1. Product Identification

Product name: Quick Cure - 15 Adhesive Part B
SDS Number: 1010B00
Product type: Mercaptan/Amine polymer mixture
Recommended use of the chemical and restrictions on use:
Directed at, but not limited to, the adhesion of wood, similar and dissimilar substrates.
Restrictions:
None known.
Manufacturer/Supplier information:
Company name: SYSTEM THREE RESINS, INC.
Address: 8517 Commerce Place Dr NE
Lacey, WA 98516
United States
Telephone: 1-253-333-8118
Website: www.systemthree.com
Email: support@systemthree.com
Emergency Contact: CHEMTEL (U.S. and CANADA) 1-800-704-9215
CHEMTEL (Outside the U.S.) – Call collect accepted +1-360-256-7365

2. Hazard(s) Identification

Classification of substance or mixture/Signal Word:
WARNING
Skin Corrosion/Irritation – Category 2
Serious Eye Damage – Category 1
Skin Sensitization – Category 1

GHS Label Elements:
Hazard Pictograms:

Hazard Statements/Classification of substance or mixture:
H312 Harmful in contact with skin.
H317 May cause an allergic skin reaction.
H318 Causes serious eye damage.

Precautionary statements:
Precautionary Statements:
P202 Do not handle until all safety precautions have been read and understood.
P264 Wash hands thoroughly after handling.
P270 Do not eat, drink, or smoke when using this product.
P280 Wear protective clothing, gloves, eye, and face protection.
Response:
P301+P330+P314 IF SWALLOWED: Rinse mouth and get medical attention if you feel unwell.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes and remove contacts if present and easy to do so. Continue rinsing.
3. Composition/Information on Ingredients

<table>
<thead>
<tr>
<th>Chemical Name</th>

</tr>
</tbody>
</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

4. First-Aid Measures

Skin contact: Remove contaminated clothing and shoes and wipe excess off skin. Flush skin with water. Follow by washing in soap and water. If irritation occurs, seek medical attention. Do not reuse clothing until cleaned. Contaminated leather articles (shoes) cannot be decontaminated and should be destroyed.

Eye contact: Flush with water for 15 minutes holding eye lids open. Remove contacts if present and easy to do so. Seek medical attention, if irritation or symptoms of overexposure persist.

Ingestion: If swallowed, do NOT induce vomiting. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person. Turn victim’s head to the side.

Inhalation: Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get medical attention.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician: Symptomatic and supportive therapy as needed. Following severe exposure medical follow-up should be monitored for at least 48 hours.

Specific treatments: No specific treatment.

5. Fire-Fighting Measures

Suitable extinguishing media: Alcohol-resistant foam, Carbon dioxide (CO₂), Dry chemical, Water Fog

Unsuitable extinguishing media: None known.

Specific hazards arising from the chemical: Potential skin irritation.

Hazardous decomposition products: Decomposition products may include the following materials: Carbon dioxide, Carbon monoxide, Nitrogen oxides

Special protective actions for fire-fighters: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters: Avoid contact with skin. A face shield should be worn. Use personal protective equipment. Wear self-contained breathing apparatus for fighting if necessary.
Further information
Do not allow run-off from firefighting to enter drains or water courses. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

6. Accidental Release Measures

Personal precautions
No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Do not breathe vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Wear proper protective clothing, gloves and eye/face protection.

Emergency procedures
If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials.

Methods and materials for containment/cleanup
Contain spills with an inert absorbent material such as soil or sand. Prevent from spreading by covering, diking or other means. Provide ventilation.

Environmental precautions
Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

7. Handling and Storage

Precautions for safe handling
Always wear protective, disposable gloves when handling epoxy products to prevent exposure. Use with adequate ventilation. Avoid breathing vapor and contact with eyes, skin and clothing.

Precautions/Recommendations for safe/proper storage
Store epoxy products in temperature stable environment, out of the reach of pets or children. Securely fasten container lids and tops, and prevent products from sitting and below freezing temperatures.

8. Exposure Controls/personal protection

Occupational Exposure Limits
None established.

Appropriate engineering controls
Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Environmental exposure controls
Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. Do not allow spill to enter sewers or waterways.

Individual protection measures/personal protective equipment

Eye/face protection
Splash-proof goggles or safety spectacles with side shields are recommended. Always wear eye protection when sanding cured epoxy resins to avoid dust in eyes.

Hand protection
Always wear impervious gloves: butyl rubber, nitrile rubber, Neoprene, PVC disposable gloves.

Skin protection
Wear clean, body-covering clothing to avoid skin contact.

Respiratory protection
Use a NIOSH approved respiratory device when sanding cured epoxy to prevent dust in lungs.
Special instructions for protection and hygiene

Wear gloves at all times when handling product, avoid direct contact with skin. When finished using product, dispose of gloves properly and wash hands with warm, soapy water.

No information on product itself.

**Carcinogenicity**
No information on product itself.

**Reproductive Toxicity**
No information on product itself.

**Teratogenicity**
No information on product itself.

**Specific target organ toxicity (single exposure)**
No information on product itself.

**Specific target organ toxicity (repeated exposure)**
Not available.

**Aspiration hazard**
Not available.

**Potential acute health effects**

- **Eye Contact**
  Causes eye burns.
- **Inhalation**
  Not available.
- **Skin Contact**
  Causes skin irritation.
- **Ingestion**
  Harmful if swallowed.

**Symptoms related to the physical, chemical and toxicological characteristics**

- **Eye Contact**
  Not available.
- **Inhalation**
  Not available.
- **Skin Contact**
  Not available.
- **Ingestion**
  Not available.

**Delayed and immediate effects and also chronic effects from short and long term exposure**

**Potential chronic health effects**

- **General**
  May cause sensitization by skin contact.
Carcinogenicity
No known significant effects or critical hazards.

Mutagenicity
No known significant effects or critical hazards.

Teratogenicity
No known significant effects or critical hazards.

Developmental effects
No known significant effects or critical hazards.

Fertility effects
No known significant effects or critical hazards.

Persistence and degradability
No information on product itself.

Bioaccumulative Potential
No information on product itself.

Mobility in Soil

Soil/water partition coefficient (KOC)
No information on product itself.

Other adverse effects
No known significant effects or critical hazards.

13. Disposal Considerations

Waste from residues/ unused products
The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Product should not be allowed to enter drains, water courses or the soil; dispose of this material and its containers in a safe way. Contact supplier if guidance is required.

Contaminated packaging
Dispose of container and unused contents in accordance with federal, state and local requirements.

14. Transport Information

The data provided in this section is for information only and may not be specific to your package size or mode of transport. You will need to apply the appropriate regulations to properly classify your shipment for transportation.

International Transport Regulations

*PG: Packing group
Special precautions for user: Transport within user’s premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

15. Regulatory Information

UNITED STATES

U.S. Federal Regulations
United States – TSCA 12(b) – Chemical export notification: None Required.
United States – TSCA 5(a)2 – Final significant new use rules: Not Listed.
United States – TSCA 5(a)2 – Proposed significant new use rules: Not Listed.
United States – TSCA 5(e) – Substance consent order: Not listed.

Clean Air Act – Ozone Depleting Substances (ODS)
This product does not contain nor is it manufactured with ozone depleting substances.

Clean Air Act Section 112(b) Hazardous Air Pollutants (HAPs)
This product does not contain nor is it manufactured with hazardous air pollutants.

California Prop. 65
This product does not contain chemicals known to the state of California to cause cancer, birth defects, or other reproductive harm.

EPA SARA 302 Extremely Hazardous Substances
None Required
