Top Structure Finish - Wood

Walnut Mahogany
Cherry Oak Ash

Leg Structure Finish - Wood

Walnut

MATERIALS

- Glass
- Wood

The Ripples dining table by Toyo Ito, winner of the 2004 Compasso d'Oro, has blossomed into a collection of different furniture types. Amongst them, we may highlight the Ripples table, featuring a transparent glass table top that presents its impressive structure, fabricated with a laminated composite of five different solid woods namely, walnut, mahogany, cherry, oak and ash.

Multilayer structure in five wood essences (Canaletto walnut, mahogany, cherry, oak and beech). The countersink of the rims is entirely hand-finished. Top in tempered glass, thickness 12 mm.
