

CAUTION

PLEASE TAKE CARE WHEN DROPPING ICE CUBES INTO THE CUP BECAUSE THEY MAY FRACTURE THE INNER LAYER OF THE GLASS, WE SUGGEST POURING YOUR DESIRED LIQUID FIRST. AVOID USING METAL UTENSILS WITH THIS GLASSWARE. WHEN SCRUBBING THE GLASS TAKE PRECAUTION TO NOT SCRAPE AT THE BOTTOM PLUG AS IT MAY CAUSE A HOLE TO FORM, WHICH WILL ALLOW WATER IN BETWEEN THE TWO GLASS LAYERS. THERE IS A VACUUM SEAL IN BETWEEN THE TWO LAYERS OF GLASS, DISRUPTING THIS BY DAMAGING THE PLUG AT THE BOTTOM WILL MAKE THE CUP LESS INSULATED. BE GENTLE WITH THESE CUPS AS THE GLASS IS THINNER THAN A TRADITIONAL CUP WHICH MAKES THEM MORE FRAGILE, (SIMILAR TO WINE GLASSES). IF THE CUP IS BROKEN PLEASE TAKE CARE WHEN CLEANING THE GLASS FRAGMENTS. KEEP OUT OF REACH FROM CHILDREN.
