

Waterfall Card Tutorial

[Click to Buy from The Printable Craft Shop](#)

Print and cut out each sheet. Print a backing paper onto the reverse of the waterfall sheet and card sheets.

Score along the line on the card front and fold.

Score along the 3 lines on the waterfall piece and fold. Apply double sided tape to the right of each fold as shown.

Glue the card front to the the card back using the large flap.

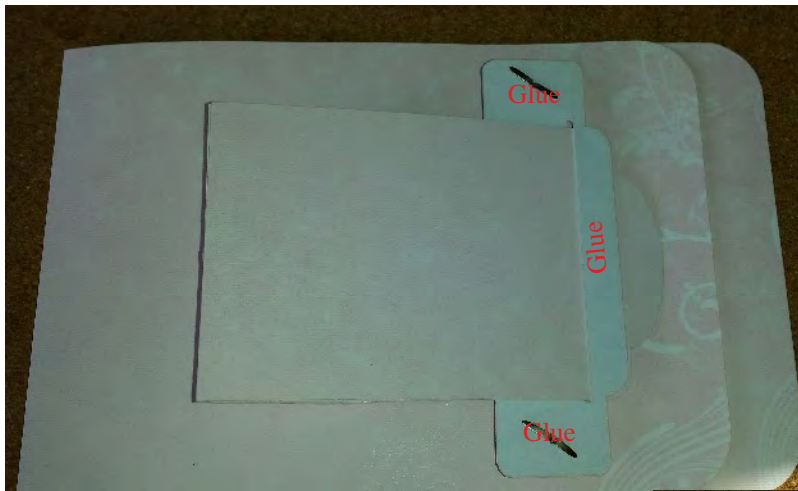

Slide the pull tab through the slot on the other side of the waterfall sheet as shown. Remove the backing off each piece of tape one by one and add each picture.

Turn the waterfall sheet over and apply glue where shown. The tab should be able to move freely through the slot.

Glue waterfall into position on the card front. You can choose where on the card to place it yourself.

Below, you can see the waterfall as it is pulled out.

Add embellishments.

Make up the matching envelope by folding in and gluing each of the tabs, then place the back piece in position.
