- Lacquered
- Wood
- Aluminum
- Metal

Optional Metal Base

The dresser/sideboard includes ABS feet H 3/4" (2 cm). The feet can be replaced by an optional metal base cm 16H or 32H.

A simple and refined sideboard in which the characteristic sign of Horm is immediately recognizable: an insert of a portion of the famous Ripples bench by Toyo Ito, which characterizes the aesthetic aspect by changing the minimal approach of the overall design. The element is none other than the front of a slim jewelry drawer.

Structure and front drawers made from particleboard or MDF, either veneered or lacquered. Drawers with self-locking slide runners and sides made from anodized aluminum.
