

LiiPUTI®
Babywearing collection

About Liliputi®

We have deeply committed to babywearing. Being close to the parental body provides the growing child with the feeling of safety, it strengthens the relationship, and supports physical and mental health in all kinds of everyday situations. We strongly believe that with our products, we have the chance to contribute to the development of a healthier generation which is more open to human relations and to the love and respect of life.

High quality from the heart of Europe

Each of our products is made in our small manufactory situated in the middle of Europe, in one of the most beautiful national parks in Hungary. All the carriers, coats, bags and accessories are made according our own designs or with the involvement of talented European designers, using raw materials of highest quality and most certified organic textiles. We aspire to reach perfection in every aspect and use handwork whenever possible. This guarantees that we comply with all EU standards at the highest level, moreover we preferably overfulfil, improving both the yield and environment protection.

Soft Baby Carriers

...are made of high quality organic cotton fabrics free of harmful substances. They are ergonomic and cleanly designed. Due to the optimal weight distribution, you can wear your baby with this carrier comfortably for a long time even for long excursions.

For back, front and hip carry

The Soft Baby Carrier is recommended from birth, with the special infant insert for front carry and it is suitable without upper age/weight limit for back carry from the age of 6 months. A removable sleeping hood supports the head of the baby while sleeping. With the help of a buckle you can put the carrier on and take it off quickly, while adjustable straps allow you to fit it your shape. If you do not need it, you can just fold it to a small size, it weighs less than half a kilo.

Orthopedically recommended

Unlike most commercial carriers which focus the baby's weight onto a small and very sensitive part of the body, in a Liliputti® Soft Baby Carrier the baby sits on his whole bottom which is more comfortable, safer and much healthier. What is more, the wide straddle position provides a gentle and optimal prevention or even cure for hip dysplasia.

Mei-Tai Baby Carriers

Mei Tais are traditional baby carriers that originate in Asia. The modern Mei-Tais, however, have been adapted to our days and were transformed to satisfy the requirements of our Western lifestyle.

The body part is modeled to fit the baby's shape. Our Mei-Tais are made of organic cotton of various colours and patterns so that you may find the one that best fits your style. Due to their padded straps, Mei-Tais remain comfortable even for longer use. We would say that Mei-Tais are somewhere between baby wraps and ergonomic soft baby carriers. It is easier to tie a Mei-Tai than a wrap, but you still have the feeling of carrying your child in a traditional way which is a common demand for baby carriers.

This carrier allows you to wear your baby in front and back carry positions. You can learn for the first time how to tie it, and not much practice is needed to wear your baby confidently and freely.

We recommend Mei-Tais from the age of 3-4 months, since from this time it is comfortable and safe both for the carrier and the baby. There is no really upper age/weight limit, as long as the child needs to be carried, Mei-Tai is a comfortable solution for everyone.

Stretchy Wrap Baby Carriers

For small and newborn babies the most comfortable carrier is obviously the stretchy wrap. The wrap creates similar conditions to those the baby was used to in Mum's belly for 9 months. It supports the baby softly, flexibly and safely.

The stretchy wrap provides an optimal distribution of weight since it weighs equally on the back, on the shoulders and on the hips. It is highly comfortable both for the baby and the mummy.

Liliputti® Stretchy Wrap is extremely versatile and fits perfectly to any body type. No matter if you are short or tall, broad or narrow shouldered, you can find equally comfortable ways of tying the wrap. In the family both Mummy and Daddy can wear it, this is the best solution for everyone. The tapered ends of the wrap make it easy to tie and afford an extra comfort due to the lack of redundant fabric. The fabric of the wrap is 100% safe, Öko-tex certified)

The wrap is 5 meters long so it is easy to tie either in case of back, front or hip carry. Due to the attached detailed guide on the tying methods, it takes no time to get familiar with the carrier.

Ring Sling Baby Carriers

The Liliputi® Ring Sling is the most practical accessory for the everyday and elegant to wear even on any event. We recommend this carrier for shorter trips and for travelling when quick and easy use is important. One of its greatest advantages is that it is not necessary to unfasten the carrier to handle or to take your baby out.

This Ring Sling is suitable for front and hip carry. This way the baby will love watching the World with you. The sling is your best friend while breastfeeding...

The Liliputi® sling's orthopedical design provides your baby with perfect position for ideal development of back, hip and knees and it is also a great comfort for the baby.

Its resistant but light materials will provide you with safety and comfort at the same time. We used GOTS certified organic cotton for this carrier as well, in order to provide maximum safety for your little one, and also due to environmental responsibility.

This carrier can be used from 3.5 kg up to 15 kg.

Mama Coat

WATERPROOF

15000 mm PDZ

WINDPROOF

BREATHABLE

3000 g/m²/24hrs

MULTI LAYERED

Liliputi® Mama Coat is a 3 in 1 SoftShell babywearing and maternity coat. You can wear it with a baby carrier during front or back carry, with a maternity inlay while you are pregnant or you can wear it just like any other coat. In any case it is comfy, practical and looks very very pretty. Our coats, designed by a renowned Hungarian designer, form one collection with our carriers, bags and other accessories, but may you combine them with any other carrier, you can be sure that the success will come...

As always, we used the highest quality materials available for all parts of the coat. The exterior is a waterproof windproof and breathing SoftShell fabric, the lining is warm and breathing micro-fleece.

The coat is openable along the sides for easier dressing, there is detachable hood for mum and also a separate hood and neck-warmer available for the baby. Lockable pockets, retractable baby leg space and, many other innovative ideas we mixed into this coat, that makes babywearing fun, even in the cold days.

There are 4+4 original designs in harmony with the other pieces of the Liliputi® Rainbow Collection.

Babywearing Accessories

Complete your baby carrier with one of the following Liliputi® babywearing accessories, matching your favorite baby carrier...

Liliputi® Mama Bag & Mama Pocket Belt

Our 3 in 1 function (shoulder bag, side bag and backpack) Mama Bags and the stylish Mama Pocket Belts are optimal accessories for babywearing, designed by renowned designer. Both type of bags are equipped with numerous features for satisfying mothers needs.

Liliputi® Baby Changing Pad

Baby changing on your way, is not always easy. But with this mobile changing pad, your task will be real fun :) Everything that you need while changing your little one will find a place in its numerous pockets. Above all, it perfectly fits the Mama Bag.

The Liliputi® Babywearing Booties

...keep the tiny feet warm while they rest in the baby carrer, thanks to their waterproof, windproof and breathing SoftShell outer fabric and Micro-polar lining, which enables them to cope with even extreme weather conditions...
