1. Product Identification

Product name: Jet Cure Hardener, Part B
SDS Number: F1010B00
Product type: Curing Agent

Recommended use of the chemical and restrictions on use:
Directed at, but not limited to, the molding and coating of fiber composites, wood, and other surfaces.

Restrictions:
None known.

Manufacturer/Supplier information
Company name: SYSTEM THREE RESINS, INC.
Address: 8517 Commerce Place Dr NE
Lacey, WA 98516
United States
Telephone: 1-253-333-8118
Website: www.systemthree.com
Email: support@systemthree.com

Emergency Contact:
CHEMTEL (U.S. and CANADA) 1-800-704-9215
CHEMTEL (Outside the U.S.) – Call Collect accepted +1-360-256-7365

2. Hazard(s) Identification

Classification of substance or mixture/Signal Word:
DANGER
ACUTE TOXICITY: ORAL – Category 4
ACUTE TOXICITY: DERMAL – Category 4
SKIN CORROSION/IRRITATION – Category 1
SERIOUS EYE DAMAGE/EYE IRRITATION – Category 1
SKIN SENSITIZATION – Category 1
TOXIC TO REPRODUCTION [Fertility] – Category 1
TOXIC TO REPRODUCTION [Unborn child] – Category 1
SINGLE TARGET ORGAN TOXICITY (SINGLE EXPOSURE) [Respiratory tract irritation] – Category 3
AQUATIC HAZARD (Acute) – Category 1
AQUATIC HAZARD (Chronic) – Category 1

GHS Label Elements
Hazard Pictograms

Hazard Statements/Classification of substance or mixture:
H302 Harmful if swallowed.
H312 Harmful in contact with skin.
H314 Causes severe skin burns and eye damage.
H317 May cause an allergic skin reaction.
H318 Causes serious eye damage.
H335 May cause respiratory irritation.
H360 May damage fertility or the unborn child.
Precautionary statements

Precautionary Statements

Prevention

P201 Obtain special instructions before use.
P202 Do not handle until all safety precautions have been read and understood.
P260 Do not breathe dusts or mists.
P261 Avoid breathing dust/fume/gas/mist/vapors/spray.
P264 Wash hands thoroughly after handling.
P270 Do not eat, drink, or smoke when using this product.
P271 Use only outdoors or in a well-ventilated area.
P272 Contaminated work clothing should not be allowed out of the workplace.
P273 Avoid release to the environment.
P280 Wear protective gloves/protective clothing/eye protection/face protection.

Response

P301 + P312 IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.
P302 + P352 IF ON SKIN: Wash with soap and water.
P303 + P361 + P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305 +P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER or doctor/physician.
P312 Call a POISON CENTER or doctor/physician if you feel unwell.
P333 + P313 If skin irritation or rash occurs: Get medical advice/attention.
P391 Collect spillage.

Storage

P405 Store locked up.

Disposal

P501 Dispose of contents and container in accordance with all local, regional, national and international regulations.

Hazards not otherwise classified (HNOC)

None known.

3. Composition/Information On Ingredients

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>CAS Number</th>
<th>Content (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nonyl Phenol</td>
<td>84852-15-3</td>
<td>50 – 60%</td>
</tr>
<tr>
<td>Aliphatic Amine Mixture</td>
<td>Trade Secret</td>
<td>40 – 50%</td>
</tr>
</tbody>
</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

4. First-Aid Measures

Skin contact

Immediately remove contaminated clothing, and any extraneous chemical, if possible to do so without delay. Flush immediately with copious amounts of water. Initiate and maintain continuous irrigation until the patient receives medical care. If medical care is not promptly available, continue to irrigate for one hour. Cover wound with sterile dressing.
**Eye contact**
Hold eyelids apart, initiate and maintain gentle and continuous irrigation until the patient receives medical attention. If medical care is not promptly available, continue to irrigate for one hour.

**Ingestion**
Get medical attention. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Prevent aspiration of vomit. Turn victim’s head to the side.

**Inhalation**
Get medical attention. Move to fresh air. Supplemental oxygen may be indicated.

**Indication of immediate medical attention and special treatment needed, if necessary**

<table>
<thead>
<tr>
<th>Notes to physician</th>
<th>Symptomatic and supportive therapy as needed.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Specific treatments</td>
<td>No specific treatments.</td>
</tr>
</tbody>
</table>

### 5. Fire-Fighting Measures

<table>
<thead>
<tr>
<th>Suitable extinguishing media</th>
<th>Alcohol-resistant foam. Carbon dioxide (CO2). Dry chemical</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unsuitable extinguishing media</td>
<td>None known.</td>
</tr>
</tbody>
</table>

**Specific hazards arising from the chemical**
In a fire or if heated, a pressure increase will occur and the container may burst. This material is very toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer, or drain.

**Hazardous decomposition products**
Carbon dioxide, carbon monoxide, and nitrogen oxides.

**Special protective actions for fire-fighters**
Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters**
Avoid contact with skin. A face shield should be worn. Use personal protective equipment. Wear self-contained breathing apparatus (SCBA) with a full face-piece operated in a positive pressure mode.

