Precautionary statements

Precautionary Statements

Prevention
P201 Obtain special instructions before use.
P202 Do not handle until all safety precautions have been read and understood.
P260 Do not breathe vapor.
P264 Wash hands thoroughly after handling.
P270 Do not eat, drink, or smoke when using this product.
P271 Use only outdoors or in well-ventilated area.
P272 Contaminated work clothing should not be allowed out of the workplace.
P280 Wear protective gloves. Wear eye or face protection.
P285 In case of inadequate ventilation wear respiratory protection.

Response
P314 Get medical attention if you feel unwell.
P308 + P31 If exposed or concerned: Call a POISON CENTER or physician.

Storage
P405 Store locked up.

Disposal
P501 Dispose of contents and container in accordance with all local, regional, national and international regulations.

Hazards not otherwise classified (HNOC) None Available.

3. Composition/Information On Ingredients

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>CAS Number</th>
<th>Content (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fatty acids, C18-unsatd., dimers, reaction products with polyethylenepolyamines</td>
<td>68410-23-1</td>
<td>90 – 100%</td>
</tr>
<tr>
<td>Triethylenetetramine</td>
<td>112-24-3</td>
<td>7 – 10%</td>
</tr>
</tbody>
</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

4. First-Aid Measures

Skin contact
Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. If necessary, call a poison center or physician. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse.

Eye contact
Flush with water for 15 minutes holding eye lids open. Check for and remove any contact lenses. Get medical attention. If necessary, call a poison center or physician.

Ingestion
Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person in conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. If necessary, call a poison center or physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as collar, tie, belt, or waistband.
Inhalation

Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get medical attention.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician

In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

Specific treatments

Treat symptoms as they appear.

5. Fire-Fighting Measures

Suitable extinguishing media

Foam, carbon dioxide, dry chemical, water fog.

Unsuitable extinguishing media

None known.

Specific hazards arising from the chemical

In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous decomposition products

Carbon oxides, nitrogen oxides.

Special protective actions for fire-fighters

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters

Full fire suit and self-contained breathing apparatus.

Further information

None known.

6. Accidental Release Measures

Personal precautions

Wear proper personal protective equipment (PPE). Avoid direct contact with material. Proper PPE includes: disposable gloves, eye protection and skin protection.

Emergency procedures

If material is spilled, avoid contact with material. Persons not wearing appropriate protective equipment should leave the area of the spill until cleanup is complete.

Methods and materials for containment/cleanup

Stop spill at source, dike area to prevent spreading, pump liquid to salvage tank or drum. Remaining liquid may be taken up on clay, diatomaceous earth, sawdust or other absorbent, and shoveled into disposal container.

Environmental precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

7. Handling and Storage

Precautions for safe handling

Always wear protective, disposable gloves when handling epoxy products to prevent exposure. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate.

Precautions/Recommendations for safe/proper storage

Store epoxy products in temperature stable environment, out of the reach of pets or children. Securely fasten container lids and tops, and prevent products from sitting and below freezing temperatures.

8. Exposure Controls(Personal Protection)
### Occupational Exposure Limits

<table>
<thead>
<tr>
<th>Triethylenetetramine</th>
<th>AIHA WEEL (1999-01-01)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Time Weighted Average (TWA) 1 ppm</td>
<td>NIOSH REL (2005-09-30)</td>
</tr>
</tbody>
</table>

### Appropriate engineering controls

If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

### Environmental exposure controls

Use appropriate containment to avoid environmental contamination. Do not allow spill to enter sewers or waterways.

### Individual protection measures/Personal protective equipment

<table>
<thead>
<tr>
<th>Eye/face protection</th>
<th>Splash proof goggles or safety glasses with side shields are recommended. Always wear eye protection when sanding cured epoxy to avoid dust in eyes.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hand protection</td>
<td>Always wear impervious gloves, neoprene, vinyl or rubber.</td>
</tr>
<tr>
<td>Skin protection</td>
<td>Wear clean, body-covering clothing to avoid skin contact.</td>
</tr>
<tr>
<td>Respiratory protection</td>
<td>Use a NIOSH-approved respiratory device when sanding cured epoxy to prevent dust in lungs.</td>
</tr>
</tbody>
</table>

### Special instructions for protection and hygiene

Wear gloves at all times when handling product, avoid direct contact with skin. When finished using product, dispose of gloves properly and wash hands with warm, soapy water.

### Physical and Chemical Properties

**Chemical family**
- Polyamide curing agent

**Appearance**
- Viscous liquid

**Physical State**
- Epoxy polymer mixture

**Form**
- Liquid

**Color**
- Reddish-brown

**Odor**
- Characteristic

**Density**
- 970 kg/m3 (8.09 lb/gal)

**Viscosity**
- 13,000 CPS @ 25°C (77°F)

**pH**
- N/A

**Melting point/freezing point**
- Data not available

**Initial boiling point and boiling range**
- Data not available

**Flash point**
- Open cup: >110°C (230°F), ASTM D 4206

**Evaporation rate**
- Data not available

**Flammability (solid, gas)**
- Data not available

**Upper/lower flammability limit (by volume)**
- Upper flammability limit (by volume) N/A
- Lower flammability limit (by volume) N/A

**Material VOC**
- None

**Vapor density**
- 1 [Air=1]

**Relative density**
- Not determined
Solubility in water: Slightly
Partition coefficient: n-octanol/water: Data not available
Auto-ignition temperature: Data not available
Decomposition temperature: Data not available

10. Stability and Reactivity

Reactivity: Stable under normal conditions.

