The **CMC Rescue Water Rescue Tether** was designed for "live bait" water rescue operations. An internal bungee cord helps manage the tether.

USER INFORMATION

CMC Rescue recommends separating the User Information from the equipment and retaining the information in a permanent record. CMC also recommends making a copy of the information to keep with the equipment and that the information should be referred to before and after each use.

INSPECTION

Inspect the equipment according to your department's policy for inspecting life safety equipment. The equipment should be inspected after each use and at least once a year by an inspector that meets your department's training standard for inspection of life safety equipment. Record the date of the inspection and the results in the equipment log or on a tag that attaches to the equipment. Each user should be trained in equipment inspection and should do a cursory inspection, and check component compatibility before each use.

When inspecting the equipment, check the webbing for cuts, worn or frayed areas, broken fibers, soft or hard spots, discoloration or melted fibers. Check the stitching for pulled threads, abrasion or breaks. Check the hardware for damage, sharp edges or improper operation. If any of the above are noted, or if the equipment has been subjected to shock loads, fall loads or abuse other than normal use, remove the equipment from service and destroy it. If there

WARNING

- **SERIOUS INJURY OR DEATH MAY RESULT FROM THE IMPROPER USE OF THIS EQUIPMENT.**
- **THIS EQUIPMENT HAS BEEN DESIGNED AND MANUFACTURED FOR USE BY EXPERIENCED PROFESSIONALS ONLY.**
- **DO NOT ATTEMPT TO USE THIS EQUIPMENT WITHOUT PRIOR TRAINING.**
- **USE, INSPECT, AND REPAIR ONLY IN ACCORDANCE WITH MANUFACTURER'S INSTRUCTIONS.**

is any doubt about the serviceability of the equipment, remove it from service and destroy it.

USE

Attach the tether to the live bait belt of your PFD using the steel O-ring. Use the double-locking connector to attach the other end to an appropriate anchor point or line.

CARRYING, MAINTENANCE & STORAGE

During use, carrying, and storage keep the equipment away from acids, alkalis, exhaust emissions, rust and strong chemicals. Do not expose the equipment to flame or high temperatures. Carry the equipment where it will be protected as it could melt or burn and fail if exposed to flame or high temperatures.

If the equipment becomes soiled it can be washed in cold water with a mild detergent. CMC Rescue recommends the use of LifeLine Cleaner. Dry out of direct sunlight. Do not dry in an automatic dryer. Store in a cool, dry location.

REPAIR

All repair work shall be performed by the manufacturer. All other work or modifications may void the warranty and shall release CMC Rescue, Inc. from all liability and responsibility as the manufacturer.
