Drawer Sides Finish - Wood

origami wood  
in walnut

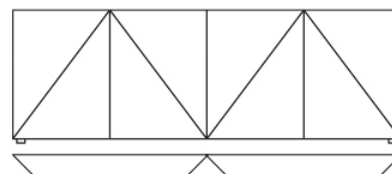

### MATERIALS

- Lacquered
- Wood
- Metal

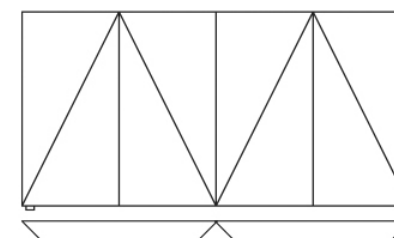

Not Riddled features diamond-shaped doors that open and close without the aid of hinges. Steven Holl has been able to model a sheet of wood-fabric which, thanks to small laser engravings, can be folded like an origami, hugging the sides of the container.

Structure made from lacquered particleboard or MDF. Sides and doors made from a material designed and patented by Horm, composed of a sandwich of walnut veneer and fabric 2.2 mm thick,
