

**MUST HAVE**

**BLUESCREW®**

**TIGHT AS**

**BLUESCREW®** is more than just a tent peg... This ground breaking **ground anchor** developed in Australia, is a must-have for anyone who loves the great outdoors... This super secure anchor is perfect for:

- tents & tarps
- sun shelters
- boats & Jetski's
- dogs & pets
- sports nets
- even snow!

**BLUESCREW'S®** unique twist mechanism provides incredible resistance and are simply screwed in **and out** by hand. Made from durable, lightweight engineered plastic, they are effective in sand, turf, snow & underwater.

# BLUESCREW®

## TIGHT AS

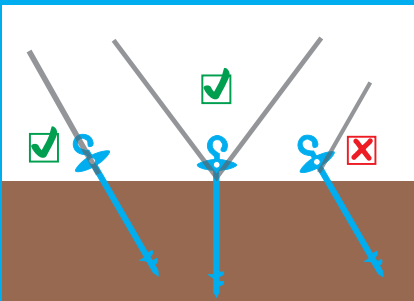

Bluescrew comes in 2 sizes to solve the problem of tent pegs that pull out of sand and soil.

**LARGE**  
(58cm/23"):  
Ideal for sand,  
soft soil, snow  
and even  
underwater.  
Available 2 per  
packet.

**SMALL**  
(31cm/12.5")  
: Perfect for  
campsites,  
turf and  
firm soil.  
Available 4  
per packet.

Bluescrew can resist a number of forces from different directions simultaneously. The unique helix is designed to use the weight of the ground for resistance.

### INSTRUCTIONS FOR USE:

Position Bluescrew and screw it into the ground in a clockwise direction using downward pressure. Bluescrew should be inserted in line with the rope (for use with 1 rope) or vertically (for use with 2 ropes) To retrieve simply turn anti-clockwise. Not suitable for use in hard ground.
