

Hand Sanitizer

Medical Grade
70% + Alcohol

Germ fighting

Strong enough
for hospitals and
medical facilities.

Made with skin
saving Aloe Vera
extract to protect.

product details

This product has the appearance of a colourless, clear and transparent gel. No impurities. It has the inherent odour of ethanol*, with no added perfumes.

When possible it is recommended to use soap and water as an alternative to hand sanitizer. However, there are many situations where access to soap and water is not readily available, and hand sanitizer should be used as an alternative.

Hand** sanitizer has the tendency to dry and crack skin. This hand sanitizer product contains Aloe Vera extract. Natural Aloe Vera extract helps to keep drying to a minimum.

FDA#: 2004160120
