1. Product Identification

Product name: SilverTip® Coating and Laminating Resin
SDS Number: 0900A
Product type: Epoxy polymer mixture.
Recommended use of the chemical and restrictions on use: Directed at, but not limited to, the laminating and coating of fiber composite and wood.
Restrictions: None known.
Manufacturer/Supplier information
  Company name: SYSTEM THREE RESINS, INC.
  Address: 3500 W. Valley Hwy, Suite Suite 105
            Auburn, WA 98001-2436
            United States
  Telephone: 1-253-333-8118
  Website: www.systemthree.com
  Email: support@systemthree.com
  Emergency Contact: CHEMTREC (U.S. and CANADA) 1-800-424-9300
                    CHEMTREC (Outside the U.S.) 1-703-527-0585

2. Hazard(s) Identification

Classification of substance or mixture/Signal Word: WARNING
  Skin Corrosion/Irritation - Category 2
  Serious Eye Damage/Eye Irritation - Category 2
  Skin Sensitization - Category 1
  Specific Target Organ Toxicity (Single Exposure) [Respiratory tract irritation] – Category 3

GHS Label Elements
  Hazard Pictograms

Hazard Statements/Classification of substance or mixture
  H315 Causes skin irritation.
  H317 May cause an allergic skin reaction.
  H319 Causes serious eye irritation.
  H335 May cause respiratory irritation.

Precautionary statements
  Precautionary Statements
  Prevention
  P201 Obtain special instructions before use.
  P202 Do not handle until all safety precautions have been read and understood.
  P264 Wash hands thoroughly after handling.
  P271 Use only outdoors or in a well-ventilated area.
Contaminated work clothing should not be allowed out of the workplace.

Wear protective gloves/protective clothing/eye protection/face protection.

Response
- **P304 + 340** IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- **P313** Call a POISON CENTER or doctor/physician if you feel unwell.
- **P302+352+363** IF ON SKIN: Wash with soap and water. Take off contaminated clothing and wash before reuse.
- **P305+351+338** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.
- **P308 + P313** If exposed or concerned: Get medical attention.

Storage
- **P401** Store at room temperature in a well-ventilated area.

Disposal
- **P501** Dispose of contents and container in accordance with all local, regional, national and international regulations.

Hazards not otherwise classified (HNOC)
- None Available.

### 3. Composition/Information On Ingredients

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>CAS Number</th>
<th>Content (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Diglycidyl Ether of Bisphenol A</td>
<td>25068-38-6</td>
<td>70 – 80 %</td>
</tr>
<tr>
<td>Diglycidyl Ether of Bisphenol F</td>
<td>28064-14-4</td>
<td>5 – 10%</td>
</tr>
<tr>
<td>Benzyl Alcohol</td>
<td>100-51-6</td>
<td>5 – 10 %</td>
</tr>
<tr>
<td>Alkyl Glycidyl Ether</td>
<td>17557-23-2</td>
<td>5 – 10 %</td>
</tr>
</tbody>
</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

### 4. First-Aid Measures

**Skin contact**
- Remove contaminated clothing and shoes and wipe excess off skin. Flush skin with water. Follow by washing in soap and water. If irritation occurs, seek medical attention. Do not reuse clothing until cleaned. Contaminated leather articles (shoes) cannot be decontaminated and should be destroyed.

**Eye contact**
- Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.

**Ingestion**
- Do not induce vomiting unless directed to do so by medical personnel. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately.

**Inhalation**
- Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get medical attention.

**Indication of immediate medical attention and special treatment needed, if necessary**

**Notes to physician**
- Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

**Specific treatments**
- No specific treatment.
## 5. Fire-Fighting Measures

<table>
<thead>
<tr>
<th>Suitable extinguishing media</th>
<th>Alcohol-resistant foam, carbon dioxide (CO\textsubscript{2}), dry chemical, water fog.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unsuitable extinguishing media</td>
<td>None known.</td>
</tr>
<tr>
<td>Specific hazards arising from the chemical</td>
<td>In a fire or if heated, a pressure increase will occur and the container may burst. This material is toxic to aquatic life with long lasting effects. Fire water contaminated must be contained and prevented from being discharged to any waterway, sewer or drain.</td>
</tr>
<tr>
<td>Hazardous decomposition products</td>
<td>Decomposition products may include the following materials: Carbon dioxide, Carbon monoxide</td>
</tr>
<tr>
<td>Special protective actions for fire-fighters</td>
<td>Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.</td>
</tr>
<tr>
<td>Special protective equipment for fire-fighters</td>
<td>Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.</td>
</tr>
<tr>
<td>Further information</td>
<td>Do not allow run-off from firefighting to enter drains or water courses. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.</td>
</tr>
</tbody>
</table>

