Alfa Chair

The Alfa dining chair by Bontempi Casa is an attractive seating solution for a modern dining area. The slightly curved back and angled back legs provide ergonomic support to promote proper posture, and the soft upholstery offers comfort for hours. With contrasting finishes on the seat and legs, it creates a vibrant juxtaposition to make the chair stand out in style. It is available in mink econabuk. The frame comes in anthracite wood, and the legs have a stained solid walnut wood finish.
