**Product Awards 2016**

Happy New Year! THE DENTAL ADVISOR awards are one of the most respected awards created to recognize quality products and equipment, taking into account evidence-based clinical and laboratory research to honor the best.

To be considered for an award, products have to receive an excellent rating by THE DENTAL ADVISOR, as well as stand out from all others in the market place. With hundreds of products to review each year, the task to pick the best of the best is not simple. Our editorial board spends weeks debating, discussing, and voting on products that fit our criteria for innovation, quality and excellence in each category. In the end, only one product is chosen for the Top Product Award, and the runner up is awarded the Preferred Product Award.

I extend my congratulations to our winners, and many thanks to our editorial board and our 250 practicing clinical consultants in the United States. Tried and true products, as well as newer products, are found on this list that acts as a buyer’s guide for dental professionals worldwide. Thank you for your continued support, and as always, your comments and suggestions are always welcomed; you can reach me at drbunek@dentaladvisor.com.

2016 PRODUCT AWARD WINNERS

Direct Restoratives

SECTIONAL MATRIX

**Composi-Tight 3D XR Sectional Matrix System**

Why we chose this product:
• “Blue rings are retentive and stable on teeth.”
• “I thought the original 3D was a good product, but the new blue face is even better.”
• “Great contours and contacts.”

BONDING AGENT: 5TH GENERATION

**iBond Total Etch**

Why we chose this product:
• “Good surface wettability – only one application needed.”
• “No need to refrigerate.”
• “No post-operative sensitivity.”

ANTERIOR MATRIX

**Bioclear Anterior Matrix**

Why we chose this product:
• “Superior to flat Mylar strips.”
• “A great clinical solution for Class III composites and diastema closure.”
• “The Bioclear system enabled me to create contours with composite that I was not able to with traditional Mylar strips.”

BONDING AGENT: UNIVERSAL

**3M Scotchbond Universal Adhesive**

Why we chose this product:
• “So many different uses in one bottle.”
• “Now I can keep just one adhesive in the office for every procedure.”
• “Simplifies bonding procedures.”

TOFFLEMIRE TYPE MATRIX BAND

**Pink Band**

Why we chose this product:
• “Does not stick to composite.”
• “Improved moisture control.”
• “Thin, flexible band that does not collapse during placement.”

PULPAL PROTECTANT

**Theracal LC**

Why we chose this product:
• “No mixing required and it’s a one-step application.”
• “It was not as messy as other liners and it’s simple.”
• “Light-cure feature is a great advantage.”

Vol. 33, No. 01 Jan/Feb 2016
2016 PRODUCT AWARD WINNERS

Direct Restoratives

COMPOSITE: LOW-FILLED FLOWABLE

Why we chose this product:
• “The final restoration has a great polish.”
• “Very good radiopacity.”
• “The material is easy to place and polish, and patients have not reported any sensitivity.”

COMPOSITE: UNIVERSAL

Why we chose this product:
• “The excellent handling, rapid cure and esthetics continue to make this my material of choice.”
• “Looks great after 5 years, and I am sure it will last much longer.”
• “Blends exceptionally well with surrounding tooth structure.”

COMPOSITE: UNIVERSAL: MULTILAYER

Why we chose this product:
• “The enamel shades give good depth for most anterior multi-layer/shade restorations.”
• “Composite stays where placed and is easy to sculpt.”
• “Good color match and very nice surface finish.”

COMPOSITE: ESTHETIC

Why we chose this product:
• “Good consistency and esthetic results.”
• “Very radiopaque.”
• “Material gains translucency upon light curing.”

COMPOSITE: BULKFILL, RESTORATIVE

Why we chose this product:
• “I loved the way it blended with the tooth.”
• “Easy to place, sculpt and, in general, work with.”
• “Good handling characteristics – just about the perfect consistency.”

BIOACTIVE PRODUCT

Why we chose this product:
• “Very nice delivery system.”
• “I was surprised as to how well the esthetics looked at one year, especially for anterior restorations.”
• “Having good uptake of calcium, phosphate and fluoride ions is a huge plus.”
Direct Restoratives

RMGI: RESTORATIVE

Riva Light Cure HV
(SDI North America, Inc.)