Chemical Stability: Stable

Possibility of hazardous reactions: Hazardous polymerization will not occur.

Conditions to avoid: Avoid exposure – obtain special instructions before use. Avoid all possible sources of ignition (spark or flame).

Incompatible materials: Strong oxidizing agents.

Hazardous decomposition products: Under normal conditions or storage and use, hazardous decomposition products should not be produced.

Other hazards: Heating this substance above 300°F in the presence of air may cause slow oxidative decomposition; above 500°F polymerization may occur. Some combinations of resins and curing agents can produce exothermic reactions which in large masses can cause runaway polymerization and charring of the reactants. Fumes and vapors from the thermal and chemical decompositions vary widely in composition and toxicity.

11. Toxicological Information

Acute Health Hazard (components): No comprehensive data (ingestion, inhalation, dermal) on mixture (product).

**Aspiration hazard**

No information on product itself.

**Potential acute health effects**

**Eye Contact**
Causes serious eye irritation.

**Inhalation**
May cause respiratory irritation. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

**Skin Contact**
Causes skin irritation. May cause an allergic skin reaction.

**Ingestion**
Irritating to mouth, throat and stomach.

**Symptoms related to the physical, chemical and toxicological characteristics**

**Eye Contact**
Adverse symptoms may include the following:
- Pain
- Watering
- Redness

**Inhalation**
Adverse symptoms may include the following:
- Respiratory tract irritation
- Coughing
- Wheezing and breathing difficulties
- Asthma
- Reduced fetal weight
- Increase in fetal deaths
- Skeletal malformations

**Skin Contact**
Adverse symptoms may include the following:
- Irritation
- Redness
- Reduced fetal weight
- Increase in fetal deaths
- Skeletal malformations

**Ingestion**
Adverse symptoms may include the following:
- Reduced fetal weight
- Increase in fetal deaths
- Skeletal malformations

**Delayed and immediate effects and also chronic effects from short and long term exposure**

**Potential chronic health effects**
General

Causes damage to organs through prolonged or repeated exposure: Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

Carcinogenicity
No known significant effects or critical hazards.

Mutagenicity
No known significant effects or critical hazards.

Teratogenicity
Suspected of damaging the unborn child.

Developmental effects
No known significant effects or critical hazards.

Fertility effects
Suspected of damaging fertility.

Numerical measures of toxicity

Acute toxicity estimates (ATEmix)
Not available.

</table>

Mobility in Soil

Soil/water partition coefficient (KOC)
No information on product itself.

Other adverse effects
No known significant effects or critical hazards.

13. Disposal Considerations

Waste from residues/ unused products
The generation of waste should be avoided or minimized wherever possible. Product should not be allowed to enter drains, water courses or the soil; dispose of this material and its containers in a safe way. Contact supplier if guidance is required.

Contaminated packaging
Dispose of container and unused contents in accordance with federal, state and local requirements.

14. Transport Information
The data provided in this section is for information only and may not be specific to your package size or mode of transport. You will need to apply the appropriate regulations to properly classify your shipment for transportation.

### International Transport Regulations

<table>
<thead>
<tr>
<th>Regulatory information</th>
<th>UN/NA number</th>

<td></td>
</tr>
</tbody>
</table>

**Special precautions for user:**
Transport within user’s premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

### 15. Regulatory Information

#### UNITED STATES

- **U.S. Federal Regulations**
  - United States – TSCA 12(b) – Chemical export notification: None Required.
  - United States – TSCA 5(a)2 – Final significant new use rules: Not Listed.
  - United States – TSCA 5(a)2 – Proposed significant new use rules: Not Listed.
  - United States – TSCA 5(e) – Substance consent order: Not listed.
- **California Prop. 65**
  - None required.
- **EPA SARA 302 Extremely Hazardous Substances**
  - None required.
- **EPA SARA 304/311/312 Hazardous Chemicals**
  - None required.
- **United States inventory (TSCA 8b)**
  - All components are listed or exempted.

#### CANADA

- **WHMIS (Canada)**
  - Class D-2B: Material causing other toxic effects (Toxic).
- **Canadian NPRI**
  - None required.
- **CEPA Toxic substances**
  - None required.

#### INTERNATIONAL REGULATIONS

- **International Lists**
  - **Australia inventory (AICS):** All components are listed or exempted.
  - **Canada inventory:** All components are listed or exempted.
  - **Korea inventory:** All components are listed or exempted.
  - **Japan inventory:** All components are listed or exempted.
  - **China inventory (IECSC):** All components are listed or exempted.
  - **New Zealand inventory (NZIoC):** All components are listed or exempted.
  - **Philippines inventory (PICCS):** All components are listed or exempted.
  - **Taiwan inventory (CSNN):** All components are listed or exempted.
