1. Product Identification

**Product name**
T-88 Adhesive Hardener, Part B

**SDS Number**
1100800

**Product type**
Polyamide Mixture

**Recommended use of the chemical and restrictions on use**
Directed at, but not limited to, the adhesion of similar and dissimilar substrates.

**Restrictions**
None known.

**Manufacturer/Supplier information**

- **Company name**
  SYSTEM THREE RESINS, INC.

- **Address**
  8517 Commerce Place Dr NE
  Lacey, WA 98516
  United States

- **Telephone**
  1-253-333-8118

- **Website**
  www.systemthree.com

- **Email**
  support@systemthree.com

- **Emergency Contact**
  CHEMTREC (U.S. and CANADA) 1-800-424-9300
  CHEMTREC (Outside the U.S.) 1-703-527-0585

2. Hazard(s) Identification

**Classification of substance or mixture/Signal Word**
- DANGER
  Skin Corrosion/Irritation – Category 2
  Serious Eye Damage/Eye Irritation – Category 1
  Skin Sensitization – Category 1
  Toxic to Reproduction [Fertility, Unborn child] – Category 2
  Specific Target Organ Toxicity (Single Exposure) [eyes] – Category 1
  Specific Target Organ Toxicity (Single Exposure) [Respiratory tract irritation] – Category 3
  Specific Target Organ Toxicity (Repeated Exposure) [skin, respiratory tract, kidneys, liver] – Category 1
  Aquatic Hazard (Acute) – Category 1
  Aquatic Hazard (Long-term) – Category 1

**GHS Label Elements**

**Hazard Pictograms**

- ![](image)
- ![](image)
- ![](image)
- ![](image)

**Hazard Statements/Classification of substance or mixture**

- **H314**
  Causes severe skin burns and eye damage.

- **H317**
  May cause an allergic skin reaction.

- **H318**
  Causes serious eye damage.

- **H335**
  May cause respiratory irritation.

- **H361**
  Suspected of damaging fertility or the unborn child.

- **H370**
  Causes damage to organs: (eyes)
H372  Causes damage to organs through prolonged or repeated exposure: (skin, respiratory tract, kidneys, liver)
H400  Very toxic to aquatic life.
H410  Very toxic to aquatic life with long lasting effects.

Precautionary statements

Precautionary Statements
Prevention
P201  Obtain special instructions before use.
P202  Do not handle until all safety precautions have been read and understood.
P260  Do not breathe vapor.
P261  Avoid breathing vapor.
P264  Wash hands thoroughly after handling.
P270  Do not eat, drink, or smoke when using this product.
P271  Use only outdoors or in well-ventilated area.
P272  Contaminated work clothing should not be allowed out of the workplace.
P273  Avoid release to the environment.
P280  Wear protective gloves. Wear eye or face protection.

Response
P301 + P330 + P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P308 + P313 IF exposed or concerned: Get medical advice/attention.
P310  Immediately call a POISON CENTER or physician.
P333 + P313 If skin irritation or rash occurs: Get medical advice/attention.
P342 + P311 If experiencing respiratory symptoms: Call a POISON Center or physician.
P362 + P354 Take off contaminated clothing and wash it before reuse.
P391  Collect spillage.

Storage
P403 + P233 Store in a well-ventilated place. Keep container tightly closed.
P405  Store locked up.

Disposal
P501  Dispose of contents and container in accordance with all local, regional, national and international regulations.

Hazards not otherwise classified (HNOC)  None Available.

3. Composition/Information On Ingredients

<table>
<thead>
<tr>

</tbody>
</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

4. First-Aid Measures

Skin contact  Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical
5. Fire-Fighting Measures

**Suitable extinguishing media**
Alcohol resistant foam, carbon dioxide, dry chemical, dry sand, limestone powder.

**Unsuitable extinguishing media**
None known.

**Specific hazards arising from the chemical**
In a fire or if heated, a pressure increase will occur and the container may burst. Ammonia gas may be liberated at high temperatures. In case of incomplete combustion an increased formation of oxides of nitrogen (NOx) is to be expected.

**Hazardous decomposition products**
Carbon oxides, nitrogen oxides.

**Special protective actions for fire-fighters**
Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters**
Use personal protective equipment. Wear self-contained breathing apparatus.

**Further information**
None known.

6. Accidental Release Measures

**Personal precautions**
Wear proper personal protective equipment (PPE). Avoid direct contact with material. Proper PPE includes: disposable gloves, eye protection and skin protection.

**Emergency procedures**
If material is spilled, avoid contact with material. Persons not wearing appropriate protective equipment should leave the area of the spill until cleanup is complete.
Methods and materials for containment/cleanup
Stop spill at source, dike area to prevent spreading, pump liquid to salvage tank or drum. Remaining liquid may be taken up on clay, diatomaceous earth, sawdust or other absorbent, and shoveled into disposal container.

Environmental precautions
Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

7. Handling and Storage

Precautions for safe handling
Always wear protective, disposable gloves when handling epoxy hardeners to prevent exposure. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate.

Precautions/Recommendations for safe/proper storage
Store epoxy hardeners in temperature stable environment, out of the reach of pets or children. Securely fasten container lids and tops, and prevent products from sitting and below freezing temperatures.

