

Urth's sunken flame sits below the lip of the firebowl and is cradled by a built-in shelf which also serves to support the included glass charcoal. At (33.5") in diameter, Urth is light enough to be easily repositioned as needed. For ultimate flexibility, residential and commercial users alike gravitate towards our bioethanol or propane fuel options because neither require hard utility connections. This makes them incredibly simple to relocate as needed.

URTH

DIMENSIONS

MATERIALS
