The Winter Bag/Summer Cover is designed to custom-fit our outdoor products and effortlessly protect your product with simple adaptation of installation as you transition from Summer to Winter.

The cover includes weatherproof zips and seams in addition to hardy thick waterproof material that is highly resistant to mould, tearing and fading, keeping your product safe from the elements all year round. You do not need to remove the glass fire screen before covering.

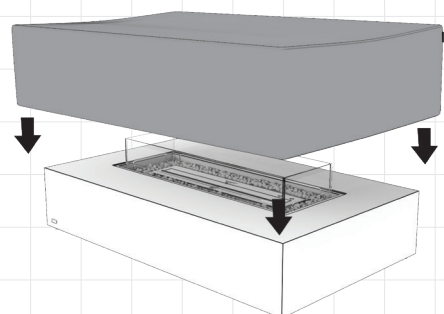

## Converting the WINTER BAG into the SUMMER COVER

1. Remove Part A

2. Flip Part B

3. Place Part B over unit
