## MATERIALS

- Wood
- Glass
- Metal

## Pica Grooved Sideboard

The cutouts along the front create a geometrically inspired pattern with a combination of clean lines and angled accents. With ample space in each compartment, organizing essential belongings is a breeze. The large top allows for countless display opportunities for added appeal. The top is finished in velvet matte light grey glass, the doors and side panels come in light grey lacquered wood, and the legs have a light grey metal finish.
