**PRUDENCE OLIVERI**  
artist

Concrete and strong architectural lines are features in this newly built residence on Victoria's west coast, home to artist Prudence Oliveri, her husband Damian, son Teddy, and three dogs as well as many of Prudence's works.

**MY FAVE THINGS**

(see previous page)

**Artwork** *Circus Plans*.

It's the first piece I painted for our new home.

**Hat** I'm always in a hat and this Brixton one is my favourite. It's from a shop in Victoria, Dos Primos.

**Flower** I love nothing better than a freshly picked hydrangea.

**Ceramic cross** This was a gift from my sister. She always chooses amazing presents.

**Books** Our collection is an endless source of inspiration.

**Armchair** An Arflex Marengo design from Poliform. I love to park in this big velvet cloud with a glass of wine.

**Rugs** Moroccan Boucherouite rugs from Society of Wanderers. I layer them to create one big rug.

**Vase** This hand-painted vase from Iggy & Lou Lou was a present from my husband.

**Shoes** Who doesn't love a pink suede mule! From Zomp. Prudence's art is available at [www.greenhouseinteriors.com.au](http://www.greenhouseinteriors.com.au).

WHERE PRUDENCE SHOPS FOR... FURNITURE POLIFORM, ADAM LYNCH. HOMEWARES S&R BOUTIQUE (TORQUAY), BAMBOLOTTA (BARWON HEADS). ART BOOM GALLERY (GEELONG).

We're big fans of Position Collective's new Pran customisable pendant lights, from \$950/each, available in 10 configurations and multiple colour and material combos. [www.envoy.com.au](http://www.envoy.com.au).

*Rejoice! West Elm, Pottery Barn and Pottery Barn Kids are set to open in Brisbane and Perth later this year. [www.westelm.com.au](http://www.westelm.com.au).*

Designer Jaime Hayón's curvaceous new Sammen chairs for Fritz Hansen combine comfort with simplicity of form. Consider them an investment in fine dining. [www.cultdesign.com.au](http://www.cultdesign.com.au).

**DESIGN EVOLUTION**  
*Dyson vacuum cleaner*

1978

James Dyson invents dual-cyclone technology using centrifugal force.

1985

James's first bagless vacuum, the G-Force, launches in Japan.

1993

The DC01 bagless vacuum cleaner is released by Dyson.