Why we chose this product:
• “Easy to place – material provides good adaptation.”
• “Finishes nicely.”
• “Sets quickly.”

Indirect Restoratives

CEMENTS: ADHESIVE RESIN

RelyX Ultimate (3M)

Why we chose this product:
• “This one kit does everything I need!”
• “No refrigeration required.”
• “Great bond strength.”

CEMENTS: INNOVATIVE

Ceramir
(Doxa Dental)

Why we chose this product:
• “Consistent mixes and setting times.”
• “Low-viscosity cement does not inhibit complete seating.”
• “Excess cement peels away with a light touch.”

CEMENTS: ESTHETIC RESIN

Variolink Esthetic
(Ivoclar Vivadent)

Why we chose this product:
• “Complete kit with everything needed.”
• “I was able to get precise shade matching”
• “Easy clean-up.”
• “Shading system is different, but it makes sense.”

CEMENTS: SELF ADHESIVE

RelyX Unicem 2 Automix
Self-Adhesive Resin Cement (3M)

Why we chose this product:
• “My favorite features were ease of use, consistent mixing, and less assistant time.”
• “Easy to dispense and clean up.”
• “Variety of tips is helpful.”
**Indirect Restoratives**

**CEMENTS: RMGI**

**FujiCem 2 (GC America)**

**Why we chose this product:**
- “I love this cement.”
- “This is my cement of choice for use with implant crowns.”
- “Cleanup is easy when the excess is removed at the gel stage.”
- “Very convenient to dispense the cement directly into the restoration.”

**CEMENTS: IMPLANT**

**CEM-Implant (BJM Laboratories)**

**Why we chose this product:**
- “Cem-Implant is an implant crown cement that ensures both seal and retrievability.”
- “Direct placement of cement into restorations makes the procedure quick and easy.”
- “Excess cement is easy to remove in one piece.”

**ALGINATE ALTERNATIVE**

**Xantasil (Harauvee Kutzer)**

**Why we chose this product:**
- “Works great as a matrix for making a temporary crown.”
- “Impressions turned out nicely each time!”
- “I won’t go back to alginate.”

**IMPRESSION MATERIAL: PVS**

**Imprint 4 (3M)**

**Why we chose this product:**
- “Good material – better than most VPS materials I have used in the past.”
- “Quick setting time – patients loved how fast it set.”
- “I never had a retake with this material in spite of some difficult subgingival preparations.”

**BITE REGISTRATION**

**Futar® Fast (Kettenbach LP)**

**Why we chose this product:**
- Easy to remove – does not lock into undercuts.
- “Setting time is just right for most clinical applications.”
- “Stiff but not brittle.”
- “Strong, even in paper-thin areas.”

**FIBER POST**

**Parapost Taper Lux (Colline Whaledent)**

**Why we chose this product:**
- “The posts have a retentive head design.”
- “The natural color of the posts enhances esthetics, especially in the anterior.”
- “Excellent product! ParaPost has been around for a long time and this is their best product.”
**Indirect Restoratives**

**PROVISIONAL: ESTHETIC**

*Why we chose this product:*
- “Nice esthetics and shade selection”
- “Great material.”
- “Luxatemp polishes to a high luster.”

**PROVISIONAL: UNIVERSAL**

*Why we chose this product:*
- “Great handling – easy to finish and polish.”
- “Good shade selection.”
- “Minimal air-inhibited layer.”
- “Fit is excellent.”

**RETRACTION CORD**

*Why we chose this product:*
- “The 000 size is an excellent addition to the traditional cord sizes.”
- “KnitPack+ is far more resistant to shredding and wrapping around a high speed bur.”
- “I love using the double- and triple-zero for two-cord technique.”

**CERAMIC POLISHERS**

*Why we chose this product:*
- “Excellent polish.”
- “High gloss finish.”
- “The adjustment wheel is perfect for reducing contact areas.”