**Further information**
None.

### 6. Accidental Release Measures

<table>
<thead>
<tr>
<th>Personal precautions</th>
<th>No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Do not breath vapor or mist. Provide adequate ventilation. Wear proper protective clothing, gloves and eye/face protection. Use self-contained breathing apparatus and chemically protective clothing.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Emergency procedures</td>
<td>If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials.</td>
</tr>
<tr>
<td>Methods and materials for containment/cleanup</td>
<td>Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, watercourses, basements or confined areas. Contain and collect spillage with inert, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Wash the spill area clean with water and detergent, observing environmental requirements. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.</td>
</tr>
<tr>
<td>Environmental precautions</td>
<td>Use appropriate containment to avoid environmental contamination. Do not allow spill to enter into sewers or waterways.</td>
</tr>
</tbody>
</table>
7. Handling and Storage

**Precautions for safe handling**
Avoid contact with skin and eyes. Emergency showers and eye wash stations should be readily accessible. Adhere to work practice rules established by government regulations. Use personal protective equipment. When using, do not eat, drink or smoke.

**Precautions/Recommendations for safe/proper storage**
Do not store near acids. Keep containers tightly closed in a dry, cool and well-ventilated place. Keep from freezing.

8. Exposure Controls/Personal Protection

**Occupational Exposure Limits**
None established.

**Appropriate engineering controls**
Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

**Environmental exposure controls**
Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

**Individual protection measures/Personal protective equipment**

**Eye/face protection**
Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. Recommended: chemical safety goggles.

**Hand protection**
Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Butyl-rubber, Nitrile rubber, Neoprene Gloves, PVC disposable gloves, Impervious gloves.

**Skin protection**
Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection**
Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Special instructions for protection and hygiene**
Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Discard contaminated leather goods. Ensure that eyewash stations and safety showers are close to the workstation location.

9. Physical and Chemical Properties

**Chemical family**
Amine curing agent

**Appearance**
Liquid

**Physical State**
Form: Liquid
Color: Slightly yellow
Odor: Ammoniacal
Density (Specific Gravity): 0.94
Viscosity: 240 – 260 CPS @77 °F (25 °C)
\( \text{pH} \): Alkaline
Melting point/freezing point: N/A
Initial boiling point and boiling range: 399°F(204°C)
Flash point: 230°F(110°C)
Evaporation rate: N/A
Flammability (solid, gas): N/A
Upper/lower flammability limit (by volume): N/A
  Upper flammability limit (by volume): N/A
  Lower flammability limit (by volume): N/A
Material VOC: None
Vapor density: N/A
Relative density: N/A
Solubility in water: < 0.1 g/l
Partition coefficient: n-octanol/water: N/A
Auto-ignition temperature: N/A
Decomposition temperature: N/A

10. Stability and Reactivity

Reactivity: Stable under normal conditions.
Chemical Stability: Stable.
Possibility of hazardous reactions: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid: No specific data.
Incompatible materials: Organic acids (i.e. acetic acid, citric acid, etc.).
  Mineral acids.
  Sodium hypochlorite.
  Oxidizing agents.
Hazardous decomposition products: Nitric acid
  Ammonia
  Aldehydes
  Nitrogen oxides (NOx)
  Nitrogen oxide can react with water vapors to form corrosive nitric acid.
  Carbon monoxide.
  Carbon dioxide (CO₂).
Other hazards: None known.
11. Toxicological Information

**Acute Health Hazard (components)**

No comprehensive data (ingestion, inhalation, dermal) on mixture (product).

**Reproductive Toxicity**

No information on the product itself.

**Teratogenicity**

No information on the product itself.

**Specific target organ toxicity (single exposure)**

No information on the product itself.

**Specific target organ toxicity (repeated exposure)**

No information on the product itself.

**Aspiration hazard**

No information on the product itself.

**Potential acute health effects**

**Eye Contact**

Causes serious eye damage.

**Inhalation**

May give off gas, vapor or dust that is very irritating or corrosive to the respiratory system.

**Skin Contact**

Causes severe burns.

**Ingestion**

Harmful if swallowed. May cause burns to mouth, throat and stomach.

**Symptoms related to the physical, chemical and toxicological characteristics**

**Eye Contact**

Adverse symptoms may include the following:

- Pain
- Watering
- Redness

**Inhalation**

Adverse symptoms may include the following:
Reduced fetal weight
Increase in fetal deaths
Skeletal malformations

### Skin Contact
Adverse symptoms may include the following:
- Pain or irritation
- Redness
- Blistering may occur
- Reduced fetal weight
- Increase in fetal deaths
- Skeletal malformations

### Ingestion
Adverse symptoms may include the following:
- Stomach pains
- Reduced fetal weight
- Increase in fetal deaths
- Skeletal malformations

### Delayed and immediate effects and also chronic effects from short and long term exposure

### Potential chronic health effects
No information on the product itself.

### General
May cause damage to organs through prolonged or repeated exposure in contact with skin. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

### Carcinogenicity
No known significant effects or critical hazards.

### Mutagenicity
No known significant effects or critical hazards.

### Teratogenicity
May damage the unborn child.

### Developmental effects
No known significant effects or critical hazards.

### Fertility effects
May damage fertility.

Mobility in Soil

No information on the product itself.

Soil/water partition coefficient (KOC)

No information on the product itself.

Other adverse effects

No known significant effects or critical hazards.

13. Disposal Considerations

Waste from residues/ unused products

Product should not be allowed to enter drains, water courses or the soil; dispose of this material and its containers in a safe way. Contact supplier if guidance is required.

Contaminated packaging

Dispose of container and unused contents in accordance with federal, state and local requirements.

14. Transport Information

The data provided in this section is for information only and may not be specific to your package size or mode of transport. You will need to apply the appropriate regulations to properly classify your shipment for transportation.
