Medenus News....

Medenus have moved to a new purpose built production facility in Olpe, Germany. Medenus is a leading German manufacturer of gas pressure regulators, gas safety shut off valves and gas filters. Flowstar is a UK distributor. Medenus products are commonly used in gas distribution and on commercial boilers and furnaces.

New Products....

Medenus DF50 Gas Filter

Sizes: 1" to 12",

Connections: BSP / NPT, Flanged PN or ANSI.

Filter efficiency: Particle size > 30 µm (Others available),

Operating Pressures: 6 Barg (1" to 6"), 2 Barg (8" to 12")

(A lower cost alternative to the DF100 gas filter)

Medenus SL5 Gas Safety Valve

Sizes: 3/4" & 1",

Connections: BSP / NPT

Set Pressure: 3 Barg (Max)

(A lower cost alternative to the SL10 safety relief valve.)

As a part of our range of backflow prevention

products, we can now supply laboratory water

taps and a CAT 5 WRAS approved anti-siphon nozzle.
