MATERIALS

- Laquered
- Metal

Tide Sideboard W/ Chest of Drawers reflects the style of its designer, Karim Rashid, who worked with various movements and dynamics in this project. The horizontal development of the front, made of evenly-spaced, thin sheets of MDF, confers a gentle and sculptured aspect to the whole.

Structure and drawer fronts made from lacquered particleboard or MDF. Ripple-effect on the front is made from lacquered MDF. Drawers with self-locking slide runners and sides made from anodized aluminum.
