1. **Product Identification**

   **Product name**
   T-88 Adhesive Hardener, Part B

   **SDS Number**
   1100800

   **Product type**
   Polyamide Mixture

   **Recommended use of the chemical and restrictions on use**
   Directed at, but not limited to, the adhesion of similar and dissimilar substrates.

   **Restrictions**
   None known.

   **Manufacturer/Supplier information**
   
   **Company name**
   SYSTEM THREE RESINS, INC.

   **Address**
   3500 W. Valley Hwy, Suite 105
   Auburn, WA 98001-2436
   United States

   **Telephone**
   1-253-333-8118

   **Website**
   www.systemthree.com

   **Email**
   support-08@systemthree.com

   **Emergency Contact**
   CHEMTREC (U.S. and CANADA) 1-800-424-9300
   CHEMTREC (Outside the U.S.) 1-703-527-0585

2. **Hazard(s) Identification**

   **Classification of substance or mixture/Signal Word**
   DANGER
   Skin Corrosion/Irritation – Category 2
   Serious Eye Damage/Eye Irritation – Category 1
   Skin Sensitization – Category 1
   Toxic to Reproduction [Fertility, Unborn child] – Category 2
   Specific Target Organ Toxicity (Single Exposure) [eyes] – Category 1
   Specific Target Organ Toxicity (Single Exposure) [Respiratory tract irritation] – Category 3
   Specific Target Organ Toxicity (Repeated Exposure) [skin, respiratory tract, kidneys, liver] – Category 1
   Aquatic Hazard (Acute) – Category 1
   Aquatic Hazard (Long-term) – Category 1

   **GHS Label Elements**
   **Hazard Pictograms**

   **Hazard Statements/Classification of substance or mixture**
   
   H314 Causes severe skin burns and eye damage.
   H317 May cause an allergic skin reaction.
   H318 Causes serious eye damage.
   H335 May cause respiratory irritation.
   H361 Suspected of damaging fertility or the unborn child.
   H370 Causes damage to organs: (eyes)
Causes damage to organs through prolonged or repeated exposure:
(skin, respiratory tract, kidneys, liver)
H400 Very toxic to aquatic life.
H410 Very toxic to aquatic life with long lasting effects.

Precautionary statements

Precautionary Statements
Prevention

P201 Obtain special instructions before use.
P202 Do not handle until all safety precautions have been read and understood.
P260 Do not breathe vapor.
P261 Avoid breathing vapor.
P264 Wash hands thoroughly after handling.
P270 Do not eat, drink, or smoke when using this product.
P271 Use only outdoors or in well-ventilated area.
P272 Contaminated work clothing should not be allowed out of the workplace.
P273 Avoid release to the environment.
P280 Wear protective gloves. Wear eye or face protection.

Response

P301 + P330 + P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P308 + P313 IF exposed or concerned: Get medical advice/attention.
P310 Immediately call a POISON CENTER or physician.
P333 + P313 IF skin irritation or rash occurs: Get medical advice/attention.
P342 + P311 IF experiencing respiratory symptoms: Call a POISON Center or physician.
P362 + P354 Take off contaminated clothing and wash it before reuse.
P391 Collect spillage.

Storage

P403 + P233 Store in a well-ventilated place. Keep container tightly closed.
P405 Store locked up.

Disposal

P501 Dispose of contents and container in accordance with all local, regional, national and international regulations.

Hazards not otherwise classified (HNOC) None Available.

3. Composition/Information On Ingredients

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>CAS Number</th>
<th>Content (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Polyamide Polymer Mixture</td>
<td>Proprietary</td>
<td>70 – 80%</td>
</tr>
<tr>
<td>Nonyl Phenol</td>
<td>84852-15-3</td>
<td>10 – 15%</td>
</tr>
<tr>
<td>Tris-2,4,6-(dimethylaminomethyl)phenol</td>
<td>90-72-2</td>
<td>1 – 10%</td>
</tr>
<tr>
<td>Triethylenetetramine</td>
<td>112-24-3</td>
<td>1 – 10%</td>
</tr>
</tbody>
</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

4. First-Aid Measures

Skin contact

Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical
If necessary, call a poison center or physician. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse.

**Eye contact**
Flush with water for 15 minutes holding eye lids open. Check for and remove any contact lenses. Get medical attention. If necessary, call a poison center or physician.

**Ingestion**
Wash mouth out with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person in conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. If necessary, call a poison center or physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as collar, tie, belt, or waistband.

**Inhalation**
Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing. Get medical attention.

**Indication of immediate medical attention and special treatment needed, if necessary**

**Notes to physician**
In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

**Specific treatments**
Treat symptoms as they appear.

### 5. Fire-Fighting Measures

<table>
<thead>
<tr>

</tbody>
</table>

### 6. Accidental Release Measures

<table>
<thead>
<tr>
<th>Personal precautions</th>
<th>Wear proper personal protective equipment (PPE). Avoid direct contact with material. Proper PPE includes: disposable gloves, eye protection and skin protection.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Emergency procedures</td>
<td>If material is spilled, avoid contact with material. Persons not wearing appropriate protective equipment should leave the area of the spill until cleanup is complete.</td>
</tr>
</tbody>
</table>
Methods and materials for containment/cleanup

Stop spill at source, dike area to prevent spreading, pump liquid to salvage tank or drum. Remaining liquid may be taken up on clay, diatomaceous earth, sawdust or other absorbent, and shoveled into disposal container.

