You want the best for your family. You only buy grass-fed beef, cage-free chicken, and organic fruits & vegetables.

When it comes to skincare, it is no surprise that you are likely looking for the same things: products which are natural, holistic and clean.
The problem is that nearly all the natural products you have tried this far don’t seem to work. Simply put, they have no clinical efficacy. 

You just want a natural, pure, clean skincare product that works!

You want your skin to look healthy and young. You want to transform your face back to what it looked and felt like 5 or 10 years ago.
We Have the Solution!

DR. WANG HERBAL SKINCARE
NOURISHING YOUTH SERUM

NATURAL + EFFECTIVE

• Formulated and manufactured by dermatologist and acupuncturist & herbalist

• 2-in-1. It is a serum and moisturizer

• 97% natural

• Combines Eastern herbology with Western science
Amazing Results in Just One Week!

Immediately, after one application, your face will experience a surge of hydration and moisturization.

Protected by an invisible, satin-like bio-barrier, your face is shielded from environmental damage, while microdroplets of nutrients in our Serum are infused to individual skin cells to optimize their biologic function.

In one week, you will feel a dramatic difference in your appearance. Now imagine what that healthy transformation feels and looks like.

Your face will be smooth as silk and soft as cloud. The rough and dry textures are a distant past.

The breakouts and red complexion will be calmer. You will see the appearance of fine lines start to fade.
AMAZING RESULTS IN JUST ONE WEEK!

You will not be the only one who will see this dramatic change. Your husband, girlfriends, neighbors and colleagues will compliment your new look.

Don’t be surprised if anyone asks “what are you doing differently to your skin.” They may even secretly wonder which dermatologist or plastic surgeon you saw last week.

This is your secret weapon to reverse the aging look!

2 SECRETS MAKING OUR SERUM UNIQUELY POWERFUL

1. We combine the best of Eastern herbal tradition, specifically traditional Chinese medicine with Western medicine and science.

2. Our serum is made with our patented MicroDroplet formulation technology that doesn’t use heat.
The vast majority of skincare products are made by heating the mixture of water and oil-phase ingredients together to 150–190 degrees Fahrenheit.

The problem is that, much like cooking vegetables, heat destroys the nutrients in skincare products, making them less effective.

This is just one reason why you are not seeing the results with other natural, or even traditional, skincare products.
WHY WE DON’T USE HEAT TO MAKE OUR YOUTH SERUM

Our hero Nourishing Youth Serum is made without heat. It is formulated with the patented MicroDroplet technology. It uses a breakthrough cold-pressurized technology.

The water and oil-phase ingredients are smashed together under incredibly high pressure.

Using this patented technology, all the natural ingredients, nutrients, antioxidants and herbal extracts in our serum are protected, making the final product incredibly rich and potent.
“ONE OF THE BEST SKINCARE BRANDS BY DERMATOLOGISTS IN 2018.”

- Allure Magazine

As a side advantage, the particle size of our serum is incredibly small. Our serum droplets are >30,000x smaller than serums made with the conventional heated technology.

This size difference allows our serum to be absorbed faster and deeper into the skin, delivering enriched and protected nutrients to individual skin cells.

Partially due to this innovative breakthrough, Allure featured Dr. Wang Herbal Skincare as “one of the best skincare brands by dermatologists” in 2018.
SOME OF OUR REVIEWS

Pure
Soothing anti-inflammatory serum that both feels and smells pure

Sarah M.

Fantastic Product!
Dr. Wang recommended I try this product at my last checkup to combat my overly dry and irritated skin. I am already noticing a difference in just a couple of weeks. Fantastic product, I highly recommend!

Velvet Smooth Elixir
This lovely Serum is light, yet hydrating to the skin. Pleasing light aroma and absorbs beautifully with the skin. I love to massage into the skin.
Dr. Wang Herbal Skincare is founded by a father-and-son team. We are healers. Everything we do resonates from the core belief as physicians.

Dr. Steven Wang (son) is a board certified dermatologist, and director at Memorial Sloan Kettering Cancer Center in NJ. He has published 5 books and 85 articles in peer reviewed scientific journals and academic textbooks. He lectures around the world and frequently interviewed by media sources such as Allure, Oprah magazine, New York Times, and Wall Street Journal.

Gui Wang, Lac was an acupuncturist and herbalist with more than 40 years of clinical experience.
This one product can replace 2 to 3 products of your current skincare routine. It serves as a serum, moisturizer, eye serum, and even a semi-primer. It will last 6–8 weeks.

**OVER TIME, YOU CAN SAVE HUNDREDS OF DOLLARS BY USING OUR SERUM ALONE!**

We are confident you will love our serum. Many of our customers are repeat buyers who have been raving about this natural, holistic and highly potent age reversing product. They bought it again and again for themselves and as gifts for others.

**DID WE MENTION OUR MONEY-BACK GUARANTEE?**

If our serum cannot perform to your satisfaction, just return it within 30 days to get your full refund back. No questions asked.
