SAFETY DATA SHEET

1. Product Identification

Product name: Cold Cure Resin
SDS Number: F1000A
Product type: Epoxy polymer mixture.
Recommended use of the chemical and restrictions on use: Directed at but not limited to, the molding and coating of wood, composite materials, and other inorganic substrates.
Restrictions: None known.

Manufacturer/Supplier information

Company name: SYSTEM THREE RESINS, INC.
Address: 8517 Commerce Place Dr NE
Lacey, WA 98516
United States
Telephone: 1-253-333-8118
Website: www.systemthree.com
Email: support@systemthree.com
Emergency Contact: CHEMTEL (U.S. and CANADA) 1-800-704-9215
CHEMTEL (Outside the U.S.) – Call Collect accepted +1-360-256-7365

2. Hazard(s) Identification

Classification of substance or mixture/Signal Word
WARNING.
Skin Corrosion/Irritation - Category 2
Serious Eye Damage/Eye Irritation - Category 2
Skin Sensitizer – Category 1
Reproductive Toxicity – Category 2
Specific Target Organ Toxicity (Single Exposure) [Respiratory tract irritation] – Category 3
Acute Aquatic Toxicity – Category 2
Chronic Aquatic Toxicity – Category 2

GHS Label Elements
Hazard Pictograms

Hazard Statements/Classification of substance or mixture
H315 Causes skin irritation.
H317 May cause an allergic skin reaction.
H319 Causes serious eye irritation.
H355 May cause respiratory irritation.
H361 Suspected of damaging fertility or the unborn child.
H401 Toxic to aquatic life.
H411 Toxic to aquatic life with long lasting effects

Precautionary statements
Precautionary Statements
P280 Wear protective gloves. Wear eye or face protection.
Prevention

P201 Observe special instructions before use.
P202 Do not handle until all safety precautions have been read and understood.
P261 Avoid breathing vapors.

Response

P308 + P313 If exposed or concerned: Get medical attention.

Storage

P401 Store above 32 °F / 0 °C

Disposal

P501 Dispose of contents and container in accordance with all local, regional, national and international regulations.

Hazards not otherwise classified (HNOC) None Available.

3. Composition/Information On Ingredients

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>CAS Number</th>
<th>Content (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Diglycidyl Ether of Bisphenol A</td>
<td>25068-38-6</td>
<td>80 – 90 %</td>
</tr>
<tr>
<td>Benzyl Alcohol</td>
<td>100-51-6</td>
<td>6-10 %</td>
</tr>
<tr>
<td>Para-tert-Butylphenol</td>
<td>98-54-4</td>
<td>6-10%</td>
</tr>
<tr>
<td>Diglycidyl Ether of Bisphenol F</td>
<td>28064-14-4</td>
<td>6-10%</td>
</tr>
</tbody>
</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

4. First-Aid Measures

Skin contact

Remove contaminated clothing and shoes and wipe excess off skin. Flush skin with water. Follow by washing in soap and water. If irritation occurs, seek medical attention. Do not reuse clothing until cleaned. Contaminated leather articles (shoes) cannot be decontaminated and should be destroyed.

Eye contact

Flush with water for 15 minutes holding eye lids open. Seek medical attention.

Ingestion

Do not give liquids if victim is unconscious or very drowsy. Otherwise, give no more than 2 glasses of water and induce vomiting by giving 2 tablespoons syrup of ipecac (1 tablespoon and 1 glass of water for child). If ipecac is unavailable, give 2 glasses of water and induce vomiting by touching finger to back of throat. Keep head below hips while vomiting. Get medical attention.

Inhalation

Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get medical attention.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician

Burns. Irritation. Pre-existing skin conditions may be aggravated by prolonged or repeated contact. Persons with sensitive airways (e.g., asthmatics) may be sensitive to vapors.

Specific treatments

Treat symptoms as they appear.

5. Fire-Fighting Measures

Suitable extinguishing media

Foam, carbon dioxide, dry chemical, water fog.

Unsuitable extinguishing media

None known.

