of Directors, who control approximately 13.0% of the outstanding shares of the Company. Compensation provided to key management is as follows:

		March 31, 2016 (12 months)		March 31, 2015 (15 months)
Short-term employee benefits	**$**	**1,361**	$	1,288
Share-based compensation		**1,296**		507
	$	**2,657**	$	1,795

As of March 31, 2016, in the event that executive officers employment agreements were terminated by the Company, other than due to a material breach of their employment agreements or in the event the Company becomes insolvent: the CEO is entitled to a severance amount equal to eighteen months of compensation based on the monthly contract work fee or $300 in aggregate and all other Executive officers are entitled to a severance amount equal to at least thirty four week's annual base salary and in some cases, inclusive of their annual bonus.

Related party transactions

The Company leases its Smiths Falls premises from Tweed Hershey Drive Inc. ("Tweed Hershey"), which is related through common ownership (the Company's CEO and chairman is a significant shareholder of the lessor). The lease expires on December 31, 2018. For the year ended March 31, 2016, the expense incurred under this lease including base rent and operating costs was $2,368 (for the fifteen-month period ended March 31, 2015 - $1,822). The Company had $488 (2015 - $665) owing related to rent associated with these leased premises at March 31, 2016 and has prepaid rent of $508, which is included in other long-term assets.

The Company leases premises for the two Bedrocan facilities in Toronto from a director of Canopy Growth Corporation. The leases expire on October 15, 2018 and August 31, 2024. Included in the expenses for the year ended March 31, 2016 for rent and operating costs from the date of the Bedrocan acquisition is $492.

The CEO is providing consulting services to the Company at $50 per quarter and is eligible up to a $200 bonus. For the year ended March 31, 2016 and the fifteen-month period ended March 31, 2015, consulting expenses totalled $400. The Company had $257 owing in accounts payable and accrued liabilities at March 31, 2016 ($226 at March 31, 2015).

The Company currently has a loan payable to a director of Canopy Growth Corporation. Included in interest expense for the year ended March 31, 2016 is an amount of $164. No such loan existed during the fifteen-month period ended March 31, 2015.

During the year ended March 31, 2016, $238 (for the fifteen-month period ended March 31, 2015 - $226) was expensed in director's fees. No amounts remain outstanding at March 31, 2016 ($65 at March 31, 2015).

These transactions are in the normal course of operations and are measured at the exchange amounts being the amounts agreed to by the parties.

Certain directors and management of the Company participated in the private placements completed during the fifteen-month period ended March 31, 2015. Proceeds received from the directors and management related to the private placements during the fifteen-month period ended March 31, 2015 totalled $70. There were no private placements during the year ended March 31, 2016.

16. Commitments and contingencies

The Company leases production and retail space under operating leases which range in expiration from June 30, 2017 to July 14, 2019 and also has royalty, equipment and other commitments with varying terms.

On February 11, 2016, the Company announced that it had entered into a business agreement with the artist known as Snoop Dogg. Under the agreement between the Company and LBC Holdings, Inc., a company controlled by Snoop Dogg, the two parties will partner on select content and brand strategy exclusively in Canada. The Company has determined the services received are best measured by reference to the fair value of the equity granted. The license agreement is for a term of up to five years. As partial consideration for the arrangement, the controlled company will receive a combination of common shares, royalties, and monetary compensation, released over the course of the agreement. The share consideration is comprised of common shares totaling 386,100 at a price of $2.59 per share, of which 135,135 common shares were issued on February 11, 2016 with the remainder of the 250,965 common shares escrowed for release, subject to meeting certain service criteria, over the initial three years of the term.

Future minimum lease and royalty payments due in each of the next five years are as follows:

2017	$	2,559
2018		2,576
2019		2,772
2020		698
2021		641
Thereafter		2,168
	$	11,414

Included in other long-term liabilities is $243 related to the rent escalation for the Hershey Drive facility that is being amortized over the remaining lease term.

The production and retail space lease agreements contain a contingent condition for the lessee to remove fixtures at lessor's discretion.

In April 2014, the Company sought to acquire medical marijuana plants from certain growers licensed under the old Marihuana Medical Access Regulations ("MMAR"). The RCMP took possession of that shipment before it could reach Tweed's facility and, as such, Tweed was not able to proceed with the planned transfer of plants. No amount was paid by Tweed for the medical marijuana in question. Based on the terms of the contracts between Tweed and the vendors, Tweed was of the view that no payment was required. During the second quarter ended September 30, 2015, and in order to avoid further legal costs associated with potentially lengthy court proceedings, the Company reached an out of court full and mutual release settlement, without either party admitting any liability, and included a release of any claim by the vendors on the seized inventory. The out of court settlement consisted of the Company paying $600 in cash and provided consultants associated with the vendors 100,000 fully vested options to purchase common stock at a price of $1.76 per share, being the opening price of the Company's common shares on the date of settlement, which expire on September 16, 2017. The Black Scholes value of the options was $109 which was included in share-based compensation expense for the year ended March 31, 2016.

