

# Javelin™

## Kitchen Drain and Septic Treatment

prevents clogs and increases biological activity in septic tanks, septic beds and grease traps.

## FAQs

### 1. My Septic System is backed up. Will Javelin™ Kitchen Drain and Septic Treatment clear my drain lines, or should I have the drain lines snaked?

If your drains are blocked, it would make the most sense to call a plumber and have your drains snaked. After this, use Javelin™ Kitchen Drain and Septic Treatment to maintain your drains lines and ensure that they continue to be free flowing. Javelin™ Kitchen Drain and Septic Treatment utilizes enzymatic activity which is a natural process. This process breaks down all the solid materials in Septic tanks and grease traps. Javelin™ Kitchen Drain and Septic Treatment safely maintains septic system drain lines when used correctly.

### 2. I'm on a septic system. My shower is clogged with hair and my kitchen sink is also slow running. Will Javelin™ Kitchen Drain and Septic Treatment clear these two blockages?

For immediate results, use Javelin™ Tub and Sink Treatment to clear your shower drain. Use Javelin™ Kitchen Drain and Septic Treatment as directed to solve your slow running kitchen sink.
