

DESCRIPTION AND USES

Port City Brightwork Spar Varnish is a premium quality exterior clear varnish that resists the harmful effects of sun and weather. Our formula combines natural oils, tough plastic resins, and UV light resistors to provide maximum protection from the elements. It is an ideal choice for boats, spars, oars and trim. It is also suitable for use on wood doors, patio furniture, picnic tables, and exterior woodwork.

SPECIFICATIONS

SURFACE PREPARATION: All surfaces to be coated must be dry and clean.

New Wood: Sand smooth with 120 grit or 150 grit sandpaper. Remove sanding dust. Apply at least two coats, sanding with 180 grit or 220 grit sandpaper between coats. If wood has been stained, allow at least 16 hours for the stain to dry before finishing.

Previously Finished Surfaces: Remove all wax, grease, and dirt. Sand the surface thoroughly with 150 grit sandpaper. Use a tack cloth to remove sanding dust before finishing.

Application: Stir well. Apply with a quality natural bristle brush. Allow 24 hours to dry between coats, longer if temperatures are below 65°F. Do not thin this product.

Cleanup: Clean tools and equipment immediately with Paint Thinner (Mineral Spirits).
