CANOPY GROWTH RESPONDS TO ONTARIO GOVERNMENTS ANNOUNCEMENT ON RETAIL CANNABIS FRAMEWORK

September 8, 2017

SMITHS FALLS, ON – Following the Ontario provincial government's announcement of a framework for legal cannabis sales and use, Canopy Growth Corporation ("Canopy Growth" or the "Company") (TSX: WEED) would like to offer the following statements:

- We are supportive of this announcement and commend the Ontario government for its leadership, with the right policy objectives in mind including safe roads, a focus on education, public health, keeping cannabis out of the hands of youth and ensuring a strong regulated framework for the distribution of cannabis.
- Including e-commerce is a key aspect of this announcement, particularly given the Province's tiered retail storefront roll-out plan. We encourage the government to consider allowing existing licensed producers to continue their e-commerce sales if this can allow for a more cost-effective, expeditious, and varied sales model for Ontarians.
- We commend the Province on its commitment to education, but caution that education includes not only public health education, but product education as well. It is imperative that adults who have chosen to visit a cannabis retail store have the information they need to make an informed decision about the brand, product, potency, and form they wish to consume. Plain packaging behind a counter would only lead to unfavourable and potentially unsafe consumer choices, while encouraging consumers to return to the illicit and unregulated market.
- We are currently Canada's largest producer, and are committed to expanding throughout the coming years to meet the demand this system will create, while ensuring our medical patients receive priority access to cannabis. Just this morning we announced that our Tweed Farms facility in Niagara-on-the-Lake will house a million square feet of greenhouse space – tripling the current size, which is already the largest legal cannabis greenhouse in the world. Our focus going forward will be to fill store shelves, and to do that we will continue to expand our footprint in Ontario, across the country, and around the world.
