1. Product Identification

Product name
Submarine Resin, Part A

SDS Number
1250A00

Product type
Epoxy polymer mixture

Recommended use of the chemical and restrictions on use
Directed at, but not limited to, the repair of similar and dissimilar materials.

Restrictions
None known.

Manufacturer/Supplier information

Company name
SYSTEM THREE RESINS, INC.

Address
8517 Commerce Place Dr NE
Lacey, WA 98516
United States

Telephone
1-253-333-8118

Website
www.systemthree.com

Email
support@systemthree.com

Emergency Contact
CHEMTEL (U.S. and CANADA) 1-800-704-9215
CHEMTEL (Outside the U.S.) – Call Collect accepted +1-360-256-7365

2. Hazard(s) Identification

Classification of substance or mixture/Signal Word
WARNING
SKIN CORROSION/IRRITATION - Category 2
SERIOUS EYE DAMAGE/IRRITATION - Category 2
SKIN SENSITIZATION - Category 1
SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) [Respiratory tract irritation] – Category 3
ACUTE AQUATIC TOXICITY – Category 3
CHRONIC AQUATIC TOXICITY – Category 3

GHS Label Elements
Hazard Pictograms

Hazard Statements/Classification of substance or mixture
H315 Causes skin irritation.
H317 May cause an allergic skin reaction.
H319 Causes serious eye irritation.
H335 May cause respiratory irritation.
H402 Harmful to aquatic life.
H412 Harmful to aquatic life with long lasting effects.

Precautionary statements

Precautionary Statements
Prevention
P261 Avoid breathing dust/fume/vapors/spray.
P264 Wash hands thoroughly after handling.
P271 Use only outdoors or in a well-ventilated area.
Contaminated work clothing should not be allowed out of the workplace.
Avoid release to the environment.
Wear protective gloves/protective clothing/eye protection/face protection.

Response
- **P304 + 340** IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- **P312** Call a POISON CENTER or doctor/physician if you feel unwell.
- **P302+352+363** IF ON SKIN: Wash with soap and water. Take off contaminated clothing and wash before reuse.
- **P305+351+338** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.
- **P308 + P313** If exposed or concerned: Get medical attention.
- **P333 + P313** If skin irritation or rash occurs: Get medical advice/attention.
- **P362 + P364** Take off contaminated clothing and wash it before reuse.

Storage
- **P401** Store at room temperature in a well-ventilated area.

Disposal
- **P501** Dispose of contents and container in accordance with all local, regional, national and international regulations.

Hazards not otherwise classified (HNOC)
None Available.

### 3. Composition/Information On Ingredients

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>Diglycidyl Ether of Bisphenol A</td>
<td>25068-38-6</td>
<td>45 – 50%</td>
</tr>
<tr>
<td>Bisphenol A epoxy - CTBN rubber adduct</td>
<td>68610-41-3</td>
<td>5 – 10%</td>
</tr>
<tr>
<td>Diglycidyl Ether of Bisphenol F</td>
<td>28064-14-4</td>
<td>5 – 10%</td>
</tr>
</tbody>
</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

### 4. First-Aid Measures

**Skin contact**
Remove contaminated clothing and shoes and wipe excess off skin. Flush skin with water. Follow by washing in soap and water. If irritation occurs, seek medical attention. Do not reuse clothing until cleaned. Contaminated leather articles (shoes) cannot be decontaminated and should be destroyed.

**Eye contact**
Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.

**Ingestion**
Do not induce vomiting unless directed to do so by medical personnel. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately.

**Inhalation**
Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get medical attention.

**Indication of immediate medical attention and special treatment needed, if necessary**

**Notes to physician**
Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments

No specific treatment.

## 5. Fire-Fighting Measures

| Suitable extinguishing media | Alcohol-resistant foam, carbon dioxide (CO₂), dry chemical, water fog. |
| Unsuitable extinguishing media | None known. |
| Specific hazards arising from the chemical | In a fire or if heated, a pressure increase will occur and the container may burst. This material is toxic to aquatic life with long lasting effects. Fire water contaminated must be contained and prevented from being discharged to any waterway, sewer or drain. |

### Hazardous decomposition products
Decomposition products may include the following materials:
- Carbon dioxide
- Carbon monoxide

### Special protective actions for fire-fighters
Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

### Special protective equipment for fire-fighters
Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### Further information
Do not allow run-off from firefighting to enter drains or water courses. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

## 6. Accidental Release Measures

### Personal precautions
Wear proper personal protective equipment (PPE). Avoid direct contact with material. Proper PPE includes: disposable gloves, eye protection and skin protection.

### Emergency procedures
If materials is spilled, avoid contact with material. Persons not wearing appropriate protective equipment should leave the area of the spill until cleanup is complete.

### Methods and materials for containment/cleanup
Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.

### Environmental precautions
Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.

## 7. Handling and Storage

### Precautions for safe handling
Avoid contact with skin and eyes. Emergency showers and eye wash stations should be readily accessible. Adhere to work practice rules established by government regulations. Use personal protective equipment. When using, do not eat, drink or smoke.
Precautions/Recommendations for safe/proper storage

Store epoxy products in temperature stable environment, out of the reach of pets or children. Securely fasten container lids and tops, and prevent products from sitting and below freezing temperatures.

