

FARER

ENDEAVOUR

MODEL

AQUA COMPRESSOR AUTOMATIC

COMPLICATION

ETA 2824-2 NON-DATE ELABORÉ

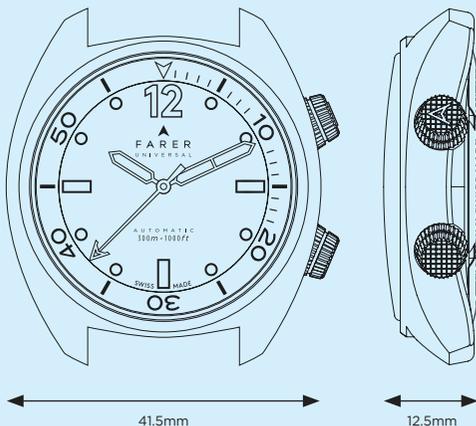

MOVEMENT

Designed for function. The light-absorbing matte black dial is punctuated with engineered polished steel markers, infilled with off-white Super-LumiNova for maximum afterglow and a flawless finish quality. A bolder take on the classic Farer syringe hands, Farer oversized dive hands in polished steel are infilled with mint green Super-LumiNova, with a prominent split minute hand marking for quick identification of dive time.

The outer unidirectional bezel is finished in silk matte black with overprinted white numerals in five-minute markings and zero arrow, with a 20-minute detailed scale for decompression times highlighted in burnt orange. The Leven combines functional design with bold use of colour to give the watch a practical elegance.