Specific hazards arising from the chemical

Potential skin irritation.

Hazardous decomposition products

None known.
Special protective actions for fire-fighters

When fighting chemical fires, wear full protective equipment with self-contained breathing apparatus. Water spray may be used to cool fire-exposed containers. Toxic fumes may be evolved when this substance is burned.

Special protective equipment for fire-fighters

Full fire suit and self-contained breathing apparatus.

Further information

Water spray may be used to cool fire-exposed containers. Toxic fumes may be evolved when this substance is burned.

Epoxy in mass can create exotherm.

6. Accidental Release Measures

**Personal precautions**

Wear proper personal protective equipment (PPE). Avoid direct contact with material. Proper PPE includes: disposable gloves, eye protection and skin protection.

**Emergency procedures**

If material is spilled, avoid contact with material. Persons not wearing appropriate protective equipment should leave the area of the spill until cleanup is complete.

**Methods and materials for containment/cleanup**

Stop spill at source, dike area to prevent spreading, pump liquid to salvage tank or drum. Remaining liquid may be taken up on clay, diatomaceous earth, sawdust or other absorbent, and shoveled into disposal container.

**Environmental precautions**

Skin sensitizer, harmful to aquatic life.

7. Handling and Storage

**Precautions for safe handling**

Always wear protective, disposable gloves when handling epoxy products to prevent exposure.

**Precautions/Recommendations for safe/proper storage**

Store epoxy products in temperature stable environment, out of the reach of pets or children. Securely fasten container lids and tops, and prevent products from sitting and below freezing temperatures.

8. Exposure Controls/Personal Protection

**Occupational Exposure Limits**

None established.

**Appropriate engineering controls**

If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

**Environmental exposure controls**

Use appropriate containment to avoid environmental contamination. Do not allow spill to enter sewers or waterways.

**Individual protection measures/Personal protective equipment**

**Eye/face protection**

Splash proof goggles or safety glasses with side shields are recommended. Always wear eye protection when sanding cured epoxy to avoid dust in eyes.

**Hand protection**

Always wear impervious gloves, neoprene, vinyl or rubber.

**Skin protection**

Wear clean, body-covering clothing to avoid skin contact.

**Respiratory protection**

Use a NIOSH-approved respiratory device when sanding cured epoxy to prevent dust in lungs.

**Specific target organ toxicity (repeated exposure)**
No information on product itself.

**Aspiration hazard**
No information on product itself.

**Potential acute health effects**

- **Eye Contact**
  Causes serious eye irritation.

- **Inhalation**
  May cause respiratory irritation.
Skin Contact
Causes skin irritation. May cause an allergic skin reaction.

Ingestion
Irritating to mouth, throat and stomach.

**Symptoms related to the physical, chemical and toxicological characteristics**

**Eye Contact**
Adverse symptoms may include the following:
- Pain
- Watering
- Redness

**Inhalation**
Adverse symptoms may include the following:
- Respiratory tract irritation
- Coughing

**Skin Contact**
Adverse symptoms may include the following:
- Irritation
- Redness

**Ingestion**
No specific data.

**Delayed and immediate effects and also chronic effects from short and long term exposure**

**Potential chronic health effects**

**General**
Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

**Carcinogenicity**
No known significant effects or critical hazards.

**Mutagenicity**
No known significant effects or critical hazards.

**Teratogenicity**
No known significant effects or critical hazards.

**Developmental effects**
No known significant effects or critical hazards.

**Fertility effects**
No known significant effects or critical hazards.

  - No known significant effects or critical hazards.

### 13. Disposal Considerations

#### Waste from residues/ unused products
Product should not be allowed to enter drains, water courses or the soil; dispose of this material and its containers in a safe way. Contact supplier if guidance is required.

#### Contaminated packaging
Dispose of container and unused contents in accordance with federal, state and local requirements.

### 14. Transport Information

The data provided in this section is for information only and may not be specific to your package size or mode of transport. You will need to apply the appropriate regulations to properly classify your shipment for transportation.

#### International Transport Regulations