---

**SOFT TISSUE MANAGEMENT PASTE**

*Why we chose this product:*
- “I have used Traxodent with my two-cord system and the results are great.”
- “Easy to use; rinses off completely.”
- “This material seemed to work well following a gingivectomy, where cord could not be placed.”

---

**PROVISIONAL: UNIVERSAL**

*Why we chose this product:*
- “Great handling – easy to finish and polish.”
- “Good shade selection.”
- “Minimal air-inhibited layer.”
- “Fit is excellent.”

---

**RETRACTION CORD**

*Why we chose this product:*
- “The 000 size is an excellent addition to the traditional cord sizes.”
- “KnitPack+ is far more resistant to shredding and wrapping around a high speed bur.”
- “I love using the double- and triple-zero for two-cord technique.”

---

**CERAMIC POLISHERS**

*Why we chose this product:*
- “Excellent polish.”
- “High gloss finish.”
- “The adjustment wheel is perfect for reducing contact areas.”
2016 PRODUCT AWARD WINNERS

Infection Control

**INSTRUMENT PROCESSOR**

Why we chose this product:
- “Instruments are clean and dry before sterilization.”
- “I used the five minute rinse cycle to clean soiled instruments immediately after use — later I ran a full cycle.”
- “Control panel is easy to operate.”

**WATERLINE TREATMENT PRODUCT**

Why we chose this product:
- “DP365B cartridges were able to successfully reduce and achieve control of waterborne bacteria in dental waterlines for a one-year test interval.”

**STERILIZATION MONITORING SYSTEM**

Why we chose this product:
- You can see results right away, as opposed to the monitoring service which takes days.
- “I like having three separate options to verify results.”
- “ConFirm 10 saves me time and money compared to the strips I have to mail in for results.”

**STERILIZER: CLASS B**

Why we chose this product:
- “Dries instruments and pouches better than any other sterilizer.”
- “Easy to use; easy to load/unload.”
- “I like the auto fill and auto drain features.”

**AIR/WATER SYRINGE TIP**

Why we chose this product:
- “Absolutely no water contamination when using air!”
- “We are switching all our syringes over to this system. I liked the quality of the adaptor, uniform spray, and quality of the tips.”
- “Spray was even and uniform. I could rotate the syringe tips, but they didn’t twist during use.”

**HVE TIP**

Why we chose this product:
- “One tip serves the function of a HVE tip and a saliva ejector.”
- “Does not grab soft tissue.”
- “The first real advance in HVE tips in 40 years.”
**GLOVES: CHLOROPRENE**

**Why we chose this product:**
- “The material stretches, unlike other non-latex gloves, making donning much easier.”
- “Gloves are easy to remove from the box.”
- “Feels like I don’t even have gloves on.”

**GLOVES: NITRILE**

**Why we chose this product:**
- “Gloves are soft and light-weight.”
- “No strain on my hands.”
- “The most comfortable nitrile gloves I have ever used.”
- “They do not feel like a typical nitrile glove; they are made of a very thin material, offer good tactile sense, provide better fit with less hand fatigue.”

**INFECTION CONTROL PRODUCT OF THE YEAR**

**Why we chose this product:**
- “Soothing to dry skin.”
- “This is an incredible product. Softening takes place immediately and lasts through multiple hand washings.”
- “Hands feel soft like they have lotion on, but with no greasy residue.”

**MASKS**

**Why we chose this product:**
- “Masks have a good fit and are secure and comfortable.”
- “I like the top and bottom strips for better adaptation/comfort.”
- “Easy to breathe – does not fog up glasses.”

**DISPOSABLE PRODUCT**

**Why we chose this product:**
- “I like that it is disposable and convenient to incorporate into my practice.”
- “I appreciate the lack of cross-contamination.”
- “Patients thought it was soft and comfortable.”
2016 PRODUCT AWARD WINNERS

Patient Products

POWERED TOOTHBRUSH

Why we chose this product:
• "The Oral-B App is very useful with adults trying to form better habits and kids/teenagers who need help."
• "The pressure sensor is brilliant for patients with recession."
• "Battery charge lasts a long time, and travel case is convenient."