Environmental precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

7. Handling and Storage

Precautions for safe handling

Always wear protective, disposable gloves when handling epoxy hardeners to prevent exposure. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate.

Precautions/Recommendations for safe/proper storage

Store epoxy hardeners in temperature stable environment, out of the reach of pets or children. Securely fasten container lids and tops, and prevent products from sitting and below freezing temperatures.

8. Exposure Controls/Personal Protection

Occupational Exposure Limits

None established.

Appropriate engineering controls

If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Environmental exposure controls

Use appropriate containment to avoid environmental contamination. Do not allow spill to enter sewers or waterways.

Individual protection measures/Personal protective equipment

Eye/face protection

Splash proof goggles or safety glasses with side shields are recommended. Always wear eye protection when sanding cured epoxy to avoid dust in eyes.

Hand protection

Always wear impervious gloves, neoprene, vinyl or rubber.

Skin protection

Wear clean, body-covering clothing to avoid skin contact.

Respiratory protection

Use a NIOSH-approved respiratory device when sanding cured epoxy to prevent dust in lungs.

Special instructions for protection and hygiene

Wear gloves at all times when handling product, avoid direct contact with skin. When finished using product, dispose of gloves properly and wash hands with warm, soapy water.

10. Stability and Reactivity

Reactivity
Stable under normal conditions.
Chemical Stability
Stable.
Possibility of hazardous reactions
Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid
Epoxy resins and epoxy resin hardeners react with each other producing heat. They should not be mixed with each other under uncontrolled conditions or in a large mass as the ensuing exothermic reaction may produce heat, smoke and hazardous decomposition products.
Incompatible materials
Organic and mineral acids. Reactive metals (e.g. sodium, calcium, zinc, etc). Product slowly corrodes copper, aluminum, zinc and galvanized surfaces. Materials reactive with hydroxyl compounds. Oxidizing agents, amines, bases and reducing agents. Nitric acid and other nitrosating agents.
CAUTION! N-nitrosamines, many of which are known to be potent carcinogens, may be formed when the product comes in contact with nitrous acid, nitrites or atmospheres with high nitrous oxide concentrations.
Hazardous decomposition products
Organic acid vapors, nitric acid, ammonia, nitrogen and carbon oxides, nitrosamine and aldehydes. Nitrogen oxide can react with water vapors to form corrosive nitric acid.
Other hazards
None known.

11. Toxicological Information

Acute Health Hazard (components)
No comprehensive data (ingestion, inhalation, dermal) on mixture (product).

**Aspiration hazard**

No information on product itself.

**Potential acute health effects**

**Eye Contact**
Causes serious eye damage.

**Inhalation**
May cause respiratory irritation. May cause allergic skin reaction. Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

**Skin Contact**
Causes severe burns. May cause an allergic skin reaction.

**Ingestion**
Irritating to mouth, throat and stomach.

**Symptoms related to the physical, chemical and toxicological characteristics**

**Eye Contact**
Adverse symptoms may include the following:
- Pain
- Watering
- Redness

**Inhalation**
Adverse symptoms may include the following:
Respiratory tract irritation
Reduced fetal weight
Increase in fetal deaths
Skeletal malformations

**Skin Contact**

Adverse symptoms may include the following:
- Pain or irritation
- Redness
- Blistering may occur
- Reduced fetal weight
- Increase in fetal deaths
- Skeletal malformations

**Ingestion**

Adverse symptoms may include the following:
- Stomach pains
- Reduced fetal weight
- Increase in fetal deaths
- Skeletal malformations

**Delayed and immediate effects and also chronic effects from short and long term exposure**

**Potential chronic health effects**

**General**

Causes damage to organs through prolonged or repeated exposure: Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

**Carcinogenicity**

No known significant effects or critical hazards.

**Mutagenicity**

No known significant effects or critical hazards.

**Teratogenicity**

Suspected of damaging the unborn child.

**Developmental effects**

No known significant effects or critical hazards.

**Fertility effects**

Suspected of damaging fertility.

- Other adverse effects: No known significant effects or critical hazards.

13. Disposal Considerations

Waste from residues/ unused products: The generation of waste should be avoided or minimized wherever possible. Product should not be allowed to enter drains, water courses or the soil; dispose of this material and its containers in a safe way. Contact supplier if guidance is required.

Contaminated packaging: Dispose of container and unused contents in accordance with federal, state and local requirements.

14. Transport Information

The data provided in this section is for information only and may not be specific to your package size or mode of transport. You will need to apply the appropriate regulations to properly classify your shipment for transportation.
