

betterair Pet Spray

Probiotics Protecting Your Animals' Environment
Our patented Enviro-Biotics® technology harnesses the power of probiotics to create an ecologically balanced environment that significantly impacts animal health.

This ground-breaking solution not only impact animal bodies, but also the air they breath and the environment they live in.

Continuous usage of betterair PET spray balances your pet's microbial environment and helps reduce:

- Pet Odor
- Irritants that trigger allergy

The PET Spray contains 250 ml
