

Doing Great™ men's health formula takes the place of 22 capsules per day. Saving you over \$135 per month.

Why does Doing Great™ cost so much?

We're often asked about the cost of the Doing Great™ enhancement for men. Many customers are surprised to hear that, when compared to buying each ingredient separately, the Doing Great™ product is **dramatically less expensive**. The point is to enhance all facets of men's health - not just one or two. Doing Great™ provides a blend of 11 trusted herbs and nutrients.*

It's also much more convenient and enjoyable. Taking all those supplements separately would mean popping almost two dozen herbal capsules each day. That's ridiculous! The nutrients in Doing Great™ are packaged as a piña colada beverage powder, which is easier to take regularly, refreshing, and absorbs into your system better too.

A one-month supply of Doing Great™ costs \$49.90. That's a potential savings of \$137.73 per month! Three daily servings of Doing Great™ (1 packet per serving) can take the place of 22 or more capsules.

Supplement Category**	Cost per Month	Daily
L-citrulline	\$10.00	1
Aspartic acid	\$14.85	2
Ashwagandha root	\$11.33	2