MANUAL TOOTHBRUSH

Why we chose this product:
• "It cleaned better than other manual brushes that I've used."
• "The brush lays flat on a surface without rolling."
• "I really loved the softness of the tapered bristles and the deep-clean feeling it left behind."

TEMPORARY THERAPEUTIC DEVICE

Why we chose this product:
• "Great option when we need an immediate splint."
• "Molds and fits better than other 'boil-and-bite' guards."
• "Excellent adaptation and retention can be achieved."
• "Able to reheat and re-adapt numerous times."

LED HEADLIGHT

Why we chose this product:
• "Lightweight – I do not feel like any additional weight is on my glasses."
• "Battery charge lasts all day."
• "Bright, focused light."

TOP INTRAORAL CAMERA

Why we chose this product:
• "Great images!"
• "Camera is lightweight with a slim head."
• "Lights are bright but do not wash out the colors in the images."

PANORAMIC IMAGING SYSTEM

Why we chose this product:
• "One of the easiest machines to use."
• "Clear, crisp images."
• "The 2D+ feature is useful in determining the buccal-lingual relationship of objects in the images."

Diagnostic

www.dentaladvisor.com
**DENTAL DAM**

*Isodam (EDV Canada)*

**Why we chose this product:**
- "This is probably the best dental dam I have ever used. I was very pleased with it."
- "It is extremely flexible and doesn’t tear when stretching it."
- "Easy to place and floss it through without the need for lubrication of the dam."

---

**ENDODONTIC REPARATIVE CEMENT**

*NeoMTA Plus (Avantor Biomed, Inc.)*

**Why we chose this product:**
- "Economical and versatile bioactive material."
- "Ideal material for pulpal injuries and root treatments, especially pediatric pulpotomies."
- " Doesn’t discolor over time."
- "Consistency is smooth, not gritty."

---

**ENDODONTIC MEDICAMENT**

*Diapaste (Diadent Group International)*

**Why we chose this product:**
- "Highly radiopaque."
- "Pre-mixed paste saves time."
- "Tips are flexible."

---

**HYGIENE**

**FLUORIDE VARNISH**

*Fluorodose (Centriu Inc.)*

**Why we chose this product:**
- "Seemed to be less sticky than other brands I have used."
- "Patients like the variety in flavors."
- "Every child liked it!"

---

**PEDIATRIC PRODUCT**

*Zooby Prophy Angles/Prophy Paste (Dentical)*

**Why we chose this product:**
- "I liked the kid friendly designs and their names."
- "The animal characters were great for children ages 2-8. It really helped to engage the patient."
- "Zooby Prophy Angles performed as well or better than any prophy angles I have."

---

**PROPHY PASTE**

*Gelato Prophy Paste (Keystone Industries)*

**Why we chose this product:**
- "Does not splatter."
- "Easy to rinse."
- "Cups are color-coded and easy to open."
**2016 PRODUCT AWARD WINNERS**

### BEST VALUE PRODUCT

**Why we chose this product:**
- “Homogeneous mix and less waste.”
- “I found the MIXPAC T-Mixer tips to be an excellent product, providing a savings to the office without changing procedures.”
- “Cartridges are easy to change.”
- “Short mixing tips minimize waste.”

### ASSISTANT PRODUCT OF THE YEAR

**Why we chose this product:**
- “Nice variety of scents.”
- “Patients say they are comfortable.”
- “Seals well around the nose.”

### DYNAMIC MIXER

**Why we chose this product:**
- “Loading an impression tray is usually hard on my hand from squeezing the handle of an automix gun. This mixing system is literally as easy as the push of a button.”
- “Cartridges are easy to change.”
- “Short mixing tips minimize waste.”

### WHITENING: IN-OFFICE

**Why we chose this product:**
- “I have some patients who are very sensitive – having a gentle light output is great.”
- “Three, 10-minute rounds – the system is quick to use.”
- “This system produces the most consistent results. Every patient lightened at least three Vita shades.”

