* This product has been tested for compliance with EMC requirements using a power supply in compliance with CISPR32 Class B. Any power supply used with this product should be safety certified to EN60950, EN60065 or EN62368. The power supply should be marked with CE/FCC symbols indicating compliance with safety and EMC requirements.

TAKE CONTROL!

LEVEL

Sets the volume of the pedal.

BASS & TREBLE

Turn right to boost, & turn left to cut.

GAIN

All the way left is completely clean.
Turning clockwise increases gain &
blends in overdrive.

TOGGLE SWITCH

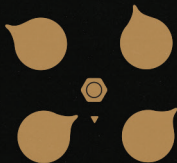

Up is more compressed with less
headroom. Down is open and clear
with more transparency.
