## Description

ACUPWR's AUP-65 model is a compact, travel-friendly step-up transformer that converts voltage from 110-120 volts up to 220-240 volts. It allows low-wattage electronics such as 220-240V chargers for cell phones, laptops, tablets, cameras, and other electrical devices to work in the USA, Canada, Taiwan, and all countries using the 110-120-volt standard, thus making it ideal for students and international travelers. The AUP-65 is rated for up to 65-watt/65-volt amp loads and suitable for home, commercial, and industrial applications. It comes with a Type A plug and a Type A input.

The AUP-65 can operate continuously at 120-percent beyond its stated wattage limit and even at 200-percent for a short period of time.
