sts[®] INKS

Color is in Our DNA

LATEX INKS

STS latex inks are designed to be extremely flexible, and offer a high level of versatility for the user while delivering outstanding image quality, consistency, and durability.

Our inks have the ability to perform well in indoor spaces and are odorless, making them the perfect solution for those environments.

All of our products are especially designed to provide a virtual match in color and quality to the original OEM ink while additionally providing a significant cost savings to the consumer.

With the Industry's strongest third-party warranty, you'll take comfort knowing that STS stands behind every drop of ink it supplies.

STS Latex inks benefits

- ✓ OEM Quality & Performance
- ✓ Mix & Match and Plug & Print
- ✓ No Flushing Required
- ✓ Color that Matches OEM Profiles
- ✓ 100% compatibility with original printer components
- ✓ Environmentally friendly ink for healthier printing
- ✓ Excellent adhesion and compatibility for a wide range of coated and uncoated substrates
- ✓ Wide color gamut & clean intense colors
Smooth tonal gradations
- ✓ Smudge, Scratch and Water resistant
