

FARER

HUDSON

MODEL

HAND-WOUND MANUAL

COMPLICATION

ETA 7001 'TOP GRADE'

MOVEMENT

The Hudson's sunray sea-blue triple stepped dial, that changes with the light, from day to night. Sitting on top of the dial are baton Super-LumiNova mint hour markers outlined at 45 degrees in pure white. The outer track curves down away from the main dial with a patterned track and signal red markers to draw your eye to the very edge of the dial.

The inner sub-dial is set into the main dial in deep sea blue. The outer white and scarlet red sub-dial markings are combined with a line of amber orange on the second hand, creating a 'second look' colour pop to the dial. The 37mm collection have all been designed with slim rounded index hands finished in polished silver steel and inset with Super-LumiNova strips on both hour and minute hands.
