

# **FINISHES**

### Seat Finish - Polypropylene

#### **Galaxy Chair**

The cutouts along the back create an eye-catching geometric pattern that stands out in style. Thanks to the durable and weather-resistant polypropylene structure, the chair is sustainable outside for the long haul. With angled legs and a slightly curved back, it provides ergonomic support and comfort. The chairs are easily stackable, making them ideal for space-conscious areas.

## Leg Finish - Polypropylene

#### **MATERIALS**

- Plastic