On July 24, 2014 a legal proceeding was commenced in the Ontario Superior Court of Justice by an executive search company against Tweed Farms seeking damages in the amount of $145 (inclusive of HST) with respect to placement fees owed; damages of $25 for fees owed for introductions to advertising agencies; and a declaration of entitlement to a 5% share interest in Tweed Farms for no consideration or in lieu of $100. This issue was settled for $67 during the year ended March 31, 2016.

16. Commitments and contingencies (continued)

In March 2015, a claim was commenced against Canopy Growth Corporation by the former CEO for $330 in specified damages for breach of contract and wrongful dismissal. The litigation process will continue into the foreseeable future unless settled. No amount has been recorded in the consolidated financial statements due to the fact that the amount cannot be reliably measured at this point.

17. Supplementary cash flow information

The changes in non-cash working capital items are as follows:

		March 31, 2016 (12 months)		March 31, 2015 (15 months)
Accounts receivable	**$**	**(299)**	$	(342)
HST receivable		**39**		(149)
Prepaid expenses and other assets		**(285)**		(43)
Inventory		**20,063**		2,192
Accounts payable and accrued liabilities		**2,637**		1,200
Deferred revenue		**533**		-
Total	**$**	**22,688**	**$**	**2,858**

Non-cash transactions

Excluded from the March 31, 2016 consolidated statements of cash flows is a total of $946 in accounts payable and accrued liabilities as follows: $84 of assets in process purchases, $793 of equipment purchases and $69 of share issue costs. In addition, the transfer of $8,665 from assets in process to property, plant and equipment has been excluded from the cash flows.

Excluded from the March 31, 2015 but included for the March 31, 2016 consolidated statements of cash flows is a total of $1,798 in accounts payable and accrued liabilities as follows: $286 of leasehold assets in process purchases, $1,323 of equipment purchases and $189 of share issue costs. In addition, the transfer of $11,987 from assets in process to property, plant and equipment has been excluded from the cash flows.

Cash and cash equivalents consist of the following:

		March 31, 2016		March 31, 2015
Cash	**$**	**2,117**	$	1,713
Short-term guaranteed investment certificates		**10,000**		-
Investment savings account mutual fund		**3,280**		19,733
Total cash and cash equivalents	**$**	**15,397**	$	21,446

18. Financial instruments

Currency risk

As at March 31, 2016, there are no financial assets and liabilities for which cash flows are denominated in U.S. dollars (2015 - $NIL US). The Company has very limited currency risk.

Interest risk

The Company's exposure to interest rate risk only relates to any investments of surplus cash as well as long-term debt and capital lease obligations. The Company may invest surplus cash in highly liquid investments with short terms to maturity that would accumulate interest at prevailing rates for such investments. Currently the Company's short-term investments and restricted investments consist of $10,256 in guaranteed investment certificates which have fixed rates of interest.

18. Financial instruments (continued)

Interest risk (continued)

Interest rate risk on the long-term debt and capital lease obligations is limited due to the fact that they are both fixed rate of interest instruments.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's trade accounts receivable. The Company is exposed to credit-related losses in the event of non-performance by the counterparties.

The Company provides credit to its customers in the normal course of business and has established credit evaluation and monitoring processes to mitigate credit risk, but has limited risk due to the fact that the majority of sales are transacted with credit cards. Trade accounts receivable are reported net of an allowance for doubtful accounts of $30.

The carrying amount of cash and cash equivalents, short-term and restricted investments and accounts receivable represents the maximum exposure to credit risk and at March 31, 2016, this amounted to $16,753 (2015 - $21,798). Since the inception of the Company, no losses have been suffered in relation to cash held by the bank.

As at March 31, 2016, the Company's aging of receivables was approximately as follows:

	March 31, 2016	March 31, 2015
0-60 days	**$ 810**	$ 326
61-120 days	**330**	16
Total	**$ 1,140**	$ 342

The Company's accounts receivable are primarily driven by sales to a government agency and credit card processors. At March 31, 2016, the government agency and credit card processor receivables accounted for 52% and 28%, respectively, of accounts receivable (2015 - 59% and 34%, respectively).