## 6. Accidental Release Measures

<table>
<thead>
<tr>
<th>Personal precautions</th>
<th>Wear proper personal protective equipment (PPE). Avoid direct contact with material. Proper PPE includes: disposable gloves, eye protection and skin protection.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Emergency procedures</td>
<td>If material is spilled, avoid contact with material. Persons not wearing appropriate protective equipment should leave the area of the spill until cleanup is complete.</td>
</tr>
<tr>
<td>Methods and materials for containment/cleanup</td>
<td>Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.</td>
</tr>
<tr>
<td>Environmental precautions</td>
<td>Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.</td>
</tr>
</tbody>
</table>

## 7. Handling and Storage

<table>
<thead>
<tr>
<th>Precautions for safe handling</th>
<th>Avoid contact with skin and eyes. Emergency showers and eye wash stations should be readily accessible. Adhere to work practice rules established by government regulations. Use personal protective equipment. When using, do not eat, drink or smoke.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Precautions/Recommendations for safe/proper storage</td>
<td>Store epoxy products in temperature stable environment, out of the reach of pets or children. Securely fasten container lids and tops, and prevent products from sitting and below freezing temperatures.</td>
</tr>
</tbody>
</table>
8. Exposure Controls/Personal Protection

**Occupational Exposure Limits**
Not established.

**Appropriate engineering controls**
Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

**Environmental exposure controls**
Use appropriate containment to avoid environmental contamination. Do not allow spill to enter sewers or waterways.

**Individual protection measures/Personal protective equipment**

**Eye/face protection**
Splash-proof goggles or safety spectacles with side shields are recommended. Always wear eye protection when sanding cured epoxy resins to avoid dust in eyes.

**Hand protection**
Always wear impervious gloves: butyl rubber, nitrile rubber, Neoprene, PVC disposable gloves,

**Skin protection**
Wear clean, body-covering clothing to avoid skin contact.

**Respiratory protection**
Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Special instructions for protection and hygiene**
Wear gloves at all times when handling product, avoid direct contact with skin. When finished using product, dispose of gloves properly and wash hands with warm, soapy water.

</tbody>
</table>
10. Stability and Reactivity

Reactivity  
No specific test data related to reactivity available for this product.

Chemical Stability  
Stable under normal conditions.

Possibility of hazardous reactions  
Hazardous polymerization will not occur.

Conditions to avoid  
Epoxy resins and epoxy resin hardeners react with each other producing heat. They should not be mixed with each other under uncontrolled conditions or in large mass as the ensuing exotherm may result in heat and smoke, resulting in hazardous decomposition products.

Incompatible materials  
Strong oxidizing and reducing agents. Lewis and mineral acids.

Hazardous decomposition products  
Oxides of carbon, aldehydes, and acids.

Other hazards  
None known.

11. Toxicological Information

Acute Health Hazard (components)  
No comprehensive data (ingestion, inhalation, dermal) on mixture (product).

Potential acute health effects

**Eye Contact**
Causes serious eye irritation.

**Inhalation**
May cause respiratory irritation.

**Skin Contact**
Causes skin irritation. May cause an allergic skin reaction.

**Ingestion**
Irritating to mouth, throat and stomach.

Symptoms related to the physical, chemical and toxicological characteristics

**Eye Contact**
Adverse symptoms may include the following:
- Pain
- Watering
- Redness

**Inhalation**
Adverse symptoms may include the following:
- Respiratory tract irritation
- Coughing

**Skin Contact**
Adverse symptoms may include the following:
- Irritation
- Redness

**Ingestion**
No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure

Potential chronic health effects

**General**
Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

**Carcinogenicity**
No known significant effects or critical hazards.

**Mutagenicity**
No known significant effects or critical hazards.

**Teratogenicity**
No known significant effects or critical hazards.

**Developmental effects**
No known significant effects or critical hazards.

**Fertility effects**
No known significant effects or critical hazards.

Numerical measures of toxicity

**Acute toxicity estimates (ATEmix)**

13. Disposal Considerations

**Waste from residues/ unused products**

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Product should not be allowed to enter drains, water courses or the soil; dispose of this material and its containers in a safe way. Contact supplier if guidance is required.

**Contaminated packaging**

Dispose of container and unused contents in accordance with federal, state and local requirements.

14. Transport Information

The data provided in this section is for information only and may not be specific to your package size or mode of transport. You will need to apply the appropriate regulations to properly classify your shipment for transportation.

**International Transport Regulations**