### INNOVATIVE PRODUCT OF THE YEAR

**Why we chose this product:**
- “This product is one of the best innovations in dentistry - less steps and no more hydrofluoric acid gel etch!”
- Lab testing performed by THE DENTAL ADVISOR confirmed excellent bond strengths when using this new primer with lithium disilicate ceramics.

### WHITENING: TAKE-HOME

**Why we chose this product:**
- “The 35% gel whitens the teeth fast!”
- “Nice patient kit.”

### WHITENING: TAKE-HOME

**Why we chose this product:**
- “Got a good mix every time.”

---

www.dentaladvisor.com
## Long-Term Performers

### LONG-TERM PERFORMER: PROVISIONAL

**Why we chose this product:**
- "This has been a wonderful compromise for both patient and doctor. The patient gets to keep their tooth and I get to give him an inexpensive crown that will last."
- "Emergency visit for a broken bridge in the esthetic zone. Nice results considering patient cannot afford other treatment at this time."

### LONG-TERM PERFORMER: COMPOSITE

**Why we chose this product:**
- "The esthetics were exceptional in non-discolored teeth."
- "I used an opaque composite or flowable to tone down any discoloration with good results."
- "I love the ease of placement of this composite – it is not sticky and contours well."

### LONG-TERM PERFORMER: ZIRCONIA

**Why we chose this product:**
- "Great option for second molars because minimal occlusal reduction is required (0.5–1.0 mm)."
- "The recalled BruxZir restorations looked great and had excellent anatomy and surface finish."
- "I use BruxZir for all molars and bridges and for patients who brux. I have not had any failures."

### LONG-TERM PERFORMER: CEMENT

**Why we chose this product:**
- "My favorite features were ease of use, consistent mixing, and less assistant time."
- "Easy to dispense and clean up."
- "Variety of tips is helpful."

</table>
BURS: DIAMOND, SINGLE USE

Why we chose this product:
• “Diamonds are consistently sharp right out of the package.”
• “Smooth tooth reduction.”
• “Color coding is helpful – I can choose the right grit at a glance.”

HANDPIECE: AIR DRIVEN

Why we chose this product:
• “I liked the light weight, balance and small head size.”
• “Great all-around handpieces.”
• “Very good torque.”

HANDPIECE: HYGIENE

Why we chose this product:
• “Lightweight and quiet.”
• “I can polish all day without recharging.”
• “My hand does not get tired after holding this handpiece.”

HANDPIECE MAINTENANCE SYSTEM

Why we chose this product:
• “Instructions thoroughly cover use and maintenance of the STATMATIC unit.”
• “Cans of STATMATIC Spray are easy to load and unload.”
• “Operation is simple once handpieces are installed.”
• “Disposable absorption pads were effective in collecting excess oil and keeping the interior of the unit clean.”

BONDING AGENT: 5TH GENERATION

Why we chose this product:
• “Easy to use, multipurpose product.”
• “Coats tooth surface well.”
• “Good radiopacity.”

BONDING AGENT: UNIVERSAL

Why we chose this product:
• “Precise application.”
• “No post-operative sensitivity.”
• “Less waste than a dropper bottle or unit-dose delivery.”
COMPOSITE: UNIVERSAL-MULTILAYER

Aura (SDI North America, Inc.)

Why we chose this product:
• The handling properties of Aura are very good.*
• “I like the viscosity of the light body—little to no voids, bubbles or drags.”
• “The heavy-bodied material extruded easily compared with most heavy-bodied materials. The light- and heavy-bodied materials always blended together seamlessly and the heavy-bodied material provided excellent detail without drag.”

COMPOSITE: BULK FILL, RESTORATIVE

Filtek Bulk Fill Posterior (3M)

Why we chose this product:
• “Good shade selection; adapted well to cavity walls.”
• “Easy to dispense, place, and handle.”
• “Does not stick to my instrument and has no pull back.”
• “One step fill is great”

LED CURING LIGHT

Elipar DeepCure S (3M)

Why we chose this product:
• “The stainless steel housing is easy to keep clean.”
• “No noise.”
• “Simple programming has basic functions.”
• “Unit is heavier than some others but more durable.”