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by reviewing on an ongoing basis its capital requirements. During the year ended March 31, 2016, the Company completed a private placement for gross cash proceeds of $14,376.

In addition to the commitments disclosed in Note 16, the Company is obligated to the following contractual maturities of undiscounted cash flows:

As at March 31, 2016	**Carrying amount**	**Contractual cash flows**	**Year 1**	**Years 2 - 3**	**Years 4 and after - 5**
Accounts payable and accrued liabilities	$ 6,107	$ 6,107	$ 6,107	$ -	$ -
Long-term debt	4,022	4,022	566	1,157	2,299
Total	$ 10,129	$ 10,129	$ 6,673	$ 1,157	$ 2,299

Fair values

The carrying values of cash, short-term investments, and restricted investments and accounts payable and accrued liabilities approximate their fair values due to their short-term to maturity. The mortgage payable has a fair value of approximately $1,593 (carrying value of $1,588), which is based on the present value of future interest and principal payments using a discount rate of 6%. The term loan carrying value of $1,869 approximates fair value.

18. Financial instruments (continued)

Fair value hierarchy

Financial instruments recorded at fair value on the statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices);

Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

During the year, there were no transfers of amounts between levels.

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value.

Cash and cash equivalents are classified as Level 1 financial instruments. During the year, there were no transfers of amounts between Level 1 and Level 2.

The short-term investments and restricted investments are classified as Level 2 financial instruments. The warrants were valued using a Black-Scholes option pricing model and are also classified as a Level 2 financial instrument.

The acquisition consideration contingent on future performance related to the MedCann Access acquisition is classified as a level 3 financial instrument.

As described in Note 10 (c), a portion of the purchase price of MedCann Access is in the form of contingent consideration. The contingent consideration is contingent on future performance related to employment and customer milestones, certain marketing milestones, and specific achievements within one to two years of the acquisition date. The Company's liability for this contingent consideration was measured at fair value based on unobservable inputs, and thus is considered a level 3 financial instrument. The fair value of the liability determined by this analysis was primarily driven by the Company's expectations of MedCann Access achieving the milestones. The expected milestones were assessed probabilities by management which was then discounted to present value in order to derive a fair value of the contingent consideration. The primary inputs of the calculation were the probabilities of achieving the milestones and a discount rate.

The following table provides a roll forward of the fair value, as determined by level 3 inputs, of the acquisition contingent consideration for the year ended March 31, 2016:

	Contingent consideration
Balance, beginning of fiscal year	$ -
Additions (see Note 10 (c))	777
Change in fair value	481
Ending Balance	$ 1,258

The above changes in fair value for the contingent consideration of $363 was included in the increase in fair value of acquisition consideration related liabilities line of the statement of net loss and comprehensive loss.

There were no level 3 financial instruments at March 31, 2015.

19. Segmented information

The Company operates in one segment, the production and sale of medical marijuana.

All property, plant and equipment, leasehold assets in process and intangible assets are located in Canada.

All revenues are generated in Canada.

20. Capital management

The Company's objective is to maintain sufficient capital base so as to maintain investor, creditor and customer confidence and to sustain future development of the business and provide the ability to continue as a going concern. Management defines capital as the Company's shareholders' equity. The Board of Directors does not establish quantitative return on capital criteria for management; but rather promotes year over year sustainable profitable growth. The Company currently has not paid any dividends to its shareholders.

As at March 31, 2016 and 2015, total managed capital was comprised of shareholders' equity of $123,785 and $41,409, respectively.

There were no changes in the Company's approach to capital management during the year.

The Company is subject to externally imposed restrictions related to covenants on its mortgage payable (Note 11).

21. Subsequent events

a) On April 15, 2016, the Company announced that it had closed its previously announced short form prospectus offering, on a bought deal basis, of 5,002,500 common shares of the Company for aggregate gross proceeds of $11,506, inclusive of the over-allotment option granted to and exercised by the syndicate of underwriters. The Offering was completed at a price of $2.30 per common share (the "Offering Price") by two underwriters led by Dundee Securities Ltd. (the "Lead Underwriter") and GMP Securities L.P. (collectively, the "Underwriters").

b) On June 8, 2016, the Company announced it had received conditional approval from the Toronto Stock Exchange ("TSX") to graduate from the TSXV and list its common shares on the TSX. Final approval of the listing is subject to the Company meeting certain standard requirements of the TSX on or before September 1, 2016.

22. Comparative Figures

The comparative 15-month period general and administrative figure has been expanded to conform to the current year presentation to present depreciation and amortization.
