- Glass

### Planet Coffee & Side Table

The Planet coffee table quick ship by Bontempi Casa makes a grand impression in a contemporary living room. As the name suggests, the round top resembles a planet in space for a bold touch. The round structure's raised edge brings a multi-dimensional touch and keeps items on top securely in place. The top comes in velvet anti-scratch black lacquered glass, the frame is in glossy black metal, and the other details are in aged brass.