IMPRESSION MATERIAL: PVS

Panasil (Kettenbach Uf)

Why we chose this product:
• “I like the viscosity of the light body—little to no voids, bubbles or drags.”
• “The heavy-bodied material extruded easily compared with most heavy-bodied materials. The light- and heavy-bodied materials always blended together seamlessly and the heavy-bodied material provided excellent detail without drag.”

CEMENTS: ADHESIVE RESIN

eCEMENT (Bisco Dental Products)

Why we chose this product:
• “It is a complete system with everything in one kit.”
• “Universal shade works well in most cases.”
• “Compared to other adhesive resin cements, e-CEMENT is a complete kit and easy to use.”

FIBER POST

ilumipost (Ilumí Sciences, Inc.)

Why we chose this product:
• “The drills are nicely matched with the post size, making placement very predictable.”
• “Good radiopacity.”
• “Blister packs keep posts clean until ready for use.”
**CERAMIC PRIMER (ZIRCONIA & METAL)**

Why we chose this product:
- “It was really easy to use – single bottle, no mixing – and coated very well.”
- “I did not have to refrigerate.”
- “Compatible with dual-cured resins and most surfaces.”

**WHITENING: IN-OFFICE**

Why we chose this product:
- “Quickest, simplest in-office whitening system I have used.”
- “Not one patient had any sensitivity.”
- “Flexible light head was very easy to position.”

**GLOVES: CHLOROPRENE**

Why we chose this product:
- “For a non-latex glove, it is very good. They stretch better than other non-latex gloves I have used.”
- “Does not create tension on my hands”
- “Loved the grip feature on the fingertips.”

**PEDiatric PRODUCT**

Why we chose this product:
- “Angie Line makes the dental experience fun for kids and offers a nice distraction.”
- “Parents loved the Dental Album as an organized way to store primary teeth.”
- “The more useful products were the ones that camouflaged scary dental equipment and made it fun.”

**ENZYMATIC CLEANER**

Why we chose this product:
- “It did not break down in ultrasonic cleaner like the other solutions do – stays bubbly all day.”
- “Effective while being nontoxic.”
- “Instruments come out shiny.”

**SURFACE DISINFECTANT**

Why we chose this product:
- “Cleans surfaces really well before disinfecting!”
- “Surface stays wet, and the wipes don’t dry out.”
- “I love the XL size wipes!”
ENDODONTIC REPARATIVE CEMENT

Why we chose this product:
- “Ideal for pulpotomy.”
- “Excellent results with perforations.”
- “Visually identifiable on radiographs.”
- “Multiple-use packaging is economical.”

AMALGAM CONTAINMENT SYSTEM

Why we chose this product:
- “Low maintenance system.”
- “Great solution for small spaces.”
- “I was concerned about changing the filter but was pleasantly surprised at the ease and cleanliness!”

GAUZE

Why we chose this product:
- “I could rest assured that the gauze stayed sterile until the patient was ready to use it.”
- “Positive patient perception – package is clearly marked ‘sterile’. ”
- “Gauze squares are thick and soft.”
- “Package is easy to open.”

TOPICAL ANESTHETIC
One Touch Advanced, Hager Worldwide

NEEDLES

Dr. Sabiha Bunek, Editor In Chief of THE DENTAL ADVISOR, will discuss highly rated products in the industry. These products are carefully chosen for outstanding performance when used by practicing clinicians. Product features, advantages, and clinical use will be discussed. This session will also allow attendees to ask questions on product use and clinical armamentarium. Categories will include: Direct and Indirect Restoratives, Long Term Performers, Infection Control Products, Specialty Products, and Hygiene Products. For over 30 years, THE DENTAL ADVISOR has been a trusted resource for the dental industry providing objective information on products and equipment.