8. Exposure Controls/Personal Protection

| Occupational Exposure Limits | None established. |
| Appropriate engineering controls | None established. |
| Environmental exposure controls | Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. |
| Individual protection measures/Personal protective equipment | Use appropriate containment to avoid environmental contamination. Do not allow spill to enter sewers or waterways. |
| Eye/face protection | Splash-proof goggles or safety spectacles with side shields are recommended. Always wear eye protection when sanding cured epoxy resins to avoid dust in eyes. |
| Hand protection | Always wear impervious gloves: butyl rubber, nitrile rubber, Neoprene, PVC disposable gloves, |
| Skin protection | Wear clean, body-covering clothing to avoid skin contact. |
| Respiratory protection | Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. |
| Special instructions for protection and hygiene | Wear gloves at all times when handling product, avoid direct contact with skin. When finished using product, dispose of gloves properly and wash hands with warm, soapy water. |

9. Physical and Chemical Properties

| Chemical family | Epoxy Resin |
| Appearance | White paste |
| Physical State | Epoxy polymer mixture |
| Form | Paste |
| Color | White |
| Odor | Mild |
| Density (Specific Gravity) | 12.18 lb/gal (1.46) |
| Viscosity | 140,000 – 150,000 CPS |
| pH | Not available |
| Melting point/freezing point | Not applicable |
| Initial boiling point and boiling range | Not applicable |
| Flash point | Not available |
| Evaporation rate | Slower than ether |
| Flammability (solid, gas) | Not applicable |
10. Stability and Reactivity

**Reactivity**
No specific test data related to reactivity available for this product.

**Chemical Stability**
Stable under normal conditions.

**Possibility of hazardous reactions**
Hazardous polymerization will not occur.

**Conditions to avoid**
Epoxy resins and epoxy resin hardeners react with each other producing heat. They should not be mixed with each other under uncontrolled conditions or in large mass as the ensuing exotherm may result in heat and smoke, resulting in hazardous decomposition products.

**Incompatible materials**
Strong oxidizing and reducing agents. Lewis and mineral acids.

**Hazardous decomposition products**
Oxides of carbon, aldehydes, and acids.

**Other hazards**
None known.

11. Toxicological Information

**Acute Health Hazard (components)**
No comprehensive data (ingestion, inhalation, dermal) on mixture (product).

### Specific target organ toxicity (repeated exposure)

No information on the product itself.

### Aspiration hazard

No information on the product itself.

### Potential acute health effects

**Eye Contact**

Causes serious eye irritation.

**Inhalation**

May cause respiratory irritation.

**Skin Contact**

Causes skin irritation. May cause an allergic skin reaction.

**Ingestion**

Irritating to mouth, throat and stomach.

### Symptoms related to the physical, chemical and toxicological characteristics

**Eye Contact**

Adverse symptoms may include the following:

- Pain
- Watering
- Redness

**Inhalation**

Adverse symptoms may include the following:

- Respiratory tract irritation
- Coughing

**Skin Contact**

Adverse symptoms may include the following:

- Irritation
- Redness

**Ingestion**

No specific data.

### Delayed and immediate effects and also chronic effects from short and long term exposure

### Potential chronic health effects

**General**

Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

**Carcinogenicity**

No known significant effects or critical hazards.

**Mutagenicity**

No known significant effects or critical hazards.

**Teratogenicity**

No known significant effects or critical hazards.

**Developmental effects**

No known significant effects or critical hazards.

**Fertility effects**

No known significant effects or critical hazards.

### Numerical measures of toxicity
Acute toxicity estimates (ATEmix) No specific data.

12. Ecological Information

Ecotoxicity No information on the product itself.

Mobility in Soil

Soil/water partition coefficient (KOC) No information on product itself.

Other adverse effects No known significant effects or critical hazards.

13. Disposal Considerations

Waste from residues/ unused products The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Product should not be allowed to enter drains, water courses or the soil; dispose of this material and its containers in a safe way. Contact supplier if guidance is required.

Contaminated packaging Dispose of container and unused contents in accordance with federal, state and local requirements.

14. Transport Information

The data provided in this section is for information only and may not be specific to your package size or mode of transport. You will need to apply the appropriate regulations to properly classify your shipment for transportation.
### Regulatory Information

#### DOT
- **Non-regulated**

#### TDG
- **Non-regulated**

#### IMO/IMDG
- **UN3082**
  - **Proper Shipping Name**: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (BISPHENOL-A EPICHLOROHYDRIN RESIN)
  - **Classes**: Class 9
  - **PG**: III

#### IATA
- **UN3082**
  - **Proper Shipping Name**: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (BISPHENOL-A EPICHLOROHYDRIN RESIN)
  - **Classes**: Class 9
  - **PG**: III

**Special precautions for user:**
- Transport within user’s premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

### 15. Regulatory Information

#### UNITED STATES

**U.S. Federal Regulations**
- **United States – TSCA 12(b) – Chemical export notification**: None Required.
- **United States – TSCA 5(a)2 – Final significant new use rules**: Not Listed.
- **United States – TSCA 5(a)2 – Proposed significant new use rules**: Not Listed.
- **United States – TSCA 5(e) – Substance consent order**: Not listed.

**Clean Air Act – Ozone Depleting Substances (ODS)**
- This product does not contain nor is it manufactured with ozone depleting substances.

**Clean Air Act Section 112(b) Hazardous Air Pollutants (HAPs)**
- None.

**Pennsylvania – RTK**
- None.

**California Prop. 65**
- **WARNING**: This product contains less than 0.1% of a chemical known to the State of California to cause cancer. **WARNING**: This product contains less than 1% of a chemical known to the State of California to cause birth defects or other reproductive harm.