8. Exposure Controls/Personal Protection

Occupational Exposure Limits
None established.

Appropriate engineering controls
If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Environmental exposure controls
Use appropriate containment to avoid environmental contamination. Do not allow spill to enter sewers or waterways.

Individual protection measures/Personal protective equipment

Eye/face protection
Splash proof goggles or safety glasses with side shields are recommended. Always wear eye protection when sanding cured epoxy to avoid dust in eyes.

Hand protection
Always wear impervious gloves, neoprene, vinyl or rubber.

Skin protection
Wear clean, body-covering clothing to avoid skin contact.

Respiratory protection
Use a NIOSH-approved respiratory device when sanding cured epoxy to prevent dust in lungs.

Special instructions for protection and hygiene
Wear gloves at all times when handling product, avoid direct contact with skin. When finished using product, dispose of gloves properly and wash hands with warm, soapy water.

9. Physical and Chemical Properties

Chemical family
Polyamide

Appearance
Amber colored liquid

Physical State

Form
Liquid

Color
Amber

Odor
Mild ammonia

Density (Specific Gravity)
0.95 – 0.97
Viscosity 25,000 – 30,000 CPS @77°F
pH Not available
Melting point/freezing point Not available
Initial boiling point and boiling range Not applicable
Flash point Not available
Evaporation rate Slower than ether
Flammability (solid, gas) Not available
Upper/lower flammability limit (by volume) Not available
  Upper flammability limit (by volume) Not available
  Lower flammability limit (by volume) Not available
Material VOC None
Vapor density Heavier than air
Relative density Not available
Solubility in water Negligible, in water
Partition coefficient: n-octanol/water Not available
Auto-ignition temperature Not available
Decomposition temperature Not available

10. Stability and Reactivity

Reactivity Stable under normal conditions.
Chemical Stability Stable.
Possibility of hazardous reactions Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid Epoxy resins and epoxy resin hardeners react with each other producing heat. They should not be mixed with each other under uncontrolled conditions or in a large mass as the ensuing exothermic reaction may produce heat, smoke and hazardous decomposition products.
Incompatible materials Organic and mineral acids. Reactive metals (e.g. sodium, calcium, zinc, etc). Product slowly corrodes copper, aluminum, zinc and galvanized surfaces. Materials reactive with hydroxyl compounds. Oxidizing agents, amines, bases and reducing agents. Nitric acid and other nitrosating agents.
CAUTION! N-nitrosamines, many of which are known to be potent carcinogens, may be formed when the product comes in contact with nitrous acid, nitrites or atmospheres with high nitrous oxide concentrations.
Hazardous decomposition products Organic acid vapors, nitric acid, ammonia, nitrogen and carbon oxides, nitrosamine and aldehydes. Nitrogen oxide can react with water vapors to form corrosive nitric acid.
Other hazards None known.

11. Toxicological Information

Acute Health Hazard (components) No comprehensive data (ingestion, inhalation, dermal) on mixture (product).

**Aspiration hazard**

No information on product itself.

**Potential acute health effects**

**Eye Contact**

Causes serious eye damage.

**Inhalation**

May cause respiratory irritation. May cause allergic skin reaction. Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

**Skin Contact**

Causes severe burns. May cause an allergic skin reaction.

**Ingestion**

Irritating to mouth, throat and stomach.

**Symptoms related to the physical, chemical and toxicological characteristics**

**Eye Contact**

Adverse symptoms may include the following:

- Pain
- Watering
- Redness

**Inhalation**

Adverse symptoms may include the following:
Respiratory tract irritation
Reduced fetal weight
Increase in fetal deaths
Skeletal malformations

Skin Contact
Adverse symptoms may include the following:
Pain or irritation
Redness
Blistering may occur
Reduced fetal weight
Increase in fetal deaths
Skeletal malformations

Ingestion
Adverse symptoms may include the following:
Stomach pains
Reduced fetal weight
Increase in fetal deaths
Skeletal malformations

Delayed and immediate effects and also chronic effects from short and long term exposure

Potential chronic health effects

General
Causes damage to organs through prolonged or repeated exposure: Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

Carcinogenicity
No known significant effects or critical hazards.

Mutagenicity
No known significant effects or critical hazards.

Teratogenicity
Suspected of damaging the unborn child.

Developmental effects
No known significant effects or critical hazards.

Fertility effects
Suspected of damaging fertility.

### Mobility in Soil

- **Soil/water partition coefficient (KOC)**: No information on product itself.
- **Other adverse effects**: No known significant effects or critical hazards.

### 13. Disposal Considerations

- **Waste from residues/ unused products**: The generation of waste should be avoided or minimized wherever possible. Product should not be allowed to enter drains, water courses or the soil; dispose of this material and its containers in a safe way. Contact supplier if guidance is required.

- **Contaminated packaging**: Dispose of container and unused contents in accordance with federal, state and local requirements.

### 14. Transport Information

The data provided in this section is for information only and may not be specific to your package size or mode of transport. You will need to apply the appropriate regulations to properly classify your shipment for transportation.
