

Care & Installation Instructions

Ring Bowl & Base – Round – 78cm & 100cm

Ring Bowl & Base – Square – 78cm & 100cm

Pieces Supplied

- 1 x ring
- 3 x legs (round or square)
- 6 x bolts
- 6 x nuts
- 6 x spring washers

Tools Required

- 1 x shifting spanner and 1 x Size 13mm Spanner or
- 2 x 13mm Spanners

Installation Process

- Square legs - Place the legs on a flat surface and the round ring on top. Ensure the legs sit level on the ground and the tabs on the ring are flush with the legs.
- Round legs - Place ring upside down and match holes of the legs with the holes on the ring tabs
- Place the bolts through one side and the spring washer and nut on the other.
- Tighten the nut and bolt using the spanners. Make sure the bolts are tight.
- Check that the legs cannot be moved and are level and secure

Care & Operation Guide

- Never lift or move the fire pit once the fire is lit
- Ensure bases are always securely fastened and cannot be moved, check periodically that all nuts and bolts are attached securely, tighten if needed.
- Always clean out your fire pit, the ash mixed with water can cause the cast iron to stain and add to rapid deterioration of the metal
- Use a product called Penetrol (oil-based sealant available from local hardware stores) to slow down the rusting process on the welds, nuts, bolts
- Never leave a lit fire unattended
- Ensure fire pit is properly extinguished at the end of use
