

# starlet™

*selected jewellery designs for the younger lady*

What better way to introduce any young aspiring fashionista to the pleasant addiction that is Argenteus jewellery?

From her first pair of pierced earrings to the start of a special charm collection and lots in between, the Argenteus Starlet collection has been handpicked to appeal to our aspiring clientele from 12yrs and under.

Each piece is made from sterling silver and designed with the younger wearer in mind. Bracelets can be sized especially for the smaller wrist (just ask any member of staff for help) and the necklaces have been specially created with shorter chain lengths and finer gauge links to perfectly compliment the overall look. Some of the collection is a reflection of our grown up ranges with additional touches such as tiny lockets and special charms.

Perfect for special occasions such as Christenings, as a keepsake to mark a special event, or just something to compliment that new party dress. Argenteus Starlet jewellery is something to be treasured for a lifetime.
