TRUSTED SUPPLIER

FOR MORE THAN 15 YRS

Having been involved in the fragrance industry for 12 years, first through retail and then importing some of the USA's finest brands, I decided to create my own range of scented candles and home fragrance diffusers.

This brought with it the freedom to select fragrances that I knew Australians would enjoy and also to ensure that I knew how we made them and what we used to create them.

After exploring and testing a range of different waxes, I decided on keeping our products as natural as possible and this started with the wax selection. My choice is to use a wax that is a majority blend of natural soy wax and natural coconut wax. The wax used in all of our tin and glass jars are vegan and not tested on animals. We do not use Palm wax in any of our products.

We continue to test all the time on the quest for continual improvement. Like everything else in this fast paced world, products are continually improved and the natural wax today is a wonderful product with great fragrance performance.

Overall, I just hope you enjoy. This is what fragrance should do for you. Refresh happy memories, put you back in places that you hadn't thought about for a while, family, friends, experiences, that certain spot in the world.

Indulge your senses

OUR BLEND

NATURAL SOY COCONUT WAX CANDLES

All Cloud Nine candles are made with a natural soy wax and coconut wax blend that provides an unbelievably clean burn. This wax is completely vegan, contains no animal products and is not tested on animals. There is no added palm wax.

The wicks are lead free cotton wicks.

Small 100g

3 Wick 400g
