# AIRSWEEP®

**Do you or any of your customers handle bulk materials?**

Airsweep is a material flow solution which keeps your product moving. Once installed it just works, allowing you to focus on other parts of the business. Thousands of these are in use worldwide. Over half of the companies listed on the S&P500 in the USA use this product. Flowstar is the authorised UK distributor.

**Eliminate and prevent ratholes, bridging, and sticky buildup**

**A great alternative to VIBRATORS and FLUIDISERS**
