TURNING ON/OFF

On the earbuds, you can see the logo GRIPPED where you can access the **ON/OFF** comand.

When using the earbuds for the first time, press the GRIPPED button in both right and left earbuds at the same time for 5 seconds until white and orange light flashes alternately. The device turns on and enters into pairing mode.

To turn off, press on the button again for a few seconds.

PAIRING THE EARPHONES TO YOUR DEVICE

The pairing between the two wireless earbuds (right and left) is automatic, so use the right one for pairing and set up.

When pairing for the first time, pop up the right earbud and use it to pair with your phone, tablet or computer. Hold the button for 5 seconds until it starts flashing white and orange light, indicating that the device is now on pairing mode. Make sure that Bluetooth® is enabled on your phone, tablet or computer. Search the name of the GRIPPED FREE earphones for successful pairing.

The next time you turn on the earbuds, you can easily find the device you previously paired with.

PLAY/PAUSE MUSIC

PLAY Press the button once
PAUSE Press the button while music is playing

ANSWERING/HANGING UP/REJECTING A CALL

CHARGING

- ANSWER** Press the button once
- HANG UP** Press the button during the call
- REJECT** the button and hold for 2 seconds

GRIPPED FREE comes in a unique integrated case with a tiny magnetic pen on the base that is used for charging.

To charge, just place the earbuds inside the case and plug in the micro USB cable provided to a power source. It only takes 2 hours to completely charge the device.

WHITE LIGHT FLASHING TWICE EVERY 30 SECONDS

Device is in standby status

ORANGE LIGHT FLASHING THRICE EVERY 30 SECONDS

Device need to be charged

WHITE AND ORANGE LIGHT FLASHING ALTERNATELY

Device is in pairing mode

LIGHTWEIGHT AND LOW PROFILE DESIGN

GRIPPED FREE comes in a sleek case with a simple, non-clumsy design. The lid opens and closes with a satisfying click. It has a tiny overall profile which makes it easy to carry and place inside your pocket or bag. The lightweight, low-profile, and elegant design is just perfect for a completely wireless earbuds.

COMFORTABLE WEAR

The earbuds stick out for comfortable positioning in your ear canals, supported by a soft rubber material that sits on the outside of your ears. It is extremely comfortable and lightweight because the earbuds are made of soft plastic and rubber components.

SUPREME SOUND

GRIPPED FREE is equipped with custom-tuned dynamic drivers that deliver a balanced sound signature so you experience the highest quality sound possible across all types of music. You won't experience any hissing or detectable distortion in the background even if you turn the volume all the way up or low, which is common in completely wireless Bluetooth® earbuds.

HANDS-FREE CALLS AND EASY CONTROLS

Never miss a call while working out and navigate your playlists with the microphones integrated on to the earbuds. You can answer or reject a phone call by simply tapping on the button at the front. The microphone is loud, clean and crisp-sounding and dubs as a very good Bluetooth® earpiece.

BLUETOOTH® WIRELESS

Ten meters of cord-free Bluetooth® means you can do it all without reaching for your phone.

LONG BATTERY LIFE

GRIPPED FREE holds up well even if you listen to 3 hours of continuous audio.

2. Keep the product, accessories and packaging parts out of reach of children and pets to prevent accidents and choking hazards.

This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
